DECLARATION.

No. 4514.—The 5th December 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz, for that portion of the extension of the Godhur siding, Dhanbaid-Katrasgarh Branch of the East Indian Railway, which lies between chains 45·83 and the end of the siding shewn edged with pink on the plan, and whereas coal mines are situate under the said land, and whereas Messrs. Kanga and Company have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 10 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Messrs. Kanga and Company have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal in Council is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Messrs. Kanga and Company in the manner and subject to the restrictions below specified, viz.—

(*a*) Galleries may be driven not more than 12 feet wide and 10 feet high, with centres not less than 52 feet apart, forming pillars not less than 40 feet square to be left unworked for the support of the acquired land.

(*b*) Manholes not exceeding 6 feet in height and 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(*c*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*d*) The above restrictions apply to No. 10 seam only, and to the area edged with pink on the plan, and Messrs. Kanga and Company shall give notice, under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land.

The plan marked L. A. M. A. No. 167 signed by the Chief Inspector of Mines may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

J. G. CUMMING,
Secy. to. the Govt. of Bengal.

MILITARY SECRETARY'S OFFICE.

NOTIFICATIONS.

Calcutta, the 25th November 1910.

No. 3214M.—Notice is hereby given that His Excellency the Viceroy and Governor-General will hold a Levée at Government House, Calcutta, at 9-30 P.M. on Wednesday, the 14th December 1910.

All Civil, Naval and Military Officers, Members of the Consular Body, Gentlemen whose names are borne on the Government House List, or who have already been presented at the Court of St. James, and Indian Officers of the Indian Regiments of the Garrison, are invited to attend the Levée.

The following regulations are to be observed :—

I.—Admission into Government House on the occasion of the Levée will be by ticket only, which will be issued by the Military Secretary's Office, on receipt of applications from Officers and other gentlemen who are already on the Government House List or who have already been presented at the Court of St. James and are desirous of attending the Levée.

II.—Applications for tickets of admission, with addresses, should be submitted to the MILITARY SECRETARY'S OFFICE not later than Friday, the 9th December, *after which date no applications will be received.*

III.—On receipt of applications, tickets of admission into Government House will be issued. These tickets will be made use of by the Military Secretary when reading the names to His Excellency the Viceroy, and must consequently be carefully preserved. No other name-cards will be required.

IV.—Rules I, II and III do not apply to gentlemen who have the privilege of the Private Entrée to Government House. They should, however, apply for a Coachman's badge, which should be hung round the coachman's neck when attending the Levée, or any other function at Government House.

V.—Gentlemen who propose to present others should apply to the OFFICE OF THE MILITARY SECRETARY TO THE VICEROY, CALCUTTA, for a "Form of Presentation," which, after the necessary particulars have been filled in, should be submitted for approval to the Military Secretary's Office not later than Wednesday, the 7th December 1910, in order that the names may be submitted to His Excellency, when, if they are approved, presentation cards will be forwarded. These presentation cards will be made use of by the Military Secretary when reading the names to His Excellency he Viceroy and must therefore be carefully preserved.

VI.—It is requested that gentlemen whose names begin with the letters A to K will as far as possible, assemble at Government House before 9 P.M., and the remainder at 9-30 P.M.

VII.—Gentlemen presenting others must themselves attend the Levée.

VIII.—Dress: Civilians—Levée Dress; Military Officers—Review Order, dismounted. Helmets will not be taken to the Levée.

IX.—Clergymen, being University Graduates, and other gentlemen entitled to wear robes or gowns on account of Judicial or Academical office or status, and not entitled to wear uniform, will appear in such robes or gowns.

X.—Gentlemen not entitled to wear uniform, or robes or gowns, will appear in Evening Dress.

XI.—Indian gentlemen who do not appear in the dress prescribed above will wear Choga, Aba or Jubba and Chapkan, Chilta, Saya or Kaba, with trousers and their distinctive national head-dress, or the ceremonial dress approved for their class by the Local Government.

In the case of Bengali gentlemen the head-dress should be a Pugree generally known as Shamla or Mouratta, and not a brimless cap.

In the case of Burmese gentlemen the head-dress should be a white fillet, the hair being dressed in a top knot.

Indian gentlemen, who do not appear in the dress prescribed in Rules VIII, IX and X should not remove their head-dress when they pass His Excellency.

At the Viceregal Court *only patent leather boots or shoes of an English pattern* are allowed to be worn, except in the case of Indian Military Officers, who wear the particular style of boot or shoe which forms part of their uniform.

XII.—Gentlemen who had intended to be present, but have found themselves unable to do so, should submit an explanatory letter to the Military Secretary to the Viceroy before, or as soon as possible after, the Levée.

XIII.—The carriages of gentlemen having the Private Entrée will enter by the South Gate, and set down at the South entrance of Government House. All other carriages will enter by the North-East or North-West Gate, as directed by the Police on duty. These two Gates will not be closed until the Levée is over.

No. 3215M.—Their Excellencies the Viceroy and the Lady Hardinge will hold a Drawing Room at Government House, Calcutta, on Tuesday, the 20th December 1910, at 9-30 P.M.

Ladies whose names are borne on the Government House List, or who have already been presented at the Court of St. James, proposing to attend the Drawing Room are requested to send their cards, with their addresses, to the OFFICE OF THE MILITARY SECRETARY TO THE VICEROY, GOVERNMENT HOUSE, CALCUTTA, not later than Friday, the 16th December 1910, *after which date no cards will be received*, and to bring with them to the Drawing Room one large card with their names *clearly written* thereon to be given to the Military Secretary at the time of presentation.

Ladies who propose to present others should send in, *in writing*, the names of such ladies to the Office of the Military Secretary to the Viceroy, Calcutta, *not later than Tuesday, the 13th December*, when, if they are approved, presentation cards will be forwarded.

Ladies who present others must themselves attend the Drawing Room.

Ladies attending the Drawing Room will appear in full dress, but need not wear trains or feathers.

Ladies who had intended to be present, but have found themselves unable to do so, should send an explanatory letter to the Military Secretary before, or as soon as possible after, the Drawing Room.

Gentlemen having the Private Entrée themselves, and accompanying ladies by the Private Entrée, will be admitted to the Throne Room.

Gentlemen accompanying Ladies by the Public Entrée will leave them at the entrance to the Eastern Gallery and rejoin them in the Ball Room.

The carriages of those who have the Private Entrée will enter by the South Gate, and set down at the South entrance of Government House. All other carriages will enter by the North-East or North-West Gate, as directed by the Police on duty.

By Command,

F. A. MAXWELL, *Major*,
Military Secretary to the Viceroy.

Calcutta.

No. 1551M.—The 3rd December 1910.—In exercise of the power conferred by sub-section (2) of section 9A of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), the Lieutenant-Governor in Council is pleased to include within the Asansol Municipality a local area comprising 0·29 square miles, which is contiguous to that Municipality and the boundaries of which are as follows:—

Burdwan.

South.—A line drawn westward in continuation of the existing southern boundary line from a point A on the western boundary of the Bengal-Nagpur Railway line opposite centre of the Bengal-Nagpur Railway bridge No. 530 to a point M at a distance of about 1,050 feet.

West.—A line drawn northward from the aforesaid point M to a point N at the foot of a peepul tree at a distance of 4,650 feet crossing the centre of the Grand Trunk Road 24 feet west of the centre of its bridge No. 163 and also the centre of the East Indian Railway lines 565 feet west of the centre of their bridge No. 533.

North.—A line drawn eastward from the aforesaid point N to a point O at a distance of 2,415 feet, where it meets the existing western boundary line between C D[1] crossing the Garoi river.

East.—A line drawn southward from the aforesaid point O to a point at the centre of the East Indian Railway bridge No. 531; thence to a point B at the centre of the Grand Trunk Road 68 feet west of the centre of the Grand Trunk Road overbridge crossing the Bengal-Nagpur Railway line; thence along the western boundary of the Bengal-Nagpur Railway land to the first starting point A.

2. The boundaries of the Asansol Municipality, after the inclusion of the said area, will be as follows:—

West.—A line drawn northward from a point M at a distance of 1,050 feet west of a point A on the western boundary of the Bengal-Nagpur Railway line opposite centre of the Bengal-Nagpur Railway bridge No. 530 to a point N at the foot of a peepul tree at a distance of 4,650 feet crossing the centre of the Grand Trunk Road, 24 feet west of the centre of its bridge No. 163 and also the centre of the East Indian Railway lines, 565 feet west of the centre of their bridge No. 533; thence eastward to a point O at a distance of 2,415 feet, where it meets the existing western boundary line between C D[1], crossing the Garoi river, thence to a point D[1], a point 600 feet east of the point D (north-west corner of new rifle range stop butt) on the line joining the point D with the point E at the centre of the north end of Dhadka road bridge over the Garoi river.

North.—A line from the above last point D[1] to east to a point E at the centre of the north end of Dhadka road bridge over the Garoi river; thence along the northern bank of the Garoi river to a point F, where the northern bank intersects the northward prolongation of the line which joins the centres of the Grand Trunk Road bridge No. 153 and the East Indian Railway bridge No. 525.

East.—A line from the above last point F on the northern bank of the Garoi river to south through the centre of the East Indian Railway bridge No. 525 to a point H at the south-east corner of Burarshire tank.

South.—A line from the above last point H at the south-east corner of Burarshire tank to west at a point J on the north-east corner of Duarshire tank; thence to a point K at the centre of the road to Narshing bandh 170 feet south of the trijunction of this road with the road from Bundha to Drupdanga south-west of Upar bandh tank; thence to a point L at the north-west corner of Dhurar tank; thence to the aforesaid point A on the western boundary of the Bengal-Nagpur Railway line; thence to the first starting point M at a distance of 1,050 feet where the western boundary commenced.

No. 1569M.—The 5th December 1910.—In exercise of the power conferred by section 569 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), the Lieutenant-Governor in Council is pleased to sanction the following rules made by the Corporation of Calcutta under clause (*b*) of section 73 of that Act, for regulating the grant of leave of absence, leave allowances and acting allowances to Municipal officers and servants, in supersession of all existing rules on the subject:—

Calcutta.

Leave and Acting Allowance Rules made by the Corporation of Calcutta under section 73 (b) of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899).

A.—DEFINITIONS.

1. *Active service*—Means time spent on duty and includes periods of privilege leave.

2. *Calendar month.*—The following examples show how a period stated in calendar months should be calculated:—

EXAMPLES.—A period of six calendar months—

Beginning on the—	*Ends on the*—
28th February.	27th August.
31st March or 1st April.	30th September.
29th August.	28th February.
30th August or 1st September.	Last day of February.

A period of three calendar months—

Beginning on the—	*Ends on the*—
29th November.	28th February.
30th November or 1st December.	Last day of February.

3. *Continuous service*—Includes special leave on urgent private affairs as well as active service. Furlough and extraordinary leave, provided they last in either case for not more than three months, do not break continuity: nor does absence after the expiry of leave, provided the officer retains a lien on his appointment.

4. *Pay and salary.*—For the purposes of these rules "Pay" means "monthly substantive pay," and "Salary" includes acting or charge allowance, if any, but no other allowance.

B.—General Rules.

5. Subject to the following rules, leave of absence from duty may be granted to all officers and servants of the Corporation. Such leave may either be—

(1) Privilege leave.
(2) Special leave on urgent private affairs.
(3) Leave on medical certificate.
(4) Furlough.
(5) Extraordinary leave.

NOTE 1.—To cover short periods of absence, casual leave not exceeding ten days at any one time may be granted at the absolute discretion of the Chairman under such conditions as may be fixed by him. Such leave is not subject to any rule, and the period of such leave shall be counted as active service.

NOTE 2.—Casual leave should not, however, be given so as to cause evasion of the rules regarding—

(i) Date of reckoning allowances.
(ii) Charge of office.
(iii) Commencement and end of leave.
(iv) Return to duty.

Or so as to extend the term of privilege or other leave beyond the time admissible by rule.

6. An officer, whilst on leave, has a lien on his substantive appointment; he has also lien on his officiating appointment, so long as it is not resumed by an officer having a superior lien on it.

7. Leave of absence cannot be claimed as of right. Nothing in these rules must be understood to limit the free discretion of the Municipal authorities to refuse, or revoke, leave of absence of any description at any time according to the exigencies of the service.

8. An officer under contract is subject to these rules unless varied or modified by the terms of his contract.

9. An officer who has a temporary or officiating appointment only may be allowed privilege leave, without losing his lien on such appointment, if no substitute is required, or if his duties can be provided for without additional expense.

Subject to the same conditions he may be granted leave on medical certificate for not more than three months.

Extraordinary leave without allowances, however, may be granted him at the absolute discretion of the Municipal authority concerned, but for not more than three months.

If such an officer is, without interruption of his service, appointed to a permanent office, his temporary or officiating service may be treated as duty qualifying for privilege leave.

10. (*a*) An officer who is discharged on reduction of establishment from, or who resigns the Corporation service, and is re-employed after an interval cannot, without the sanction of the Corporation, count his former service towards leave.

(*b*) An officer, who is dismissed or removed from the Corporation service, and who is reinstated on appeal, cannot count his former service towards leave, unless the authority which, on revision or appeal reverses the order of dismissal or removal, declares that his former qualifying service shall count.

11. Except as provided in rule 9, an officer cannot obtain leave, unless he has a substantive or permanent appointment.

12. Ordinarily, leave in and out of India begins on the day on which transfer of charge is effected, or, if charge is transferred after noon, on the following day. Similarly, such leave ordinarily ends on the day preceding that on which charge is resumed, or, if charge is resumed after noon, on that day. But, if a Sunday or one or more Corporation holidays fall on the day immediately preceding that on which the leave begins, or on the day on which the leave ends, an officer may leave his appointment at the close of the day before, or return to it at the end of such holidays.

If holidays are, as above, prefixed to leave, the leave and the consequent re-arrangement of allowances, if any, take effect from the first day after the holidays on which the office is open for business, and if holidays are affixed to leave, the leave is treated as having terminated on, and the re-arrangement of allowances, if any, takes effect from the day on which the officer would have resumed charge, had holidays not followed the leave.

In cases in which the application of the above rules as to prefixing and affixing holidays to leave is doubtful or inequitable, the Chairman shall decide which officer shall be held to have been in charge and to whom the salary of the office for the Sunday or holidays shall be paid.

13. An officer on leave in or out of India taken on account of ill-health, whether the leave be technically leave on medical certificate or not, may be required by the authority who granted the leave to produce, before he is permitted to return to duty, a medical certificate of fitness signed by such medical officer as the authority may direct.

14. An officer may not, without the permission of the authority which granted him leave, return to duty more than 14 days before the end of the long leave, *that is*, of leave other than privilege leave.

15. An officer, who absents himself without leave, or who remains absent after the end of his leave, is entitled to no allowance for the period of such absence, and ceases to have a lien on his appointment under the Corporation. Should, however, the absentee be eligible for leave (other than casual leave) to cover the period of unauthorised absence, it shall be

open to the authority concerned to grant such leave as the circumstances of the case may require.

Only when the prolonged absence is due to causes wholly beyond the officer's control, may casual leave be granted (as, for example, detention in a plague camp), and then only for a period which might reasonably have been treated as casual leave under the discretion vested in the sanctioning authority.

16. Privilege leave to the amount due may be prefixed as such to other leave, whether at the time of the original grant or subsequently, should circumstances require an extension of the leave originally granted, provided no combined leave may be for less than six months.

(*i*) When privilege leave is combined—

(*a*) with furlough, the amount of combined leave shall not exceed 2 (two) years;

(*b*) with any other leave, the amount shall not exceed six months, the said period being counted from the beginning of the privilege leave to the end (under the ordinary rules) of the leave with which it is combined.

(*ii*) When, however, such combined leave is extended on medical certificate, the full period of the component leaves may be allowed irrespective of the limits prescribed by clauses (*i*) (*a*) and (*b*).

NOTE 1.—This rule shall be held to have been observed if an officer returns to duty not more than 14 days before the expiration of the period.

NOTE 2.—Except as provided in this rule no other kind of leave, except extraordinary leave, can be granted in continuation of any other kind of leave.

17. All Government gazetted holidays will be considered as Corporation holidays under these rules.

18. Save in the case of privilege leave taken alone, an officer does not forfeit the allowances to which he is entitled under these rules by resigning the service at the end of his leave.

NOTE.—Privilege leave allowances, however, may be paid if non-return is due to death.

19. Leave allowances are payable in Calcutta after the end of each month.

20. All the rules regarding leave allowances and acting allowances contained herein are subject to the proviso in section 74 (*b*) of the Act, that in the case of officers and servants drawing not more than Rs. 300 per mensem, no extra expense may be incurred except with the approval of the Corporation.

21. Any case not provided for by these rules will be governed by special resolution of the Corporation passed on each case; but in so far as it concerns leave allowances or acting allowances, section 74 (*c*) of Act III of 1899 is applicable.

C.—PRIVILEGE LEAVE.

22. The amount of privilege leave admissible at one time is limited to three calendar months.

23. The amount of privilege leave earned by an officer is one-eleventh part of the time during which he has been on duty without interruption, provided that no privilege leave can be earned by an officer by duty performed while three months' such leave is due to him; and that, whenever duty is interrupted, all claim to privilege leave earned theretofore is forfeited. Absence on privilege leave, though not counting as duty, is not an interruption of duty within the meaning of this rule. Absences on furlough, special leave on urgent private affairs or sick leave, or failure to return on the expiry of privilege leave are all interruptions of duty.

NOTE 1.—The calculation must be made as follows:—

One calendar month for every eleven complete calendar months of duty and one day for every eleven days of the balance.

NOTE 2.—Suspension from office, as a penalty for misconduct, is an interruption of duty.

NOTE 3.—The suspension of an officer from office pending enquiry into his conduct interrupts his duty or not as the Chairman or the authority concerned may in each case decide. Time passed under such suspension does not qualify for privilege leave, unless in any case the Chairman or the authority concerned expressly orders that it shall so qualify.

24. The privilege leave due to an officer is the privilege leave which he has earned since the last interruption of duty, less the period during which he has been absent on privilege leave.

25. To an officer who has been on duty, without interruption for eleven calendar months, and who has not, for six calendar months, been absent on privilege leave, the whole or any part of the privilege leave due to him may be granted. But when privilege leave is combined with other leave, the amount due may be granted irrespective of these conditions.

NOTE 1.—No one in inferior service shall be granted privilege leave if it involves any extra expense to the Corporation.

NOTE 2.—Inferior service shall include service on pay less than Rs. 15 per month, service paid for by day, hour or trip and service of the following classes:—

Artificers; block sircars; bhandaries, oilers; laskars, etc., attached to steam boats; boatmen; darwans, peons and their petty headmen; duftries; distributors; press staff and machinemen and their petty headmen; firemen, stokers; coal-trimmers and labourers of like nature attached to incinerator, engines and machines; malis and their petty headmen; mistries; money-testers (poddars); roller-driving staff; tallymen; tindals; turncocks.

26. An officer on privilege leave is entitled to a leave allowance equal to the pay of his substantive appointment. If he was acting in a higher appointment when proceeding on

privilege leave he may continue to draw acting allowance during such leave until the higher appointment is resumed by an officer having a superior lien on it.

27. Horse allowance, conveyance allowance and house rent may be drawn by an officer on privilege leave only if there is no *locum tenens* to whom it is payable.

D.—LONG LEAVE—SUPERIOR OFFICERS.

28. The following rules, numbered 29 to 39, apply only to officers who draw salaries of not less than six thousand rupees a year.

Special Leave on Urgent Private Affairs.

29. Special leave on urgent private affairs may be granted at any time for not more than six months, provided that an officer must render six years' active service before he can again have such leave.

30. During absence on leave on urgent private affairs an officer is entitled to the leave allowance admissible under Rule 39, for the first six months only, whether the six months be included in the same leave or not. Thereafter he is entitled to no leave allowance.

Furlough.

31. The amount of furlough admissible and the aggregate amount of furlough and of special leave on urgent private affairs with allowances admissible to any officer to whom these rules apply is six years.

32. The amount of furlough "earned" by an officer is one-fourth of his active service.

33. The amount of furlough "due" to an officer is the amount which he has "earned" diminished by the furlough which he had enjoyed under these or any former rules.

34. The following rules regulate the calculation of the furlough due to an officer, who, after being subject to other leave rules, becomes subject to Rules 29 to 39.

(i) The amount of furlough due to him shall be taken at one-eighth of his active service while under the rules previously applicable to him, less the amount of furlough or special leave on urgent private affairs enjoyed by him under Rules 43 and 42.

(ii) Leave on medical certificate shall, in this calculation, reckon neither as service qualifying for furlough nor as furlough taken; but the amount of furlough due shall not exceed the amount which would be due, if the officer had been under the more favourable rules from the beginning of his service and the leave taken by him on medical certificate had been furlough on medical certificate under the rules in Section D.

35. Rules 33 and 34 are subject to the proviso that if more than two years' furlough be due to an officer when he first becomes subject to these rules, the excess shall be cancelled.

36. To an officer who has rendered three years' continuous service, furlough for not more than two years may be granted, as follows:—

(*a*) On medical certificate—unconditionally;

(*b*) Without medical certificate subject to these provisos—

(*i*) That the furlough be due to him;

(*ii*) That he has rendered eight years' active service.

Provided that an officer who has enjoyed privilege leave of over six weeks' duration must render eighteen months' service before he is eligible for leave without medical certificate.

Provided also that if such privilege leave be combined with special leave on urgent private affairs, the period of 18 months begins to run from the date subsequent to that of the end of the combined leave.

37. To an officer who has not rendered three years' continuous service, furlough on medical certificate may be granted as follows:—

(*a*) If the furlough due exceeds a year—to the extent due, not exceeding two years.

(*b* If the furlough due does not exceed a year—for not more than one year.

38. Ordinary furlough can under no circumstances extend beyond two years at one time. It includes the first two years of each separate period of furlough under rule 36, including any extension under the next clause of this rule, and so much of furlough under rule 37, including any extension under the third clause of this rule as may be due.

Furlough granted under rule 36 may, on medical certificate, be extended to not more than three years.

Furlough granted under rule 37 for less than two years under clause (*a*) or less than one year under clause (*b*) may, on medical certificate, be extended to the extent of the furlough due to the officer, not exceeding two years in all, or to one year respectively.

39. An officer on furlough (ordinary) is entitled to a leave allowance equal to half the average of the salary during so much of the three years preceding the day on which he gives up office as he has passed on duty or on privilege leave, subject to a maximum limit of Rs. 1,000 a month for any period of such furlough spent out of India and of Rs. 666-10-8 a month for any period of such furlough spent in India.

In the case of furlough other than ordinary the proportion will be one-quarter instead of one-half.

E.—LONG LEAVE.—OTHER OFFICERS.

40. rules 41 to 44 apply to officers holding substantive appointments other than those mentioned in rule 28.

Leave on Medical Certificate.

41. Leave on medical certificate may be granted whenever sufficient cause is shown for three years in all, but not more than two years at one time.

Special Leave on Urgent Private Affairs.

42. Special leave on urgent private affairs for six months may be granted to an officer who has not had furlough, after six years' service, and repeated after intervals of six years.

NOTE 1.—Special leave on urgent private affairs does not accumulate, and cannot be taken in instalments.
NOTE 2.—Leave on medical certificate counts as service for special leave on urgent private affairs.

Furlough.

43. Furlough may be granted as follows—

(a) After ten years' service, one year or any less period, and thereafter, at intervals of not less than eight years, one year or such other period as together with all periods already spent on furlough, may not exceed two years; or

(b) After eighteen years' service, two years or any less period, and thereafter, at intervals of not less than eight years, any such period as together with all periods already spent on furlough may not exceed two years.

Provided that the service for furlough of an officer who has had special leave on urgent private affairs counts only from the date of his last return from such leave.

Provided also that the aggregate amount of furlough, or of furlough and special leave on urgent private affairs, taken together, shall not exceed two years.

Provided further that an interval of not less than eighteen months has elapsed between the last return from privilege leave for over six weeks' duration, whether taken by itself or combined with leave on medical certificate, and the furlough or privilege leave, if any, with which the furlough is combined.

NOTE.—Leave on medical certificate counts as service for furlough.

Leave allowances.

44. (a) An officer on leave on medical certificate under rule 41 is entitled to half the pay, which he is drawing at the date on which he takes his leave, for the first fifteen months of each period of such leave, but not for more than thirty months in all. For the rest of his leave under Rule 41, he is entitled to a quarter only.

(b) An officer on furlough or on special leave on urgent private affairs is entitled to half the pay which he is drawing at the date on which he takes his leave.

F.—EXTRAORDINARY LEAVE.

45. Extraordinary leave without allowances may, in case of necessity, and when no other kind of leave is admissible, be granted for such time as may be necessary. Time spent on leave under this rule does not count as service for other leave. This leave may not be granted in combination with other leave, except privilege leave, but it may be granted in continuation of other leave if circumstances arise which prevent the return of the officer to duty and which in opinion of the Chairman or the authority concerned are such as to justify the concession.

NOTE.—In cases in which the duration of the extraordinary leave to be granted does not exceed two months, the authority empowered to grant the leave may dispense with the condition in this rule, that the leave can be granted only when no other kind of leave is admissible.

46. After he attains the age of 55 years, an officer is eligible for privilege leave, for any special leave on urgent private affairs to which he may be otherwise entitled, and also for leave without allowances, provided that the total leave granted, whether on urgent private affairs or without allowances, does not exceed six months in all, and for no other kind of leave. Any leave other than privilege leave or special leave on urgent private affairs granted to such an officer before the date on which he attains the age of 55 years ceases to have effect on this date.

G.—ACTING ALLOWANCES.

47. An officer with a substantive appointment, officiating in another appointment, or in a higher grade, is entitled to his own substantive pay and an acting allowance of one-fifth of the minimum pay of that appointment or grade, subject to the limit that his pay shall not exceed the minimum pay of the appointment or grade in which he is acting.

The maximum salary of an officiating officer is the pay which he would receive monthly if he held the appointment substantively.

48. An officer holding no substantive appointment, if officiating in any appointment, will receive such proportion of the minimum pay attached to it as may be decided by the Chairman or the authority concerned when he is appointed to officiate in the appointment.

49. When an officer is appointed to be in charge of the current duties of an office in addition to his own duties, and the charge, in the opinion of the Chairman, entails a substantial increase of responsibility and some additional work, he is entitled to a charge allowance to be fixed by the Municipal authority concerned, not exceeding one-tenth of the minimum pay of the office.

50. An officer deputed on special duty may be allowed to draw the pay or salary, which, but for his deputation, he would have continued to draw either as substantive or officiating. If the duties involve a decided increase of work or responsibility in comparison with the duties of his regular appointment, or require a change of residence, the officer may, in addition, be allowed to draw a deputation allowance which may not, except in special cases and with the special sanction of the Corporation, exceed one-fifth of pay or salary, or Rs. 10 a day, whichever is less.

No. 1575M.—The 6th December 1910.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Babu Govind Prasad Basu to be a Commissioner of the Jajpur Municipality, in the district of Cuttack, *vice* Babu Rajani Bhusan Ray, resigned.

4. Clay, dry sand, paper pulp or plasticine for modelling.
5. A globe, not less than 14 inches in diameter, with writing surface, and with lines of latitude and longitude, and outlines only of the land-masses, marked upon it.
6. A map of the school locality on a scale of 4" or 6" = 1 mile.
7. A map of the district in which the school is situated on the scale 1" = 1 mile.
8. A map of the Division in which the school is situated on the scale 1" = 4 miles.
9. A map of the Province.
10. A map of India.

(*N.B.*—All these maps should be coloured to indicate the height of the land above sea-level.

11. A relief map of India.
12. Maps of India showing the most important distributions, *e.g.*, Temperature and Rainfall, Density of Population, Forest, Pasture, and Agricultural land, Minerals, Industries, Railways and Canals, Political Divisions.
13. Physical maps of the continents and of the British Isles.

It is essential that the students should be provided with atlases, or with the necessary hand-maps. Maps for school work should not contain too much detail, or be crowded with names.

II.—The following additional equipment is recommended when it can be provided :—

1. A wet and dry bulb thermometer.
2. A barometer.
3. A rain gauge.
4. A large globe coloured to indicate land relief and ocean depths.
5. A relief globe.
6. Small hand globes for the use of pupils.
7. Hand maps for use in class.
*8. A relief map of the Province.
9. A map of the World on Mollweide's equal area projection.
10. A geological map of India.
11. A small collection of typical rocks, in particular those of the Province and of India.
12. A small museum of typical products.
13. The Statistical Atlas of India.
14. A good standard atlas.
15. A meteorological atlas.
16. Mill's International Geography.
17. A geographical gazetteer.
18. Geographical wall pictures.

The total cost of this supplementary equipment need not exceed Rs. 400, and can be reduced if schools will make their own collections of rocks and typical products.

III. (1) Valuable information regarding geographical equipment and all other matters connected with the teaching of geography is to be found in the Geographical Teacher, the organ of the Geographical Association, published three times a year, at one shilling a copy.

(2) Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London.

* The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp prepared by Babu Kailas Chandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5 respectively.

Small hand Globes of German make can be obtained through the Calcutta School Book Society for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which includes maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District maps; also ordinary and relief maps of the Province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card board, named on one side, and the same map without names on the reverse, published by Armand Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the World on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris, and Messrs. Hölzel of Vienna. They cost, delivered in India, from two to three rupees each.

Map lantern slides, and view slides especially prepared for geography teaching, are sold by the Diagram Company for two or three shillings each.

6. The best meteorological atlas published in Britain is Bartholomew's, and the most recent geographical gazetteer in English is that published by J. B. Lippincott of Philadelphia and London.

ELEMENTARY MECHANICS.

No text-books are prescribed or recommended.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination:—

Plumb-line and level.
Simple Lever (including brass slotted weights).
Roman Steelyard.
Lecture apparatus for experiments on moments.
George's New Atwood's Machine
Stop-watch.
Glazebrooke's apparatus (to demonstrate movement of a body).
Hick's Ballistic Balance.
Compound Wheel and Axle.
4 Single brass Pulleys.
2 " " "
2 Triple " "
Weston Differential Pulley Blocks ($\frac{1}{2}$ ton).
16 feet of chain at 6*d*. per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of Gramme Weights (200 grams to 1 mgr.)
2 Composition-Ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by simpler forms that could probably be made far more cheaply by any clever *mistry* under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual accounts or working in pairs.

MENTAL AND MORAL PHILOSOPHY.

The following books are recommended to be used in studying the subject of Mental and Moral Philosophy as defined by the Syllabus :—

PSYCHOLOGY.

(Pass and Honours.)

Höffding ... ... Outlines of Psychology.
Wundt ... ... Human and Animal Psychology.
Stout ... ... Manual of Psychology.
James ... ... Text-book of Psychology.

Preparatory Reading—Students are advised to read—
Titchener ... ... Primer of Psychology
before joining the regular class.

ETHICS.

(Pass and Honours.)

Seth ... ... Study of Ethical Principles.
Martineau ... Types of Ethical Theory.
Mackenzie ... Manual of Ethics.
Mill ... ... Utilitarianism.

Preparatory Reading—Students are advised to read—
Muirhead ... ... Elements of Ethics,
Mohit Chandra Sen ... Elements of Moral Philosophy,
before joining the regular class.

GENERAL PHILOSOPHY.

(Pass and Honours.)

Külpe ... ... Introduction to Philosophy.
Marvin ... ... Introduction to Philosophy.
Paulsen ... ... Introduction to Philosophy.

NATURAL THEOLOGY.

(Honours.)

Martineau ... Study of Religion.
Flint ... ... Theism, and Antitheistic Theories.
Preparatory Reading—Students are advised to read—
Knight ... ... Aspects of Theism,
or
Armstrong ... God and the Soul,
before joining the regular class.

HISTORY OF PHILOSOPHY.

(Honours.)

The following books are recommended :—
Weber ... ... History of Philosophy.
Falckenberg ... History of Modern Philosophy.
Knight ... ... Hume (Blackwood's Philosophical Classics)
Fraser ... ... Berkeley (ditto ditto)
Preparatory Reading—
Schwegler ... ... History of Philosophy.

SPECIAL TEXT.

(Honours.)

Descartes ... ... Discourse on Method and Meditations (Veitch).

The following books are recommended for the guidance of teachers :—

PSYCHOLOGY.

James ... ... Principles of Psychology.
Ward ... ... Psychology (Art. in the Encyclopædia Britannica).
Ladd ... ... Elements of Physiological Psychology.
Herbert Spencer ... Principles of Psychology.
Bain ... ... Senses and the Intellect.
Bain ... ... Emotions and the Will.
Sully ... ... Human Mind.
Wundt ... ... Outlines of Psychology.

ETHICS.

Green ... ... Prolegomena to Ethics.
Sidgwick ... ... Methods of Ethics.
Wundt ... ... Ethics.
Leslie Stephen ... Science of Ethics.
Janet ... ... Theory of Morals.
Paulsen ... ... System of Ethics.
Abbott ... ... Kant's Theory of Ethics.
Sidgwick ... ... History of Ethics.
Alexander ... ... Moral Order and Progress.

GENERAL PHILOSOPHY AND NATURAL THEOLOGY.

Green ... ... Prolegomena to Ethics.
Bradley ... ... Appearance and Reality.
E. Caird ... ... Critical Philosophy of Kant.
Sidgwick ... ... Philosophy of Kant and other Lectures.
Sidgwick ... ... Philosophy, its Scope and Relations.
Herbert Spencer ... First Principles
Hegel ... ... Philosophy of Mind (Wallace).
Hegel ... ... Philosophy of Right (Dyde).
Lotze ... ... Metaphysics.
Pfleiderer ... ... Philosophy of Religion.
Caird ... ... Introduction to the Philosophy of Religion.
W. G. Ward ... Philosophy of Theism.
Janet ... ... Final Causes.
Hegel ... ... Philosophy of Religion (Spiers and Sanderson).
Lotze ... ... Outlines of the Philosophy of Religion.
E. Caird ... Evolution of Religion.
James ... ... Varieties of Religious Experience.

HISTORY OF PHILOSOPHY.

Ueberweg	...	History of Philosophy.
Erdmann	...	History of Philosophy.

The 3rd December, 1910.

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

B. Sc. EXAMINATION, 1913.

MATHEMATICS.

Pass Course.

The following books are recommended :—

1. Higher Plane Trigonometry—
   - Todhunter ... ... Plane Trigonometry, edited by Hogg.

2. Plane Analytical Geometry—
   - Loney ... ... Elements of Co-ordinate Geometry.
   - C. Smith ... ... Elementary Treatise on Conic Sections.

3. Differential Calculus—
   - Edwards ... ... Differential Calculus for Beginners *or*
   - Ganesh Prasad ... ... Differential Calculus.

4. Integral Calculus and Differential Equations—
   - Edwards ... ... Integral Calculus for Beginners.
   - Taylor ... ... The Differential and Integral Calculus and Differential Equations.

5. Hydrostatics—
   - Besant ... Elementary Hydrostatics.
   - Loney ... ... Elements of Hydrostatics.

6. Astronomy—
   - Parker ... ... Elements of Astronomy.

Honours Course.

1. Higher Algebra—
   - Hall and Knight ... Higher Algebra.
   - C. Smith ... ... A Treatise on Algebra.

2. Elementary Theory of Equations—
   - Cajori ... ... Introduction to Theory of Equations, Chapter I—VII.

3. Higher Plane Trigonometry—
   - Todhunter ... ... Plane Trigonometry, edited by Hogg.

4. Plain Analytical Geometry—
   - Loney ... ... Elements of Co-ordinate Geometry.
   - C. Smith ... ... Elementary Treatise on Conic Sections.

5. Elementary Solid Geometry—
   - C. Smith ... ... Elementry Treatise on Solid Geometry.

6. Elementary Principles of Vectors—
   - Kelland and Tait ... Introduction to Quaternions, 3rd Edition, edited by Knott.
   - Henrici and Turner ... Vectors and Rotors.

7. Differential Calculus—
   - Williamson ... Differental Calculus.

8. Integral Calculus and Differential Equations—
   - Williamson ... Integral Calculus.
   - Murray ... ... Introductory Course in Differential Equations.

9. Statics—

Minchin ...	... Statics, Volume I, *or*
Jeans ...	... Theoretical Mechanics.

10. Dynamics of a Particle—

Willamson and Tarleton	Dynamics, *or*
Jeans ...	... Theoretical Mechanics.

11. Hydrostatics—

Besant ...	.. Elementary Hydrostatics.
Loney ...	... Elements of Hydrostatics.

12. Astronomy—

Parker ...	... Elements of Astronomy.
Young ...	... Manual of Astronomy.

N B.—Candidates who take up Mathematics at the B.A. or B.Sc. Examination are recommended to refer to Saxelby's Practical Mathematics. Candidates who take up Honours in Mathematics at the B A. or B Sc. Examination are recommended to refer to Cox's Mechanics.

PHYSICS.

Pass Course.

Watson ...	... A Text-book of Physics.
Hadley ...	... Magnetism and Electricity for Students.

Pass Practical.

Watson ...	... A Text-book of Practical Physics.

HONOURS COURSE.

(In addition to the books prescribed for the Pass Course).

Poynting and Thomson	... Sound.
Edser ...	... Heat for Advanced Students.
Edser ...	... Light for Students.
Foster and Porter ...	... Elementary Treatise on Electricity and Magnetism.

Book recommended for consultation—

Planck ...	... Treatise on Thermodynamics.

CHEMISTRY.

Pass Course.

Van Deventer ...	... Physical Chemistry for Beginners.
Newth ...	... Inorganic Chemistry.
Holleman ...	... Inorganic Chemistry.
Holleman ...	... Organic Chemistry.
Ira Remsen ...	. Organic Chemistry.
J. Wade ...	.. Introduction to the Study of Organic Chemistry.
Gooch and Walker ..	... Outlines of Inorganic Chemistry.
Francis Jones ...	... Practical Chemistry.
Alexander Smith ...	... General Inorganic Chemistry.
F. Mollwo Perkin ...	... Qualitative Chemical Analysis—Organic and Inorganic.
Clowes and Coleman	... Quantitative Analysis.
J. B. Cohen ...	... Theoretical Organic Chemistry.

HONOURS COURSE.

(In addition to the books prescribed for the Pass Course.)

H. C. Jones ...	... Elements of Physical Chemistry.
Ostwald ...	... Foundations of Analytical Chemistry.
Valentine and Hodgkinson	... Practical Chemistry.
Cohen ...	... Practical Organic Chemistry.
Caven and Landor ...	... Systematic Inorganic Chemistry.
Ostwald ...	... Outlines of General Chemistry.
J. Walker ...	... Introduction to Physical Chemistry.

N. B.—Candidates who take up Chemistry at the B A. or B. Sc. Examination are recommended to refer to Saxelby's Practical Mathematics.

BOTANY.

Pass Course.

Vines, S. H.	An Elementary Text-book of Botany (London 1905).
Scott, D. H.	Structural Botany, 2 Vols. (London, 1904-06).
Darwin, F., and Acton, G. H. ...	Practical Physiology of Plants (Cambridge, latest edition).
Prain, D.	Bengal Plants (Calcutta, 1903), *or*
Roxburgh	Flora Indica, edited by C. B. Clarke (Calcutta, 1874).

Honours Course.

[In addition to the text-books for the Pass Course.]

Strasburger, E.	Text-book of Botany, translated by Porter revised by Lang (Third Edition, London).
Reynolds Green, J. ...	Vegetable Physiology (London, 1900).
Schimper, A. F. W. ...	Geography of Plants (Oxford, 1903).

ZOOLOGY.

Pass Course.

Boas	Text-book of Zoology.
Shiply and MacBride	Zoology.
Oscar Hertwig ... and H. J. Campbell ...	The Cell.
Huxley and Martin ...	A Course of Elementary Instruction in Practical Biology (Revised Edition).
P. J. Parker and W. N. Parker.	An Elementary Course of Practical Zoology.
Foster and Balfour...	The Elements of Embryology (edited by Sedgwick and W. Heape).
Wallace ...	Darwinism.

Honours Course.

[In addition to the books prescribed for the Pass Course.]

Miall and Hammond	The Structure and Life-history of the Harlequin Fly.
Miall and Denny ...	The Cockroach.

PHYSIOLOGY.

Pass Course.

Starling ...	Elements of Human Physiology (latest edition).

Practical.

Schafer ...	Essentials of Histiology *and either*
Halliburton ...	Essentials of Chemical Physiology.
Brodie ...	Essentials of Experimental Physiology *or*
Beddard, Edkins, Hill, Pembrey and Macleod	Practical Physiology.

Honours Course.

Halliburton ...	Handbook of Physiology.
Stewart ...	Manual of Physiology.
Howell ...	Text-book of Physiology.

Practical.

The same as for the Pass Course.

Syllabus in Experimental Physiology.

Pass Course.

The induction coil; single shocks; short circuiting key; effect of single shocks on the tongue; break-shock is stronger than the make-shock. Helmholtz's Modification; Neef's Hammer.
Pithing a frog; nerve-muscle preparation. Mechanical, chemical, thermal and electrical stimulation of muscle and nerve.
The Graphic method: Simple lever; crank lever (myograph); moist chamber. Minimal and maximal excitation with single induction shocks (make and break). Stimulation by constant current: contraction of muscle only at make and break.
The muscle curve:—Single contraction of a frog's muscle: the latent period, the period of contraction and the period of relaxation. Time-tracing by tuning-fork. Method of after-loading. The influence of temperature and of load on muscular contraction. The work performed by a muscle during a twitch.
Elasticity and extensibility of muscle.
Summation of muscular contraction: tetanus.
Fatigue of muscle.
Thickening of a muscle on contraction.
Bernard's curare experiment.
Stimulation of a motor nerve; unequal excitability (greater nearer the centre of a motor nerve); excitability of flexor and extensor nerves.
Velocity of nerve-impulse (myographic method).
Electro-Physiology:—Galvani's experiment of contraction with metals; Galvani's experiment of contraction without metals.
The Frog's heart:—Beating of the heart; effect of heat and cold (heart *in situ*); section of the heart; effect of heat and cold on excised heart.
Stannius' experiment.
Graphic record of the beat of the heart (suspension method and also direct registration with heart-lever).
Pulse—Sphygmographic tracing.
Blood-pressure in man: Sphygmometer (Hill and Bernard's).
Reflex action (simple experiments on a pithed frog).
Vision:—Accommodation; Scheiner's experiment; near and far point;
Purkinge-Sanson's images: Phakoscope; Blind spot; yellow spot; Colour vision: Complementary colours.

HONOURS COURSE.

Additional Experiments—

The Induction Coil—Break extra-current of Faraday.
The Rheonome: Effect of sudden variation of current.
Isotonic and Isometric contraction.
Influence of veratrine on muscular contraction.
Indefatigability of nerve.
Excitation of muscle by constant current: Polar excitation of a muscle.
Electrotonus. Electrotonic changes in excitability and conductivity of a nerve.
Kuhne's experiment of contraction without metals.
Examination of currents in muscle, nerve and heart by means of the reflecting galvanometer.
Frog's heart—Minimal stimulus causes maximal contraction. "Staircase effect." Single contraction of the ventricle. Tetanisation. Refractory period. Stimulation of the vagus. Action of drugs (Muscarin and Atropin) on the heart.
Voice and Speech: Laryngoscope.
Vision: Ophthalmoscope; Perimeter.

GEOLOGY.

No text-books are prescribed or recommended. The subject is to be studied with the help of the Syllabus prescribed in the Regulations.

EXPERIMENTAL PSYCHOLOGY.

The subject is to be studied as defined by the Syllabus. Sudents are recommended to use one or more of the following books or select portions thereof, with special reference to the course laid down in the Syllabus :—

Pass Course.

I.—General Psychology.

Hoffding	...	Outlines of Psychology.
Wundt ...	...	Human and Animal Psychology.
Stout ...	...	Manual of Psychology.

Preparatory Reading—Students are advised to read Stout's Groundwork of Psychology before joining the regular class.

II.—Experimental Psychology.

Titchener	...	Outlines of Psychology.
Külpe	...	Outlines of Psychology.
Scripture	..	New Psychology.

Laboratory Course—Titchener's Experimental Psychology, Volume I, Part I, and Volume II, Part I.

Honours Course.

I.—General Psychology—Same as in the Pass Course.

II.—Physiological and Comparative Psychology.

Wundt	...	Outlines of Physiological Psychology (Volume I).
Ladd	...	Elements of Physiological Psychology.
Romanes	...	Mental Evolution in Man.
Romanes	...	Mental Evolution in Animals.
Lloyd Morgan	...	Comparative Psychology.
Herbert Spencer	...	Principles of Psychology (Volume I).

III.—Experimental Psychology—

In addition to the books recommended for the Pass Course, the following :—

Wundt	...	Outlines of Psychology.
Ladd	...	Elements of Physiological Psychology (select portions).

The following books are recommended for the guidance of teachers :—

General Psychology—

James	...	Principles of Psychology.
Ward	...	Psychology (Art. in the Encyclopædia Britannica).
Ladd	...	Elements of Physiological Psychology.
Herbert Spencer	...	Principles of Psychology.
Bain	...	Senses and the Intellect.
Bain	...	Emotions and the Will.
Sully	...	Human Mind.
Wundt	..	Outlines of Psychology.

Physiological and Comparative Psychology—

Ziehen	...	Introduction to Physiological Psychology.
Foster ...	...	Text-book of Physiology.
Helmholtz	...	Sensations of Tone.

Experimental Psychology—

Titchener	...	Experimental Psychology.
Volume I, Part II	...	Instructor's Manual.
Volume II, Part II	...

(*b*) Simple unseen Sanskrit passages from any work on Vedanta Philosophy such as the Vivaranaprameya-Sangraha for translation into English.
Paper VI.—(*a*) Vedantasutras with Sankara Bhashya.
(*b*) Translation from English into Sanskrit.
Paper VII.—(*a*) Sribhashya—Chapter I, Part I.
(*b*) Advaita-Brahma-Siddhi.
Paper VIII.—(*a*) Bhagavadgita and Chhandogya as in Group B.
Munda, Mandukya.
Svetasvataropanishad with Sankara's commentary.
(*b*) Passages for translation into English from the Anubhashya and the Saivabhashya.

E. (Sankhya and Yoga.)

Paper V.—(*a*) Sankhyasutras of Kapila, with Vritti of Aniruddha
Sankhya-Karika of Iswarakrishna, with Bhashya of Gaurapada.
(*b*) Simple unseen Sanskrit passages from any treatise or commentary on the Sankhya Philosophy, for translation into English.
Paper VI.—(*a*) Sankhya Pravachana Bhashya.
Sankhya-Sara and Sankhya-Tattva Kaumudi.
(*b*) Translation from English into Sanskrit.
Paper VII.—(*a*) Yoga Sutras of Patanjali, with Bhashya of Vyasa and Vritti of Bhoja Yoga-Vartika of Vijnana-Bhikshu.
(*b*) Simple unseen Sanskrit passages from any treatise or commentary on the Yoga Philosophy, for translation into English.
Paper VIII.—(*a*) Yoga Vasishtha—Chapter on Nirvana, Part II.
Sarbadarsana-Sangraha.
(*b*) Translation from English into Sanskrit.

F. (Nyaya and Vaiseshika.)

Paper V.—(*a*) Nyayasutras of Gautama, with the Bhashya of Vatsyayana, Vartika of Udyotkara, and Vritti of Visvanatha.
(*b*) Simple unseen Sanskrit passages from any treatise or commentary on the Nyaya Philosophy, for translation into English.
Paper VI.—(*a*) Nyayamanjari of Jayanta Bhatta.
Khandana Khanda Khadya of Sriharsha—Chapter I.
(*b*) Translation from English into Sanskrit.
Paper VII.—(*a*) Bhasha Parichheda, Siddhanta-muktavali, Kusumanjali of Udyanacharyya with commentary of Ruchhidatta and gloss of Vardhamana.
(*b*) Translation from English into Sanskrit.

Paper VIII.—(*a*) Vaiseshika Sutras of Kanada, with Bhashya of Prasastapada, Nyayakandali of Sridhara and Vritti of Jaynarain.
Saptapadarthi of Sivaditya, with commentary of Yatindramadhava.
(*b*) Simple unseen Sanskrit passages from any treatise or commentary on the Vaiseshika Philosophy, for translation into English.

G. (*General Philosophy.*)

Paper V.—(*a*) Sankhyasutras of Kapila with Vritti of Aniruddha.
Sankhya Tattva Kaumudi.
Yogasutras of Patanjali with the Bhashya of Vyasa and Vritti of Bhoja.

(*b*) Simple unseen Sanskrit passages from any work on Philosophy for translation into English.
Paper VI.—(*a*) Nyayasutras of Gautama with Bhashya of Vatsyayana and Vritti of Visvanatha. Vaiseshikasutras of Kanada, with Bhashya of Prasastapada, and Nyayakandali of Sridhara.
(*b*) Translation from English into Sanskrit.
Paper VII.—(*a*) Vedantasara (Jacob's Edition), Bhagavadgita, Vedantasutras, with Sankara's commentary, Chapter I, Parts I and IV; Chapter II, Part II.
(*b*) Translation from English into Sanskrit.
Paper VIII.—(*a*) Nyayaratnamala of Parthasarathi Misra: Mimansa Nyaya Prakasa of Apadeva. Upanishads—Isa, Kena, Katha, Prasna, Munda, Mandukya and Svetasvatara with Sankara's commentary.
(*b*) Simple unseen Sanskrit passages from any work on Philosophy for translation into English.

H.—(*Prakrit.*)

Paper V.—(*a*) Prasna Vyakarana and Vipakasutra.
(*b*) Translation from English into Sanskrit (or Prakrit, at the option of the candidate).

Paper VI.—(*a*) Prakrit portions of the following dramas:—

Sakuntala, Vikramorvasi, Malavikagnimitra, Uttaracharita, Malatimadhava, Maha, vira-Charita, Mrichhakatika, Mudrarakshasa, Ratnavali, Karpuramanjari-Venisanhara.

(*b*) Translation from Sanskrit into Prakrit.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

NOTIFICATION.

No. 748S.R.—The 8th December 1910.—In exercise of the power conferred by section 155 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor is pleased to make the following rules.

PART I.—RULES FOR DENATURING SPIRIT IN THE CUSTOM HOUSE.

1. The denaturing of imported spirit in the Custom House shall be conducted according to the following rules:—

(1) The ingredients to be used for denaturing spirit shall be a mixture of "light caoutchoucine" and "Pyridine bases" in the proportion of ½ per cent. of each. The pyridine bases must be manufactured from mineral (coal-tar) and not animal sources. A guarantee as to the mineral source of the pyridine bases shall be furnished by the importer or the person desiring to denature the spirit. To every 99 gallons of plain spirit there shall be added half a gallon of light caoutchoucine and half a gallon of pyridine bases. The minimum strength of spirit to be denatured shall not be less than 50° O.P.

(2) The ingredients mentioned in clause (1) shall be procured at his own expense by the importer or the person desiring to denature the spirit. Before admixture the ingredients shall be lodged at the Custom House or at some other suitable place to be approved by the Collector of Customs, who shall cause samples to be sent separately (not mixed) to the Chemical Examiner to Government, for testing according to the instructions laid down therefor, and for certificate that the samples supplied are suitable for denaturing alcohol.

(3) When the mixture of the denaturant with the spirit is completed, the liquor shall be tested by drawing a sample of about half an ounce from each cask or drum, and adding to each sample separately three or four times the quantity of water. If the admixture becomes milky, the liquor shall ordinarily be admitted at the reduced rate of duty. In cases of dispute the decision of the Collector shall be final. In any case in which the Collector considers

such a course necessary he may direct that samples of the liquid shall be sent to the Chemical Examiner to Government for examination and report, at the expense of the importer:

Provided that—

(a) if the consignment contains casks or drums of not less than 50 gallons each, the person denaturing may demand that not less than one sample shall be sent from each such cask or drum ; and

(b) if the consignment contains casks or drums of less than 50 gallons each, the person denaturing may, and shall, if so ordered by the Collector, before admixture of the denaturalising ingredients, pour the contents of two or more such casks or drums into one or more casks or drums of not less than 50 gallons capacity; and, when this is done, the spirit shall be treated, for the purpose of testing and for the levy of expenses under clauses (5) and (6), as if originally stored in such larger casks or drums.

(4) Should any of the samples examined by the Chemical Examiner be reported by him as not rendered effectually and permanently unfit for human consumption, the claim in respect of the whole of the spirit represented by such sample shall be rejected, and the spirit shall either be dealt with in all respects as spirit chargeable with the ordinary rate of duty, or, if the person denaturing the spirit so desire, it shall be further treated under clauses (1), (2) and (3) for the purpose of rendering it effectually and permanently unfit for human consumption.

(5) A fee of Rs. 2 shall be paid by the person denaturing the spirit for each sample sent for chemical analysis. An additional fee of Re. 1 for each set of samples sent shall be paid by the said person to cover the cost of taking and sending samples from the Custom House to the Chemical Examiner.

(6) Any expense which may be incurred by the Collector in rendering spirit unfit for human consumption, or in ascertaining that it has been so rendered, shall be paid by the person denaturing the spirit before the removal of the spirit is allowed.

(7) Notwithstanding anything hereinbefore contained, the Collector may allow special methods of denaturation for spirit used in particular arts or manufactures, subject to such conditions as he may consider necessary with reference to the circumstances of each case, if he is satisfied that the general denaturant is unsuitable for the purposes in view.

PART II.—RULES FOR ADMITTING IMPORTED SPIRIT DECLARED TO HAVE BEEN RENDERED EFFECTUALLY AND PERMANENTLY UNFIT FOR HUMAN CONSUMPTION.

2. Whenever spirit is declared to have been rendered, prior to importation, effectually and permanently unfit for human consumption by the admixture of ½ per cent. of "light caoutchoucine" and ½ per cent. of pyridine bases, so as to bear the reduced rate of duty under Article I of Schedule III to the Indian Tariff Act, 1894 (VIII of 1894), the Collector shall send such number of samples of such spirit as he may deem necessary to the Chemical Examiner to Government, for examination and report, at the expense of the importer.

3. The provisions of Part I as to examination by the Chemical Examiner and the payment of fees and expenses shall apply to the testing of spirit under this Part.

4. Notwithstanding anything hereinbefore contained, the Collector may admit specially, at the reduced rate of duty, spirit which has been methylated with ingredients other than the general denaturant, if he is satisfied that it is required for a purpose for which spirit denatured with "light caoutchoucine" and crude pyridine bases is not suited, provided that the Chemical Examiner certifies that the spirit has been rendered permanently and effectually unfit for human consumption.

II.—Notification No. 2288.R., dated the 3rd March 1908, published at page 572 of Part I of the *Calcutta Gazette*, 1908, and Notification No. 5488.R., dated the 4th August 1908, published at page 1374 of Part I of the *Calcutta Gazette*, 1908, are hereby cancelled:

Provided that the present notification shall not take effect during the period of six months from the date thereof, in any case in which the importer elects to proceed under the said Notifications Nos. 2288.R. and 5488.R.

NOTIFICATION.

No. 6809B.

IN exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board of Revenue direct that the following rule be substituted for rule 34 of the rules published under their Notification No. 5977B., dated the 27th November 1909, at page 1754 of Part I of the *Calcutta Gazette* of the 1st December 1909, namely :—

34. (*1*) An allowance at a rate not exceeding the maximum quantities specified in the following scale, shall be made for the loss in transit, by leakage and evaporation, of spirit which is transported or exported under bond, by land, namely :—

	Maximum quantities of allowance per cent.
(*a*) for a journey of not greater duration than two days ...	2
(*b*) for a journey of duration exceeding two, but not exceeding nine days	3
(*c*) for a journey of duration exceeding nine, but not exceeding eighteen days	4
(*d*) for a journey of duration exceeding eighteen days ...	5

Provided that if, in any case, the temperature of the spirit on arrival at its destination is found to be lower than that when despatched, a further allowance shall be made, if necessary, of ·05 *per cent.* in a L. P. gallon, for every degree *Fahrenheit* of difference between the two temperatures, in addition to any allowance that may be made under this sub-rule

(*2*) Wastages of spirit in excess of the quantities referred to in sub-rule (*1*), and all wastages in exceptional cases, shall be referred to the Commissioner, who shall penalise only if he sees reason to suspect fraud.

(*3*) The allowances to be made under this rule shall be determined by deducting from the quantity of spirit despatched, the quantity received at the place of destination, both quantities being stated in terms of L.P. gallons, and shall be calculated on the quantity of spirit contained in each cask or other receptable comprised in a consignment.

(*4*) Duty on a deficiency of spirit in excess of the allowances referred to in sub-rule (*1*), shall, if levied, be realised by the Collector of the district in which the distillery from which the spirit was sent is situated.

I.—The following are entitled to attend His Excellency the Viceroy's Levée:—

All gentlemen, whether European or Indian, who have been presented at the Court of St. James, or at the Viceregal Court.

II.—The following *inter alia*, are eligible for presentation at His Excellency's Levée, whether European or Indian:—

(*a*) All Ruling Chiefs.
(*b*) All Commissioned Officers in Naval, Military (British and Indian) and Marine Services.
(*c*) All Gazetted Officers of the first Class in Government employ.
(*d*) All gentlemen who have received titles of honour from His Majesty the King-Emperor, or His Excellency the Viceroy.

III.—Gentlemen, whether European or Indian, who have not already been presented at the Court of St. James, or at the Viceregal Court, and who desire to be presented at His Excellency's Levée, must submit their applications through the gentlemen proposing to present them. In the case of all Government officials or gentlemen engaged in business the presentor should ordinarily be the Head of the Department or Firm.

These applications should reach the Military Secretary's Office at least a fortnight before the date announced for the Leveé.

The names will then be submitted to His Excellency, when, if approved, presentation cards will be forwarded.

IV.—Applications for permission to be presented, submitted by non-official gentlemen, whether European or Indian, will, as a general rule, be referred to Local Authorities by the Military Secretary to the Viceroy. Only those who are declared eligible on account of their social status will be permitted to attend.

V.—Gentlemen who are entitled *ex-officio* to attend Provincial Durbars or who are officers of Volunteers may be presented at His Excellency the Viceroy's Levées by Heads of their Departments or Commanding Officers. This will not confer upon them the privilege of attending Levées after they have ceased to hold the position which made them eligble for presentation, nor will it entitle them to present other gentlemen. Volunteer officers, who have resigned their commissions, may obtain from the Military Secretary to the Viceroy special permission to attend the Levées.

Gentlemen who present others must themselves attend the Levée.

VI.—Dress.—(*a*) Civil and Military Officers—Levée Dress (helmets will not be taken to the Levée).

(b) Clergymen being University Graduates and other gentlemen entitled to wear robes or gowns on account of Judicial or Academical office or status, and not entitled to wear uniform, will appear in such robes or gowns.

(c) Gentlemen not entitled to wear uniform, or robes or gowns, will appear in Evening Dress.

(d) Indian gentlemen who do not appear in the dress prescribed above will wear Choga, Aba or Jubba and Chapkan, Chilta, Saya or Kaba with trousers and their distinctive National head dress, or the ceremonial dress approved for their class by the Local Government.

(e) In the case of Bengali gentlemen the head dress should be a Pugree generally known as Shamla or Mouratta, and not a brimless cap.

(f) In the case of Burmese gentlemen, the head dress should be a white fillet, the hair being dressed in a top knot.

(g) Indian gentlemen who do not appear in the dress prescribed in (a), (b) or (c) should not remove their head dress when they pass His Excellency.

At the Viceregal Court, only patent leather boots or shoes, of an English pattern, are allowed to be worn, except in the case of Indian Military Officers, who wear the particular style of boot or shoe which forms part of their uniform.

By Command,
F. A. MAXWELL, *Major*,
Military Secretary to the Viceroy.

NOTIFICATION.

STATE SCHOLARSHIPS TENABLE IN ENGLAND BY EUROPEANS AND EURASIANS EDUCATED IN INDIA.

No. 20153.—The 6th December 1910.—In the year 1907 His Majesty's Secretary of State for India sanctioned the institution of one sholarship of £200 per annum tenable at a European University to be awarded in each year to a member of the domiciled European and Eurasian community in India on the understanding that candidates belonging to this community should no longer be regarded as eligible for the two University State Scholarships at present granted to natives of India. *For the scholarship to be awarded in the year 1911 applications are now invited.*

2. The scholarship will entitle the holder to an allowance not exceeding £200 per annum payable from the date of his arrival in England and will be tenable for three or four years, as circumstances may require, at any University in the United Kingdom or, with the

special sanction of the Government of India, at a foreign University. The candidate to whom the scholarship is awarded, will be required to proceed to England within a reasonable period from the date of his selection, and to reside there for a period of three or four years, as the case may be, unless compelled to return sooner by ill-health. He will be provided with a free second class passage to England, and also with a free return passage if he completes the full period of residence or is compelled by sickness to return within that period.

3. The two main principles which govern the grant of the scholarship are:—

(i) that as the object in view is to assist a domiciled European or Eurasian to go through a University course in England the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University at practically the same age as boys educated in England: the Government of India place the age limits at 18 to 21, *i.e.*, the candidate must have completed 18 years of age and not have completed 21 years, on 31st March of the year in which the scholarship is awarded; and

(ii) the scholarship will be given to the candidate who is most likely to win distinction at the University.

4. The following rules are to be observed in regard to the form in which applications are to be submitted:—

(1) The application should ordinarily be in the handwriting of the applicant. In the exceptional case of his being out of India, the parent or guardian may submit an application:

(2) The application should give full details as to the applicant's age, family circumstances, the schools or colleges which he has attended, his studies, the distinctions he has gained, and the course of study he wishes to follow. Information should also be given as to—

(*a*) the University at which the candidate proposes to study and the reasons for selecting the particular University;

(*b*) the special aptitude, if any, which the candidate has shewn for the kind of study which he proposes to pursue;

(3) The application should be accompanied by a birth certificate, a certificate from a commissioned officer of the Indian Medical Service testifying to the general health of the candidate and certifying that his physique is such that there is good prospect of the University course not being seriously interrupted by ill-health, and testimonials as to character and capacity. If original testimonials are not sent in, certified copies must be submitted. The testimonials should include—

(*a*) A certificate from the Principal of the institution last attended, stating that the applicant is of good moral character and of active habits, and, in the event of his having left school or college more than six months before the date of application, a certificate by a person of recognised position well acquainted with him, stating how he has been employed since he left school and certifying to his moral integrity.

(*b*) A certificate from some person of recognised position well acquainted with the candidate and his family, to the effect that he is a native of India within the meaning of Statute 33 Vict. Cap. 3, section 6, and that his parents are not resident in India for temporary purposes only.

5. The Director of Public Instruction will personally interview those applicants whose names he thinks worthy of submission to Government. If a personal interview is impossible (*e.g.*, owing to a candidate being absent from India), the fullest possible information should be given as to the physique and character of the candidate.

6. All applications for the scholarship to be awarded during the year 1911 should be submitted in the first instance to the Inspector of European Schools, Bengal, in time to reach the Director of Public Instruction on or before the 15th January 1911.

7. No application will be considered unless the applicant declares that the conditions of the scholarship as laid down in paragraphs 2 and 8 of this notification are known to him, and that he is prepared to abide by them.

8. The scholar will, on arrival in England, be required to bind himself by a written engagement to submit to the following rules, and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for the guidance of scholars in England:—

(*a*) Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.

(*b*) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.

(c) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary of State a certificate from the proper University or College authority showing that his residence, conduct and progress in study have been satisfactory during the term.

(d) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

(e) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, or four years, if so determined will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England.

(f) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required terms of residence at a University or who is guilty of misconduct, persistent idleness, or disregard of the orders of the Secretary of State. If the scholarship be forfeited, the scholar will lose his claim to a free return passage to India and will further become liable to refund the cost of his free passage to England.

(g) The scholar will be under the supervision and charge of the Political A.-D.-C. to the Secretary of State, through whom the necessary orders will be given, and to whom all reports and other communications respecting him should be sent.

W. A. MARR, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly will be put up to sale at the Hooghly Collectorate on the 21st December 1910, corresponding with 6th Pous 1317 B. S.

The purchasers will be subject to the following conditions of sale.

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE *Bhadoi* CROPS OF BENGAL, 1910.

(On an average of the five years ending 1908-09 the area under autumn rice in the territory to which this forecast relates has represented some 6·0 per cent. of the total area under this crop in British India.)

Character of the season.—As reported in the preliminary forecast issued in September last, the rainfall was scanty in March and April. May was showery, but the fall was defective in most districts. Sowings began in normal time, but want of moisture was felt in the sowing season. Rainfall was sufficient later on and favourable weather conditions prevailed. At the end of July and beginning of August there was excessive rain and floods in Bihar, as well as in Nadia, Murshidabad, Cuttack and Angul, and in these districts the crops were damaged. The rainfall in September was general. In Chota Nagpur, Burdwan, Birbhum and Khulna good crops have been harvested. In other districts except Bankura the crop was fair. Injury was done by insects in Champaran and Sambalpur.

Area sown.—The total area sown with the different *bhadoi* crops this year was shown as 9,126,200 acres against 9,619,400 acres last year. The total normal area under *bhadoi* crops was returned at 9,566,400 acres. The decrease is due to want of sufficient moisture at the sowing season.

Outturn.—From Appendix I attached to the forecast it will appear that Ranchi alone reports more than a normal crop. In six districts, viz., Burdwan, Birbhum, Khulna, Bhagalpur, Purnea and the Sonthal Parganas, a normal crop is reported. Five districts report a crop between 90 and 98 per cent., seven districts between 80 and 89 per cent., and seven more between 70 and 75 per cent. In the remaining seven districts the crop is reported as follows:—

Patna (66 per cent.), Bankura and Muzaffarpur (each 62 per cent.), Champaran (61 per cent.), Darbhanga (59 per cent.), Murshidabad (58 per cent.), and Monghyr (48 per cent).

Comparing the reports issued in the preliminary forecast with those now received, it appears that the outturn has improved in twelve districts and has decreased in eight districts.

According to the estimates of the District Officers the total outturn of all *bhadoi* crops dealt with in this forecast for the Province worked out to 83 per cent. of the normal against 90 per cent., estimated in the first forecast, but I am of opinion that the damage to the crop has been overestimated and that the crop will not fall short of my preliminary estimate, viz., 90 per cent. of the normal.

Accepting 90 per cent. as the outturn of autumn rice, the gross yield amounts to 31,144,300 cwts. against 34,917,100 cwts. of last year.

W. R. GOURLAY,
Offg. Director of Agriculture, Bengal.

The weather and rainfall conditions were favourable. The date of harvesting was normal. The slight decrease in the outturn of autumn rice and *marua* as compared with the first forecast is due to the fact that they were damaged a little by insects in the Bettiah subdivision. The decrease in the outturn in this year as compared with that of last year is due to excessive rainfall and severe floods in July.

DEPARTMENT OF AGRICULTURE, BENGAL.

SECOND FORECAST OF THE WINTER RICE CROP OF BENGAL, 1910.

[On an average of the five years ending 1908-09, the area under winter rice in the territory to which the forecast relates represents about 27·1 per cent. of the total area under winter rice in British India.]

Character of the season.—The rainfall in April and May, though defective, was sufficient for the preparation of seed-beds and for ploughing. The monsoon set in during the first week of June, but it was not vigorous throughout the Province. In June the rainfall was defective in Bengal Proper, but it was generally above the average in the rest of the Province. In July it was excessive in South-West Bengal, Orissa and North Bihar, and deficient elsewhere. In August there was good rain in South Bihar and in Birbhum, Howrah, Nadia, Murshidabad, Saran, Sambalpur, Angul and Hazaribagh, but the fall was below the normal in the rest of the Province. The deficient rainfall in the early part of the season delayed transplantation in Bankura, Hooghly, Howrah, Patna, Gaya, Shahabad, Palamau, Manbhum and Singhbhum, while the excessive rain in July and the early part of August caused heavy floods and consequent damage in Darbhanga and also in Champaran and Muzaffarpur. Other districts of Bihar and also Nadia, Murshidabad and Cuttack suffered to a small extent from floods. The rainfall in September was well above the average in Orissa and Chota Nagpur but slightly defective in Lower Bengal and Bihar. In October it was above the average in most districts. The crop was much benefited by the rainfall during these two months. Some injury was done by insects in Sambalpur. The season was a very favourable one for the rice crop.

Area sown.—The area sown with winter rice this year is estimated at 20,733,400 acres. Last year's area was 21,232,900 acres. The normal area under the crop is returned as 20,799,400 acres.

Outturn.—From the Appendix I it will be seen that the following districts expect a crop above the normal :—

	Per cent.		Per cent.
Balasore ...	117	Manbhum ...	105
Bhagalpur and Ranchi	115	Puri ...	104
Sonthal Parganas and Cuttack ...	112	24-Parganas ...	103
		Burdwan ...	101

Birbhum, Gaya, Purnea, Angul and Sambalpur expect a normal crop. In seven districts the outturn of the crop is reported between 90 to 99 per cent. and in six between 80 to 89 per cent. In Bankura, Hooghly, Monghyr, Jessore and Champaran the crop has been shown at 72 to 78 per cent. Nadia reports 67 per cent. According to the district returns the outturn of the crop for the Province works out to 98 per cent. But in consideration of the favourable weather conditions and of the under-estimates in some districts, I am of opinion that the crop will be not less than 112 per cent. of the normal.

Accepting 112 as the Provincial outturn, the gross yield of the cleaned winter rice crop for the Province is estimated at 255,909,400 cwts. against 257,394,700 cwts. of last year.

W. R. GOURLAY,
Offg. Director of Agriculture, Bengal.

No. 4880—The 19th December 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the No. 3 Assisted siding of the Katrasgarh Branch of the East Indian Railway, and whereas coal mines are situate under the said land, and whereas the Barakar Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work seam No. 14, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Barakar Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working: Now, therefore, the Lieutenant-Governor in Council is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act, XVIII of 1885,

that the working shall be carried on by the said Barakar Coal Company in the manner and subject to the restrictions below specified, viz.:—

(*a*) Galleries may be driven 12 feet wide by 10 feet in height at not less than 60 feet apart, centre to centre.

(*b*) Manholes not exceeding 6 feet in height and 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(*c*) Any inrush of water, quicksand, or soft material shall be reported to the Chief Inspector of Mines without delay.

(*d*) The above restrictions apply to No. 14 seam only and to the area edged with pink on the plan and the Barakar Coal Company, Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under the above area or to work coal under any other area of acquired land, and that in all the above cases no further excavation shall be made in the gallery which already has been driven, the actual height and width of which have been carefully recorded on the plan marked L. A. M. A. No. 170 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

No. 762S.R.—The 14th December 1910.—The following draft notifications which the Lieutenant-Governor in Council proposes to issue for regulating the issue of licenses for, and the registration of, cargo boats, by the Chief Officers of Customs of the ports of False Point and Balasore and of the port of Puri, in the Orissa Division, are published for general information.

Orissa.

2. The drafts will be taken into consideration on the 23rd January 1911, and any objections or suggestions received by the undersigned before that date will be duly considered.

H. WHEELER,
Secy. to the Govt. of Bengal.

DRAFT NOTIFICATION.

In exercise of the power conferred by the second paragraph of section 79 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor in Council is pleased to prescribe the following rules:—

Rules for the issue of licenses for, and the registration of, cargo-boats, by the Chief Officer of Customs of the ports of False Point and Balasore in the Orissa Division.

1. Each application for the licensing and registration of a cargo-boat must contain particulars of the owner's name and residence and the tonnage of the boat.

2. The application shall be made to the Superintendent of Customs at False Point or the Collector of Customs at Balasore, as the case may be, and he shall, before granting the application, cause the boat to be examined and certify that she is sea-worthy.

3. The Superintendent or Collector shall, from time to time, cause all licensed cargo-boats to be surveyed; and, if any such boat is found to be unsafe, shall withdraw the license until the boat has been repaired to his satisfaction.

4. The Superintendent or Collector may at any time condemn any licensed cargo-boat found to be thoroughly unseaworthy, and may permanently withdraw the license granted therefor.

5. Fees not exceeding the sums hereinafter respectively mentioned shall be paid on the issue and renewal of each license granted under these rules:—

		Rs.
For cargo-boats not exceeding 10 tons' burthen	...	1
,, ,, exceeding 10 and not exceeding 15 tons' burthen	...	2
,, ,, exceeding 15 tons' burthen ...	...	3

6. All licenses shall be current for one year only from the date of registration thereof.

7. All licenses shall be registered in the order in which they are granted, but, when any license is permanently withdrawn, then the next license issued shall bear the number of the license withdrawn.

8. The number of the license must be painted in black figures on a white ground on both bows of every licensed boat, and these figures must not be less than six inches in length and four inches in breadth.

9. The license must be produced whenever demanded by any officer of Police or Customs or by any person using or hiring the boat.

10. Cargo-boats, the *manjhis* of which fail to produce their license in accordance with rule 9, may be treated as unlicensed boats, unless a satisfactory explanation for such failure is given to the Superintendent or Collector, as the case may be, or, in his absence, to the senior Revenue Officer at the station.

11. No cargo-boat shall be licensed unless she is provided with a sufficient crew, to be specified in the license.

12. The license of a cargo-boat found plying contrary to the conditions of such license shall be liable to cancelment.

13. If any license be cancelled for any reason, the holder thereof shall be bound to deliver it up to the Superintendent or Collector, as the case may be.

14. When employed in the service of vessels entering the Port, the owners, *manjhis* and crews of all licensed cargo-boats shall obey all orders consistent with these rules and the Sea Customs Act, 1878, which are issued by the Superintendent or Collector as the case may be.

15. When any vessel arrives in the Port, and requires the services of cargo-boats, the Superintendent or the Collector, as the case may be, may, with or without an application from the agents, owners, or master of such vessel, apportion a certain number of licensed cargo-boats for the service of the vessel.

16. Whenever the Superintendent or the Collector, as the case may be, considers that the weather is too bad for work to be carried on alongside a vessel in Port, he shall cause a storm signal (cone or drum) to be hoisted, and licensed cargo-boats shall not be bound to ply while such signal is flying.

17. All licensed cargo-boats must carry a crew upon the following scale:—

Class 1st.—Square-built, open or decked.

For a boat of not more than 15 tons' burthen,					5 men, including a *manjhi*.			
,, ,,	above 15 tons and under 20 tons				6	,,	,,	,,
,, ,,	20	,,	,, 25	,,	7	,,	,,	,,
,, ,,	25	,,	,, 30	,,	8	,,	,,	,,
,, ,,	30	,,	,, 35	,,	9	,,	,,	,,
,, ,,	35	,,	,, 40	,,	10	,,	,,	,,
,, ,,	40	,, 11 men, including *manjhi*.						

Class 2nd.—Bhurs or pattamoondi boats.

For a boat not more than 15 tons' burthen,					4 men, including *manjhi*.			
,, ,,	above 15 tons and under 20 tons				5	,,	,,	,,
,, ,, ,,	20	,,	,, 30	,,	6	,,	,,	,,
,, ,, ,,	30	,,	,, 35	,,	7	,,	,,	,,
,, ,, ,,	35	,, 8 men, including *manjhi*.						

18. If any licensed cargo-boat is found plying within the limits of the Port with less than the scale of crew prescribed by rule 17, or with deficient ground tackle or appliances, the license granted therefor may be withdrawn until such deficiency is made good to the satisfaction of the Superintendent or the Collector, as the case may be.

II.—Notification No. 3394 S.R., dated the 28th July, 1903, published at page 985 of Part I of the *Calcutta Gazette* of the 29th *idem*, is hereby cancelled.

DRAFT NOTIFICATION.

In exercise of the power conferred by the second paragraph of section 79 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor in Council is pleased to prescribe the following rules :—

Rules for the issue of licenses for, and the registration of, cargo-boats by the Chief Officer of Customs of the port of Puri in the Orissa Division.

1. Each application for the licensing and registration of a cargo-boat must contain particulars of the owner's name and residence and the measurements of the boat.

2. The application shall be made to the Collector of Customs at Puri, who shall, before granting the application, cause the boat to be examined and certify that she is sea-worthy.

3. The Collector shall, from time to time, cause all licensed cargo-boats to be surveyed : and, if any such boat is found to be unsafe, shall withdraw the license until the boat has been repaired to his satisfaction.

4. The Collector may at any time condemn any licensed cargo-boat found to be thoroughly unseaworthy, and may permanently withdraw the license granted therefor.

5. A fee not exceeding the sum of Rs. 2 shall be paid on the issue and renewal of each license granted under these rules.

6. All licenses shall ordinarily be current from the date of registration thereof to the 31st March next following. All licenses shall expire on 31st March.

7. All licenses shall be registered in the order in which they are granted ; but, when any license is permanently withdrawn, then the next license issued shall bear the number of the license withdrawn.

8. The number of the license must be painted in black figures on a white ground on both bows of every licensed boat, and these figures must not be less than six inches in length and four inches in breadth.

9. The license must be produced whenever demanded by any Officer of Police or Customs or by any person using or hiring the boat

10. Cargo-boats, the *manjhis* of which fail to produce their license in accordance with rule 9 may be treated as unlicensed boats, unless a satisfactory explanation for such failure is given to the Collector, or, in his absence, to the senior Revenue Officer at the station.

11. No cargo-boat shall be licensed unless she is provided with a sufficient crew, to be specified in the license.

12. The license of a cargo-boat found plying contrary to the conditions of such license shall be liable to suspension for a period not exceeding six months, or to cancellation, at the discretion of the Collector.

13. If any license be suspended or cancelled for any reason, the holder thereof shall be bound to deliver it up to the Collector.

14. When employed in the service of vessels entering the port, the owners, *manjhis*, and crew of all licensed cargo-boats shall obey all orders consistent with these rules and the Sea Customs Act, 1878, which are issued by the Collector.

15. When any vessel arrives in the port, and requires the services of cargo-boats, the Collector may, with or without an application from the agents, owners or master of such vessel, apportion a certain number of licensed cargo-boats for the service of the vessel

16. Whenever the Collector considers that the weather is too bad for work to be carried on alongside a vessel in port he shall cause a storm-signal (high-surf square flag with alternate small squares of red and white) to be hoisted, and licensed cargo-boats shall not be bound to ply while such signal is flying.

17. All licensed cargo-boats must carry a crew of eight men, including a *manjhi*.

18. If any licensed cargo-boat is found plying within the limits of the port with a crew below the number prescribed in rule 17, or with deficient tackle or appliances or insufficient dunnage, the license granted therefor may be withdrawn until such deficiency is made good to the satisfaction of the Collector.

19. No cargo-boat laden with cargo shall ply by night without the permission of the Collector.

20. During the fair season, *i e.*, from the 20th October to the 10th of April each year the full load for a licensed cargo-boat plying from the shore to the anchorage shall be 50 maunds (25 bags of rice) and during the rest of the year the full load for such cargo-boat shall be 40 maunds (20 bags of rice).

No. 764S.-R.—The 16th December 1910.—In rule 3 (*g*) of the rules issued under Notification No. 3388.-R., dated the 2nd April 1909, (published at pages 496-97 of Part I of the *Calcutta Gazette* of the 7th idem), providing for the payment of duty on salt within a certain period and for furnishing security for such payment, *for* the figures "42" *substitute* the figures "45."

THE following Resolution by the Government of India is republished for general information.

J. G. CUMMING,
Secy. to the Govt. of Bengal.

Nos. 5475—5507, dated Calcutta, the 9th December 1910.

RESOLUTION--By the Government of India, Home Department.

1. The Governor-General in Council has recently had under consideration the subject of the creation of an additional membership of the Executive Council of the Governor-General, with the appropriate Secretariat and clerical staff, to deal, primarily, with the subjects of education and local self-government. In addressing the Secretary of State on this question, Lord Minto's Government based their proposals, firstly, on the administrative and political expediency of making better provision for the conduct of public business in the branches of work above mentioned and, secondly, upon the necessity for affording relief to the Home Department. Regarding it as incontestable that relief to the Home Department was needed, they came, after careful deliberation, to the conclusion that the form in which it could best be given was by dividing the present work of that Department into two—one part of the work to be dealt with by the existing department, the constitution of which would be revised, and the other by a new department, which would be charged primarily with the administration of educational business, but would also take over certain other branches of work with which the Home Department has hitherto dealt, including all matters connected with local self-government.

2. The extreme importance of the subject of education needed no demonstration. The extensive reforms, which were initiated by Lord Curzon's Government, were still far from complete, although much had been done in every province to give effect to them, and schemes of improvement in every class of institution from the Universities downwards had been formulated, of which many had been put into execution, while others were awaiting the provision of the necessary funds. There were again abundant indications both in the debates in Council, in the Press, and in the reports of Local Governments of a genuine and widespread desire for improved technical instruction to facilitate the growth of indigenous trades and industries, which it was impossible to ignore; and, indeed, the Governments of all the major provinces had already devoted considerable attention to the subject and steps had been taken in almost all to make a beginning in that direction. The subject, again, of primary education; the question how far it should be provided free of cost; the training of teachers; the provision in the educational system of facilities for moral instruction; the development in it of influences which tend towards the better formation of character; the question how far religious instruction should be permitted—these as well as the prosecution of the other reforms already mentioned, presented problems of the first magnitude, the successful solution of which would involve extensive expenditure both from imperial and provincial and local funds prolonged over a series of years and incurred in accordance with a wisely-planned and consistent educational policy. To assist in solving those problems and to direct that policy were tasks which, in the opinion of Lord Minto's Government, might fitly claim the attention of a special department.

3. The Government of India thought that with educational business the despatch of that connected with local self-government might suitably be conjoined, since municipal and local bodies are responsible for no small part of the public expenditure on education. Besides these subjects, they proposed, in order to afford an adequate degree of relief to the Home Department, to hand over to the new department a certain number of miscellaneous heads of business, including Sanitation, Archæology, Books, Records, Ecclesiastical, and a few subjects of minor importance now dealt with in the Public Branch of the Home Department. To these were to be added all business connected with museums now dealt with in the Department of Commerce and Industry.

4. Such is a brief summary of the grounds upon which Lord Minto's Government based their proposals. As regards the staff for the new department, they suggested that, besides the Member in charge, the department should have a Secretary on a pay of Rs. 3,000 a month, a Joint-Secretary on Rs. 2,500 a month, and an Assistant Secretary on Rs. 1,000 a month. In making these proposals for the superior staff, it was explained that the Government of India regarded them as provisional only, and that in their opinion they should be subject to reconsideration in the light of the experience which would be gained hereafter of the special requirements of the new department. In particular, they did not desire to tie their own hands or those of their successors by declaring that the posts of Secretary or Joint or Assistant Secretary should be definitely assigned to any particular services, as the creation of the new department was an experiment, and its novelty justified the Government of India in retaining from the outset a full measure of freedom to modify the constitution of the staff in such manner as might seem best calculated to fulfil the objects with which the department was formed.

5. It was further proposed that the Imperial Record Office, as at present existing, should be a sub-department of the new department; that the Officer in charge of the Records should continue to discharge under it the duties of Assistant Secretary in the Books and Publications Branch, which he at present performs under the Home Department; that the post of Director-General of Education should cease to exist, and the staff of his office, consisting principally of a bureau of educational information, which was charged with the duty of collecting information on educational subjects for the assistance of the Government of India and of the provincial departments of instruction, should be absorbed in that of the new department. The clerical staff of the new department was at the outset to be provided entirely by transferring to it a suitable number of superintendents, subordinates and menials from the present staff of the Home Department, and the only new post that was at present required in connection with this part of the scheme was that of Registrar, who, it was proposed, should receive a pay of Rs. 800 a month in accordance with the rate recently sanctioned for Registrars of other departments of the Secretariat.

6. The Secretary of State having approved of these proposals subject possibly to revision after two or three years' experience, the Governor-General in Council is pleased to direct that the Department of Education to the charge of which the Hon'ble Mr. S. H. Butler, C.S.I., C.I.E., has already been appointed shall be constituted forthwith, and that all matters pertaining to the subjects detailed in the statement annexed to this Resolution shall, from the date of these orders, come under the cognizance of the new department.

ORDER.—Ordered that a copy of this Resolution (and its annexure) be communicated to the several departments of the Government of India for information and communication to subordinate officers and departments, to all local Governments and Administrations, and to the officers named in the margin for information and guidance.

RESOLUTION.

ACCOUNTS AND FINANCE.

LOANS.

The 15th December 1910.

No. 6621A.—The conditions on which local authorities are allowed to issue sterling loans were originally explained in the Resolution in this Department, No. 4119A, dated the 9th July 1903. Since then various instructions on the subject have been issued, from time to time, by the Government of India, for the guidance of local bodies. Recently, the Secretary of State has communicated further orders and suggestions in regard both to regular loans and to the issue of short-term bills in sterling. The Government of India, therefore, consider it desirable to recapitulate and amplify the existing directions on the subject.

2. The *general principles* which govern the raising of sterling loans by local bodies are these—.

(1) Borrowing in sterling requires the previous sanction of the Secretary of State.

(2) Application for permission to issue such loans will be entertained only in cases in which there is a reasonable prospect of the money being raised at a rate of interest not exceeding 4 per cent. and at a price not appreciably below par, and in which it does not appear probable that the issue could be made in India except on terms appreciably less favourable to the local body.

(3) Local bodies borrowing in sterling must make their own arrangements for bringing the capital raised to India and for remitting the interest to the holders of the stock.

3. The *special conditions* precedent to the raising of sterling loans are as follows :—

(4) An application for permission to float a sterling loan must be submitted through the local Government to the Government of India in sufficient time to allow of the necessary reference to the Secretary of State. Ordinarily speaking, it is advisable that the application should be made a month before the loan is required.

(5) In forwarding the application to the Government of India, the Local Government will furnish information on the points specified in paragraph 6 of the Notification of the Government of India, Accounts and Finance No. 6566A, dated 24th October 1907, and will state its opinion as to the desirability or otherwise of sanctioning the loan.

(6) The date or approximate date of issue, and, if the loan is to be issued through a Bank or firm, the name of the Bank or firm must be specified in the application.

4. The attention of Local Governments and local authorities is drawn to the following supplementary instructions and suggestions on the subject of sterling loans :—

(7) The nature of the issue, the price paid by the public, the net price received by the local body, and the commission, if any, and other expenses connected with the issue, should be reported by the local body confidentially through the Local Government to the Government of India, for transmission to the Secretary of State, as soon as practicable.

(8) If a Bank or firm has issued the loan, it should be furnished with a certified copy of the Government order conveying sanction to the raising of the money and authorising the form of the loan. Without this a quotation on the London Stock Exchange cannot be obtained.

(9) The first loan of any denomination brought out by a local body should be offered to competitive tender. Only Banks or firms of good standing should be invited to tender—a condition which is specially important in view of the advantage of being able to make subsequent issues through the original issuing house. The right of rejecting any tender, or all, should be reserved in all cases, and should be exercised when the conditions in 2 (2) above are not satisfied. When the first issue has been officially quoted on the London Stock Exchange, there will ordinarily be no objection, in the case of subsequant issues, to the local body arranging terms with the original issuing house without inviting competitive tenders, provided always that the general conditions of the market justify an issue at the same nominal rate of interest. In such cases the proposed terms will require the previous sanction of the Secretary of State, and should be reported through the usual channels.

(10) When several successive issues are made by the same local body at short intervals, it will usually be advantageous that the later loans should rank *pari passu* with the first issue. When therefore a succession of loans repayable in 30 years is in contemplation, the Government of India will have no objection to the currency of the first issue being fixed at 35 years, on condition that any further loans issued during the following ten years shall be repayable on the same date.

5. When a local body desires to obtain purely temporary accommodation in England, otherwise than by an advance from its banker, the following procedure shall ordinarily be adopted:—

(11) The local body should make a public issue of bills in its own name, expressed to be payable at a specified date by itself to the holders. Sanction to such issues should be applied for in the same manner and with the same particulars *mutatis mutandis* as in the case of regular sterling loans.

6. The Governor-General in Council wishes to invite the careful attention of all Local Governments and local authorities to the instructions and advice conveyed above.

ORDERED that the Resolution be published in the *Gazette of India* for general information.

Municipal and Local.

NOTIFICATIONS.

No. 1390M.—The 10th December 1910.—The following by-laws, framed by the General Committee of the Corporation of Calcutta under section 559, clauses (26) to (29) and (55), and section 561 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), have been confirmed by the Corporation and sanctioned by the Lieutenant-Governor under section 566 (*1*) of that Act, and are hereby published as required by section 570 thereof :—

Calcutta.

PART I.—*By-laws under section 559, clause (26).—The manner in which stables, cattle-sheds and cow-houses are to be constructed and connected with the Municipal drains.*

1. (*1*) Every stable, cattle-shed and cow-house constructed after these by-laws come into force must conform to the standard type-plans annexed hereto. Type plans.

(*2*) Copies of the said type-plans shall be supplied at the Municipal Office to any applicant on payment of one rupee for each copy.

2. Every stable, cattle-shed and cow-house must be well paved with asphalt, stone, brick-on-edge with cement pointing, or flag-stones set in cement, or with some other suitable impervious material approved by the Chairman. Paving.

3. (*1*) The floor of every stable, cattle-shed and cow-house must incline to a channel or gutter, sloping towards and draining directly into a gully-pit communicating with a sewer situated immediately outside the stable, shed or house : Inclination of floor.

Provided that, in the unsewered area,—

(*a*) such channel or gutter must drain directly into a cess-pool similarly situated, the contents whereof shall be removable, and

(*b*) such cess-pool must be constructed of bricks set in cement and cement-plastered, or of some other suitable impervious material approved by the Chairman, and must be so constructed as not to admit rain-water.

(*2*) The slope of the floor must be made so as to incline away from the heads of animals, and, in the case of floors of stables, sheds or houses hereafter constructed and accommodating two rows of animals, must be made so as to incline outwards.

4. Every stable, cattle-shed and cow-house must have, for purposes of light and ventilation,— Openings for light and ventilation.

(*a*) an opening, of not less than one foot in width, on all sides, below the junction of the eaves and the wall of the building, as shown in the annexed type-plans, and

(*b*) such other openings as may be required by the Chairman.

Prohibition of upper storeys, lofts and sleeping places.

5. Every stable, cattle-shed and cow-house must have one storey only, and there shall be no construction, arrangement or fixture permitting of any lofts or sleeping places, either over the roof or, within the interior, over the stalls for horses or cattle:

Provided that

(a) the Chairman may sanction the erection of an upper storey if the floor thereof be constructed of impervious material to his satisfaction, and

(b) an appeal shall lie to the General Committee in any case in which the Chairman refuses such sanction.

Space for each animal.

6. The interior fittings of every stable, cattle-shed and cow-house must be so constructed and placed as to provide for each animal kept in the stable, shed or house a clear superficial floor space of at least forty square feet and a clear lateral space of at least five feet.

Height of walls.

7. The walls of every stable, cattle-shed or cow-house must be at least seven feet in height from the level of the floor up to the junction of the eaves with the walls

Separate places for storage of milk and milk-vessels.

8. (1) No cattle-shed or cow-house shall be so constructed as to provide for the storage of milk or milk-vessels therein.

(2) For every cattle-shed or cow house in which milch-cows or milch buffaloes are kept there shall be provided a separate shed or place for the temporary storage of milk and milk-vessels.

(3) Such shed or place shall not communicate directly with any stable, cattle-shed or cow-house, and shall not, without the special permission of the Chairman, be placed within a distance of fifteen feet from any connected privy or twenty-five feet from any service-privy or urinal

Application of by-laws 1, 4 and 8.

9. By-laws 1, 4 and 8 shall apply only to stables, cattle-sheds and cow-houses in which animals are kept for sale or hire or for the sale of their produce.

PART II.—*By-laws under section 559, clause (27).—Inspection of milch-cattle, and cleansing, drainage and water-supply of dairies and cattle-sheds in the occupation of persons following the trade of dairymen or milk-sellers.*

Definitions.

10. In this Part,—

(a) "cattle-shed" means any place in which milch-cattle are kept, and

(b) "dairyman" means any person following the trade of cow-keeper, milk-supplier or milk-seller.

Facilities to be afforded to Inspecting Officers.

11. Every occupier of a cattle-shed, every person having the care or control of milch-cattle, and every dairyman, shall afford all reasonable assistance and facility to the Health Officer, the District Health Officer, the Sanitary Inspector, the Milk Inspector and any other Officer appointed to inspect milch-cattle, whenever he is so required by any such Officer desiring to inspect such cattle.

12. Every dairyman—

Cleansing of cattle-sheds.

(a) shall cause every part of the interior of every cattle shed in his occupation to be thoroughly cleansed from time to time and as often as may be necessary to secure cleanliness, and

(b) shall cause the floor of every such shed to be thoroughly swept, and all dung and other offensive matter to be removed, at least twice every day, and

(c) shall, after the floor is so swept, cause it to be swilled with fresh water.

Draining off liquid matter.

13. Every dairyman shall cause the drainage of every cattle shed in his occupation to be so arranged that all liquid matter which falls or is cast upon the floor shall be drained off by suitable means to be approved by the Chairman.

Water supply.

14. (1) Every cattle-shed in which milch-cattle are kept for the sale of their produce must be provided with an adequate supply of filtered water, to the satisfaction of the Chairman,—

(a) for the cattle to drink,

(b) for washing utensils used for milk, and

(c) for flushing purposes.

(2) No unfiltered water shall be supplied to any such cattle-shed.

(3) Every dairyman shall keep in, or in connection with, every dairy and cattle-shed in his occupation such supply of filtered water as the Chairman may consider sufficient.

(4) No owner or occupier of a cattle-shed shall keep or allow to be kept any well or any supply of unfiltered water for use in, or in connection with, such shed.

PART III.—*By-laws under section 559, clause (28).—Cleanliness of milk-stores, milk-shops and milk-vessels.*

Definition.

15. In this Part, "dairyman" means any person following the trade of cow-keeper, milk-supplier or milk-seller.

Cleanliness of milk-stores and milk-shops.

16. Every dairyman who is in occupation of a milk-store or milk-shop shall cause every part of the interior of such store or shop to be thoroughly cleansed from time to time and as frequently as may be necessary to maintain the store or shop in a thorough state of cleanliness.

17. Every dairyman shall— *Cleanliness of milk vessels.*

(a) cause every vessel used by him for containing milk to be thoroughly cleansed with steam or boiling water, immediately after such use, and

(b) take all proper precautions for maintaining every such vessel in a constant state of cleanliness.

PART IV.—*By-laws under section 559, clause (29).—Notice to be given whenever any milch-animal is affected with any contagious disease, and precautions to be taken for protecting milch-cattle and milk against infection or contamination.*

18. In this Part,— *Definitions.*

(a) "dairy" includes any farm, farm-house, cattle-shed, cow-house, milk stall, milk-shop or other place from which milk is supplied, or in which milk is kept, for the purpose of sale, and

(b) "dairyman" includes any owner or occupier of a dairy, as defined in clause (a) of this by-law, and any person following the trade of dairyman milk-supplier or milk seller.

19. Every dairyman shall, whenever any milch-animal in his dairy is affected with any contagious disease, forthwith give notice to the Health Officer or District Health Officer. *Notice when milch animal affected with contagious disease.*

20. Every dairyman shall, in order to prevent infection or contamination, forthwith remove or cause to be removed from his dairy, and from the proximity of other animals, any animal therein which is found to be suffering from any contagious or infectious disease. *Removal of infected animals from dairy.*

21. On the outbreak of any contagious or infectious disease, every dairyman shall, if so required by notice from the Chairman or the Health Officer,— *Removal of animals and purification of dairy on outbreak of contagious or infectious disease.*

(a) cause his dairy to be temporarily emptied of all animals, and

(b) cause the whole interior surface of the dairy to be disinfected or lime-washed, or both.

22. No dairyman shall at any time permit any person suffering from any dangerous disease to enter or remain in his dairy or the precincts thereof. *Exclusion of persons suffering from dangerous disease.*

23. No dairyman shall sell, or permit to be sold, the milk of any animal suffering from any contagious or infectious disease (including tubercular disease of the udder), or shall add such milk, or permit it to be added, to any milk of other animals which is intended for sale or for human consumption. *Dealings with milk of infected animals.*

24. No dairyman shall deposit or keep any milk which is intended for sale— *Prohibitions as to places and method of keeping milk intended for sale.*

(a) in any room or place where it would be liable to become infected or contaminated by impure air, or by any offensive, noxious or deleterious gas or substance, or by any noxious or injurious emanation, exhalation or effluvium, or

(b) in any room used as a kitchen or inhabited room, or

(c) in any room or part of a building which is used for sleeping, or

(d) in any room, place or part of a building in which there is any person suffering from any dangerous disease, or

(e) in any room, place or part of a building which has been used by any person suffering from any dangerous disease, unless it has been thoroughly disinfected to the satisfaction of the Health Officer or the Chairman, or

(f) in any room or part of a building in which there is any urinal or privy or any direct inlet to any drain, or

(g) otherwise than in covered receptacles.

25. No dairyman shall cause or permit any cow belonging to him or under his care or control to be milked for the purpose of obtaining milk for sale or for human consumption— *Milking.*

(a) unless at the time of milking the udder and teats of such cow are thoroughly clean, and

(b) unless the hands of the person milking such cow are thoroughly clean and free from all infection or contamination.

26. No person shall— *Precautions in carrying milk for sale or for human consumption.*

(a) carry any milk for sale or for human consumption in any vessel unless such vessel be made of some impervious material and be provided with a suitable covering, or

(b) allow any milk while being so carried to be exposed to dirt, dust or any other offensive matter.

PART V. *-By-law under section 559, clause (55).*

27 If any person commits a breach of any of the foregoing by-laws, the Chairman may, in his discretion, send him written notice to discontinue such breach. *Notice to discontinue breach of by-law.*

PART VI —*By-law under section 561.—Penalties.*

28. Every breach of any of the foregoing by-laws shall be punishable— *Penalties.*

(a) with fine which may extend to twenty rupees, and, in the case of a continuing breach, with a fine which may extend to ten rupees for every day during which the breach continues after conviction for the first breach, or

(b) with fine which may extend to ten rupees for every day during which the breach continues after receipt of written notice from the Chairman to discontinue the breach.

NOTIFICATION.

STATE SCHOLARSHIPS TENABLE IN ENGLAND BY EUROPEANS AND EURASIANS EDUCATED IN INDIA.

No. 20153.—The 6th December 1910.—In the year 1907 His Majesty's Secretary of State for India sanctioned the institution of one sholarship of £200 per annum tenable at a European University to be awarded in each year to a member of the domiciled European and Eurasian community in India on the understanding that candidates belonging to this community should no longer be regarded as eligible for the two University State Scholarships at present granted to natives of India. *For the scholarship to be awarded in the year 1911 applications are now invited.*

2. The scholarship will entitle the holder to an allowance not exceeding £200 per annum payable from the date of his arrival in England and will be tenable for three or four years, as circumstances may require, at any University in the United Kingdom or, with the

special sanction of the Government of India, at a foreign University. The candidate to whom the scholarship is awarded, will be required to proceed to England within a reasonable period from the date of his selection, and to reside there for a period of three or four years, as the case may be, unless compelled to return sooner by ill-health. He will be provided with a free second class passage to England, and also with a free return passage if he completes the full period of residence or is compelled by sickness to return within that period.

3. The two main principles which govern the grant of the scholarship are:—

(i) that as the object in view is to assist a domiciled European or Eurasian to go through a University course in England the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University at practically the same age as boys educated in England: the Government of India place the age limits at 18 to 21, *i.e.*, the candidate must have completed 18 years of age and not have completed 21 years, on 31st March of the year in which the scholarship is awarded; and

(ii) the scholarship will be given to the candidate who is most likely to win distinction at the University.

4. The following rules are to be observed in regard to the form in which applications are to be submitted:—

(1) The application should ordinarily be in the handwriting of the applicant. In the exceptional case of his being out of India, the parent or guardian may submit an application:

(2) The application should give full details as to the applicant's age, family circumstances, the schools or colleges which he has attended, his studies, the distinctions he has gained, and the course of study he wishes to follow. Information should also be given as to—

(*a*) the University at which the candidate proposes to study and the reasons for selecting the particular University;

(*b*) the special aptitude, if any, which the candidate has shown for the kind of study which he proposes to pursue;

(3) The application should be accompanied by a birth certificate, a certificate from a commissioned officer of the Indian Medical Service testifying to the general health of the candidate and certifying that his physique is such that there is good prospect of the University course not being seriously interrupted by ill-health, and testimonials as to character and capacity. If original testimonials are not sent in, certified copies must be submitted. The testimonials should include—

(*a*) A certificate from the Principal of the institution last attended, stating that the applicant is of good moral character and of active habits, and, in the event of his having left school or college more than six months before the date of application, a certificate by a person of recognised position well acquainted with him, stating how he has been employed since he left school and certifying to his moral integrity.

(*b*) A certificate from some person of recognised position well acquainted with the candidate and his family, to the effect that he is a native of India within the meaning of Statute 33 Vict. Cap. 3, section 6, and that his parents are not resident in India for temporary purposes only.

5. The Director of Public Instruction will personally interview those applicants whose names he thinks worthy of submission to Government. If a personal interview is impossible (*e.g.*, owing to a candidate being absent from India), the fullest possible information should be given as to the physique and character of the candidate.

6. All applications for the scholarship to be awarded during the year 1911 should be submitted in the first instance to the Inspector of European Schools, Bengal, in time to reach the Director of Public Instruction on or before the 15th January 1911.

7. No application will be considered unless the applicant declares that the conditions of the scholarship as laid down in paragraphs 2 and 8 of this notification are known to him, and that he is prepared to abide by them.

8. The scholar will, on arrival in England, be required to bind himself by a written engagement to submit to the following rules, and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for the guidance of scholars in England:—

(*a*) Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.

(*b*) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.

(c) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary of State a certificate from the proper University or College authority showing that his residence, conduct and progress in study have been satisfactory during the term.

(d) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

(e) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, or four years, if so determined will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England.

(f) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required terms of residence at a University or who is guilty of misconduct, persistent idleness, or disregard of the orders of the Secretary of State. If the scholarship be forfeited, the scholar will lose his claim to a free return passage to India and will further become liable to refund the cost of his free passage to England.

(g) The scholar will be under the supervision and charge of the Political A.-D.-C. to the Secretary of State, through whom the necessary orders will be given, and to whom all reports and other communications respecting him should be sent.

E. L. PRESTON,
Offg. Asst. Director of Public Instruction.

SUBJECT for Essay for the Dwarka Nath Pal Vedic Competition Prize for the year 1912 is "Ethnological and Geographical information to be derived from the Vedas."

2. A prize of Rs. 500 will be awarded to the author of the best essay on the above subject. The last date for sending in the Essays shall be the 1st March 1912.

3. Rules for the guidance of candidates for the prize, extracted from the Government Notification No. 3678, dated the 26th September 1910, are published for general information.

SATIS CHANDRA VIDYABHUSANA,
Principal, Sanskrit College and Administrator of the Dwarka Nath Pal Vedic Competition Fund.

CALCUTTA, *the 19th December 1910.*

Rules for the guidance of candidates for the Dwarka Nath Pal Vedic Competition Prize.

THE competitions shall be limited to Hindu inhabitants of Bengal, irrespective of caste or age, and the term "Bengal" shall include all the territories subject to the Lieutenant-Governor of Bengal and the following portion of the province of Eastern Bengal and Assam, namely, Dacca, Rajshahi and Chittagong Divisions and the district of Sylhet. The Administrator (Principal of the Government Sanskrit College, Calcutta) and the Advisory Board may themselves award the prize, or may appoint an Honorary Examiner or Honorary Examiners.

2. The prize shall not be awarded to the author of any essay unless such essay furnishes evidence of research or of special investigation or embodies useful suggestions relating to the subject. The language may be either Bengali or Sanskrit or English.

3. Candidates shall be required to send in essays to the Administrator in a sealed cover bearing a nom-de-plume or motto, and enclosed therein they must send additional sealed covers bearing such noms-de-plume or mottoes on the outside and containing within their true names and addresses. The name of the successful competitor shall be published in the official Gazette. The sealed covers containing the true names of unsuccessful competitors shall be kept for three months from the date of publication of name of successful competitor, and if within that time unsuccessful competitors desire their essays to be returned such essays shall be returned on their applying to the Administrator stating their noms-de-plume or mottoes. All essays and covers in respect of which no such application is made shall be destroyed after the expiration of the said period.

4. The successful competitor shall be required to publish his essay at his own expense and to supply fifty printed copies thereof to the Administrator before payment of the prize is made. The award shall be made as soon as conveniently possible and payment shall be made on receipt of such printed copies.

5. If in any year no competitor evinces sufficient merit to entitle him to the prize the amount thereof may be held over for a second prize in a subsequent year, or may be otherwise applied in the discretion of the Administrator and the said Advisory Board in some other manner for the encouragement of the Vedic study.

NOTIFICATION.

CANDIDATES are invited to apply for two State scholarships of the annual value of £150 each, tenable for two years in the United Kingdom or Continental Europe, for the special study of Sanskrit, the courses of which will be decided by the Secretary of State for India.

2. These scholarships are open to well qualified students with a genuine taste for oriental studies and to gentlemen already employed as Professors of Sanskrit in India.

3. Selected candidates will be provided with a free second class passage to Europe and also with a return passage if they complete the full period of residence or are compelled by sickness to return earlier.

4. Applications with a full description of the candidate's qualifications to reach the Director of Public Instruction, Bengal, not later than 15th February 1911.

NOTIFICATION.

POST-GRADUATE RESEARCH SCHOLARSHIPS, 1911.

1. Two post-graduate Research Scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only, will be awarded early in the year 1911.

2. No candidate will be considered who has not passed the M.A., the M.D., the D.L. or the Master in Engineering Examination of the Calcutta University in 1908, 1909 or 1910. No candidate will be considered who is not possessed of high qualifications, and who cannot show that he has a capacity for original research.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some scientific subject, such as Natural and Physical Science, Chemistry, Mathematical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as a Language, Comparative Philology, Palæography, Epigraphy, Philosophy, History, Archæology, Anthropology, etc.; but no application for a scholarship for research in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear, by the programme which he submits, that he has thought out a definite course of inquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, both the scholarships may be awarded for scientific research.

4. All applications must be submitted, through the head of the institution in which the candidate read last, so as to reach the undersigned on or before the 31st January 1911.

5. Application forms may be had from the Personal Assistant, Office of the Director of Public Instruction, Writers' Buildings, Calcutta.

PRESIDENT'S ADDRESS.

THE PRESIDENT said:—

"GENTLEMEN OF THE COUNCIL.—It gives me much pleasure to meet you again, at the opening of our second Session. Since we met last the Council has been strengthened by the accession of the Hon'ble Members of the newly-created Bengal Executive Council. They are all old friends of ours, and I am sure that you will join with me in according them a hearty welcome in the new capacity in which they join it. I am confident that the proceedings of the Council, during the ensuing year, will be marked by the same gratifying features of good sense, moderation, and business like promptitude by which they were signalized last year. I do not think that it will be necessary to make very excessive demands on your time and patience; for though we have a considerable number of legislative measures to bring before you, and some of them are important, there is only one which is at all lengthy. That one is the Bill for the establishment of the Calcutta Improvement Trust, which was introduced last rains, and which we propose to refer to a Select Committee to-day.

"Before we begin our regular proceedings, I desire to draw the attention of the Council to the small platform and desk which has been erected on the north side of the Council Chamber, immediately opposite to my chair. One of the Hon'ble Members brought to my notice some time ago that the accoustic properties of this Chamber are defective; and that some of the members experienced difficulty in making themselves heard. He suggested, therefore, that it might be an advantage if a sort of raised rostrum were provided, which should be at the disposal of Hon'ble Members if they desired to avail themselves of it. We have accordingly given effect to this suggestion in the manner that you see. I am not certain how Hon'ble Members will regard it. The use of it is, of course, in no way compulsory. It is entirely optional with all members to use it or not as they please; and for the present it must only be looked upon as an experiment. If it succeeds and comes into general use, it can be made permanent. If, on the other hand, it turns out to be unpopular, it can be removed."

QUESTIONS AND ANSWERS.

THE BAGER KHAL.

The Hon'ble BABU HRISHIKESH LAHA asked:—

I.—(*a*) Is the Government aware of the importance of Bager khal, known as the Jamuna, which runs into the river Hooghly and ultimately connects with the Ichamati at Goalaghat, as being the natural drain of the villages situated on both sides of the khal and a principal source from which the inhabitants of the adjoining villages draw their water-supply?

(*b*) Is the Government aware that the khal has silted up in many places, and that, as a consequence, unhealthiness and great mortality prevail in those places?

(*c*) Will the Government be pleased to state whether they intend to re-excavate the khal by reviving the project of 1903, or by any new scheme, with a view to remove the present unhealthiness and high rate of mortality of the villages concerned?

(*d*) If the answer to question (*c*) be in the affirmative, when is the project likely to be taken up?

The Hon'ble MR. BUTLER replied:—

(*a*) "Several representations have been received from the inhabitants of the tract bordering the Bager khal of the importance of the khal as a navigation

and drainage channel and as the principal source of the water-supply of the villages on either bank.

(b) "Government is aware that, owing to the formation, about 50 years ago, of a large chur at the offtake of the Bager khal from the Hooghly, the khal has considerably silted up, and an epidemic of fever and cholera was attributed by the local inhabitants to this silting up.

(c) "The re-excavation of the khal is not now under consideration, as it does not appear probable that the parties affected would be willing to pay for the cost of such re-excavation.

(d) "As the answer to (c) is not in the affirmative, this requires no answer."

RE-EXCAVATION OF THE RIVER BHAIRAB.

The Hon'ble Babu Hrishikesh Laha asked :—

II.—Will the Government be pleased to state whether the re-excavation of the river Bhairab, which passes through the district of Jessore, is in progress; and, if so, when it is likely to be completed?

The Hon'ble Mr. Butler replied :—

"The excavation of the Bhairab river is not in progress or proposed. The District Board are, however, preparing a scheme for flushing the Bhairab river from the Matabhanga river and the Arool Bhil."

The Hon'ble Babu Braja Kishor Prasad had given notice of the following questions, but he was not present when his turn came, and the questions were therefore not put :—

III.—Will the Government be pleased to state the present number of the non-official Indian members, as also of the official and non-official European members, of the District and Local Boards in the districts of Darbhanga, Muzaffarpur and Champaran?

IV.—Will the Government be pleased to state, in detail, what action has been taken since September, 1908, towards "getting the interests, with which the work of the District Boards is concerned, represented on the Boards with some degree of reasonable proportion", as was promised by Sir Andrew Fraser, whose views on this matter were endorsed by the present Government, in reply to my questions on the subject on the 26th February, 1910?

V.—(a) Is the Government aware that the promotions and confirmations of several members of the Provincial Judicial Service have not been published in the Gazette for about a year?

(b) Is there any special reason for this delay?

(c) If so, what is the reason?

VI.—(a) Will the Government be pleased to state whether it has any intention of taking Subordinate Judges and senior Munsifs from the Province of Eastern Bengal and Assam to fill up some of the present vacancies in this Province?

(b) If so, does the Government intend to place the services of a corresponding number of officers of corresponding grades of this Province at the disposal of the Government of Eastern Bengal and Assam?

VII.—Having regard to the fact that a special grade of Rs. 500 has been created in the Judicial Service of the new Province, will the Government be pleased to consider that the transfer of Subordinate Judges and senior Munsifs from that Province would delay the promotion of the members of the Judicial Service in this Province and would cause great hardship to them?

THE BENGAL SECRETARIAT PRESS.

The Hon'ble MR. K. B. DUTT asked:—

VIII.—Is it a fact that a Departmental inquiry was held by the Hon'ble Mr. Slacke and the Controller of Printing to inquire into the conduct of the Superintendent and the Deputy Superintendent of the Bengal Secretariat Press?

The Hon'ble MR. WHEELER replied:—

"An inquiry was held during January and February, 1907, by the Hon'ble Mr. Slacke and Mr. Cogswell into the administration of the Secretariat Press."

The Hon'ble MR. K. B. DUTT asked:—

IX.—(*a*) Is it a fact that, as a result of the said inquiry, the then Superintendent was asked to retire from the service at the instance of the above Committee, and the Deputy Superintendent was recommended for dismissal?

(*b*) If so, how far have the above recommendations been carried out?

The Hon'ble MR. WHEELER replied:—

(*a*) & (*b*) "The retirement of the Superintendent was ordered as the result of the Committee's report, and had effect from the 12th February, 1908.

"The recommendation that the Deputy Superintendent should be dismissed was not accepted by Government."

The Hon'ble MR. K. B. DUTT asked:—

X.—(*a*) Will the Government be pleased to state when Munshi Abdul Aziz Khan, a Stationery-keeper of the Bengal Secretariat Press, retired from the service of Government, and when he died?

(*b*) What was the length and nature of his service, and the pension awarded?

(*c*) Is it a fact that no orders have been passed on the application for pension of Munshi Abdul Aziz Khan up till now?

(*d*) If so, why?

The Hon'ble MR. WHEELER replied:—

(*a*) "Munshi Abdul Aziz Khan was absent from his work without leave and without pay on account of illness from the 26th May, 1904. He never formally retired; he died in April, 1905.

(*b*) "He served 28 years and 2 months in superior service. No pension was awarded to him.

(*c*) "No orders were passed on any application for pension from this officer."

(*d*) "An application for pension appears to have been made in July, 1904, but it was not brought to the notice of Government, and no further application appears to have been made by, or on behalf of, Munshi Abdul Aziz Khan."

The Hon'ble MR. K. B. DUTT asked:—

XI.—(*a*) Was the paper and stationery stock of the Bengal Secretariat Press taken, and the result ascertained in comparison with the book balance, at the time of the retirement of Munshi Abdul Aziz Khan?

(*b*) If so, will Government be pleased to state the result of stock actually taken as compared with the ledger balance at that time?

The Hon'ble Mr. WHEELER replied:—

(a) "As already stated, Munshi Abdul Aziz Khan did not retire, and the first stock-taking, subsequent to his absence from office, was the usual annual verification in April, 1905.

(b) "Under the circumstances this question does not arise."

The Hon'ble MR. K. B. DUTT asked:—

XII.—(a) Is it a fact that a large deficit in the stock of the paper and stationery was discovered when Munshi Abdul Aziz Khan retired from service?

(b) If so, what was the amount of the deficit, and when was it last adjusted before his retirement?

(c) What action was taken by Government when the deficit was discovered at his retirement?

(d) Was any explanation submitted by Abdul Aziz?

(e) If so, when and how was it disposed of?

The Hon'ble MR. WHEELER replied:—

(a) "No such deficit was then discovered, and the subsidiary questions do not, therefore, arise."

The Hon'ble MR. K. B. DUTT asked:—

XIII.—Is the stock of paper and stationery of the Bengal Secretariat Press taken annually, and the result compared with the ledger balance?

The Hon'ble MR. WHEELER replied:—

"Stock is taken annually and is now being compared annually with the ledger balances."

The Hon'ble MR. K. B. DUTT asked:—

XIV.—(a) Is the Government aware of the existence of a fund, called the Lewis Provident Fund, in the Bengal Secretariat Press?

(b) If so, will Government please state—

(i) when was it started,

(ii) what was the capital with which it started, and the rate of interest charged, and

(iii) what is the present amount at its credit?

The Hon'ble MR. WHEELER replied:—

(a) "Government is aware that such a fund exists, but is in no way connected with it.

(b) (i) "The fund started operations in July, 1894.

(ii) "Its original capital was Rs. 730 approximately, and the rate of interest charged on advances was one pice per rupee per month.

(iii) "The present sum to the credit of the fund is Rs. 5,519-10-6."

The Hon'ble MR. K. B. DUTT asked:—

XV.—(a) Will Government please state whether the fund has any other income but the interest accrued on the money invested?

(b) Does the present capital represent the income derived solely from the interest accrued on the capital invested?

The Hon'ble MR. WHEELER replied :—

(*a*) & (*b*) "The fund is now made up entirely of the accumulations of interest paid on advances made. All the original shareholders have been paid off."

The Hon'ble MR. K. B. DUTT asked :—

XVI.—Will the Government please state what are the objects of the fund ?

The Hon'ble MR. WHEELER replied :—

"The object of the fund, as specified in its rules, is to render pecuniary assistance to the employees of the Press by loans on a lower rate of interest than would be obtainable from the ordinary money-lenders."

The Hon'ble MR. K. B. DUTT asked :—

XVII.—(*a*) Is it a fact that almost all the Press employees borrow from the fund every week, on Saturdays, and that the amount borrowed in a month is recovered in full, with interest, when they draw their monthly salary, and that some men again borrow from the fund the next day ?

(*b*) Will Government please consider the desirability of paying the men weekly, or of charging them no more interest on the amount borrowed by them from the fund ?

The Hon'ble MR. WHEELER replied :—

(*a*) "It is reported that about half the Press employees avail themselves of the fund. Loans are repaid upon the occasion of the first receipt of salary subsequent to the loan, and fresh loans are, in some cases, taken following upon such repayment.

(*b*) "Press employees are at present paid monthly and Government is not prepared to make weekly payments. The question of the interest charged on loans from the fund is the concern of the Committee which manages the fund."

The Hon'ble MR. K. B. DUTT asked :—

XVIII.—Will Government please consider the desirability of converting the fund into a Co-operative Credit Society ?

The Hon'ble MR. WHEELER replied :—

"Government will consider the question of the continuance of the fund on its present basis."

APPLICATION FOR PERMISSION TO MAKE SETTLEMENTS UNDER THE BENGAL SETTLED ESTATES ACT, 1904.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

XIX.—Will the Government be pleased to state the number of applications made to the Local Government for permission to make settlements under the Bengal Settled Estates Act, 1904, and the number granted by them ?

The Hon'ble MR. CUMMING replied :—

"There has been only one such application and it was granted."

ABOLITION OF THE BOARD OF REVENUE.

The Hon'ble MAHARAJA SIR PRODYOT KUMAR TAGORE, KT., asked :—

XX.—Now that an Executive Council has been called into existence, will the Government be pleased to state whether it is in contemplation to abolish the Board of Revenue, and if so, from what date approximately ?

The Hon'ble MR. CUMMING replied:—

XX—"The Secretary of State has sanctioned the retention of the Board of Revenue, consisting of one Member, for the present, on the distinct understanding that within a period of two years from April, 1910, the duties of the Board will be distributed between Commissioners and Members of the Executive Council, after a consideration of the proposals of the Decentralization Commission."

THE BENGAL VACCINATION (AMENDMENT) BILL, 1910.

The Hon'ble Mr. Slacke moved for leave to introduce a Bill further to amend the Bengal Vaccination Act, 1880.

He said:—

"This Bill was published in the Calcutta Gazette on the 14th September last and was circulated for the opinion of various experienced officers and influential Associations with the result that there has been an almost unanimous approval in favour of the measures contemplated by the Bill."

The Motion was put and agreed to.

The Hon'ble Mr. Slacke introduced the Bill and moved that it be read in Council.

The motion was put and agreed to, and the Secretary accordingly read the title of the Bill.

The Hon'ble Mr. Slacke moved that the Bill be referred to a Select Committee consisting of the Hon'ble Mr. Chapman, the Hon'ble Mr. Wheeler, the Hon'ble Mr. Maddox, the Hon'ble Babu Deba Prasad Sarbadhikari, the Hon'ble Dr. Abdullah-ul-Mamun Suhrawardy, the Hon'ble Babu Hrishikesh Laha, the Hon'ble Mr. Dip Narayan Singh and the Mover, with instructions to report after one month.

The motion was put and agreed to.

THE SAMBALPUR REPEALING AND AMENDING (RATES AND CESSES) BILL, 1910.

The Hon'ble Mr. Cumming moved that the Bill to repeal and amend in the district of Sambalpur certain enactments relating to abolished rates and cesses be taken into consideration by the Council at the next meeting.

He said.—

"It will be within the recollection of Hon'ble Members that in 1906 the Government of India abolished by executive order the Zamindari Dâk Cess in Bengal and similar cesses in other Provinces. The statutory power to impose such cesses was subsequently withdrawn by the Repealing and Amending (Rates and Cesses) Act of 1907. The Schedule of that Act cancelled the power to impose the Zamindari Dâk Cess in Bengal and also the additional Rates Cess and the Patwari Cess in the Central Provinces. At that time, however, the Central Provinces did not include the district of Sambalpur, and it is now proposed to correct, as regards that district, the anomaly in the Statute law which still permits the imposition of the additional Rates Cess and the Patwari, though Government has announced its intention of discontinuing the collection of the same. The Schedule which is attached to the present Bill shows the repeals for abolishing these two cesses in the Sambalpur district, and contains a consequential amendment in the Northern India Ferries Act so far as it relates to that district. It will thus be seen that the proposed legislation is purely formal, and it seems unnecessary to refer the Bill to a

Select Committee. I therefore beg to move that the Sambalpur Repealing and Amending (Rates and Cesses) Bill be taken into consideration at the next meeting of the Council."

The motion was put and agreed to.

THE CALCUTTA IMPROVEMENT BILL, 1910.

The Hon'ble Mr. Bompas moved that the Bill to provide for the improvement and expansion of Calcutta be referred to a Select Committee consisting of the Hon'ble Mr. Slacke, the Hon'ble Mr. Wheeler, the Hon'ble Mr. Maddox, the Hon'ble Mr. Payne, the Hon'ble Babu Bhupendra Nath Basu, the Hon'ble Rai Sita Nath Ray Bahadur, the Hon'ble Mr. Apcar, the Hon'ble Mr. Shorrock, the Hon'ble Babu Hrishikesh Laha and the Mover, with instructions to report after one month.

THE HON'BLE MR. APCAR said:—

"YOUR HONOUR—In examining the material for the proposals which have been made, the form in which they have been promulgated, and the intentions expressed in the Bill, the outstanding characteristic is their vagueness, as has so frankly been admitted by the Hon'ble Member who moved the introduction of the Bill.

"In England, no proposal for city improvement is entertained unless the scheme has been fully developed; the estimates, alignments, even the range of deviation, all must have been carefully settled. And sanction is not given by a Parliamentary Committee, until after close investigation in which they are assisted by criticisms by the public, especially by those whose interests are likely to be affected. All this is done before legislation; and plans and lists of the names of owners and lessees and occupiers are deposited under statutory direction, in which no change whatever can be made except on the ground of mistake, which must be proved before a judicial tribunal. And what is most impressive of all to me at the present juncture is the amount that may be borrowed for the schemes, the period within which the money can be borrowed, and within which acquisition of land can be made and the improvements must be completed, if strictly limited by law.

"Thus under a Manchester Improvement Act of 1894, power was given to borrow a sum not exceeding £189,000 for the purpose of the improvement of a street, for a new street, for lands for gas works, and for lands for a sewage farm. The acquisition of lands was limited to three years. Under their Improvement Act of 1895, the London County Council were authorized to borrow £160,000, acquisition was limited to three years, and completion of improvements to five years, after which period the powers conferred on the Council were withdrawn. In the Improvement Act of 1899, affecting the same authority, for a new street from the Strand to Holborn; widening certain streets in many parts of London; and reconstruction of two bridges; power was given to borrow £5,591,800, and the Council were prohibited from acquiring land after five years, and if the improvements authorized under the Act were not completed within seven years, the powers conferred ceased.

"Sir, it is conspicuous in proceedings ordinarily adopted in England that the idea of keeping projects secret finds no place in any question of city improvement. I am entirely in favour of plans being published. It cannot seriously be urged that secrecy can be preserved in this country, in any matter, by any means, even by an Official Secrets Act. I believe it will be futile to attempt to keep projects secret, and I think that the balance of advantages is in favour of early disclosure. It enables persons likely to be displaced to take timely steps to find accommodation for themselves, and it places owners of properties that are threatened, on an equal footing with the land-jobber, who might otherwise seek to take advantage of his own knowledge. If it is feared that there will be danger in the Board's plans being divulged, on my own part, I believe there will be consequences more to be deplored if they

become known to such persons only who will pursue devious paths to obtain information—to judge from occurrences that become known but are not spoken of—than if the projects were announced without reserve.

"The examples of English practice, which I have brought to Your Honour's notice, and to that of the Council, are not expressions of my personal views of what the procedure should be. They have been taken directly from certain statutes of the British Parliament, and these statutes, in themselves, are the common form for acts generally adopted for the purpose of city improvement. And what is the law that we are asked to pass for Calcutta? There is to be no limit of the amount that we may borrow, nor to the time within which it can be borrowed: no limit of time after which land acquisition shall cease: no knowledge of, and therefore no legislative sanction for, the schemes to be executed, no limit of time within which improvements shall be completed. Sir, are we not aspiring to heights of freedom and irresponsibility on behalf of the Trust, to which the most experienced administrators in England would not be allowed to soar? In the public interest, and on grounds of sound policy, is this wise? With their long history of municipal achievement it has been found necessary to protect the public in England with the checks I have shown to be ordinarily provided there. Should we ignore their teachings, when we here are about to embark on positively a maiden effort, to execute a work—the details of which are still a mystery, but we may nevertheless confidently say will be such as will strain the administrative capacity of the most experienced? And by what agency? A small body—to its composition I shall not refer—working with closed doors, a condition which always arouses instinctive opposition. Is it too late to attempt to conform even now so far as we can, with slight modifications of the Bill if need be, to the English practice? May I make a suggestion? Immediately after the Trust has been formed, let the Board call for schemes in open competition for very substantial prizes, two or three in number—schemes of a comprehensive character covering the whole of Calcutta, and in accordance with the declared policy of Government, the Trust's own preparations not being suspended in the meanwhile: let the Trustees select so many improvements as they consider they would be able to complete, with the means that will be at their disposal, in, say four or five years; let estimates be framed for the expenditure that will be required for the schemes selected by them: then, let the Government, after consideration of the several improvements proposed, and of the estimates, sanction loans for such amount only as they think will be required for the schemes they may sanction, being careful to allot to the several improvements the sum wanted for each separately; and let a limited time be placed on the acquisition of lands and the completion of all the improvements sanctioned. It seems to me that these limitations of periods prescribed in England are made for sound reasons, based on practical knowledge. They seem to me, now that my attention has been drawn to them, that they have effect on the finances of the local authority concerned, as well as to be in the interest of individuals whose properties are acquired and of those who are waiting to derive the benefits of arrangements made with that local authority.

"Sir, I would appoint the President of the Trust for a full period of five years, and the members of the Board should hold office for the same period, the whole Board to become *functus officio* at the end of that period of service, but of course being eligible for reappointment. But I would bind each and all down to serve the full time, allowing holidays for reasonable periods, but subject to severe penalties for desertion of their Trust. At the end of this period the Trust should start forward afresh, untrammelled by any of the operations of their predecessors in office, but with the advantage of a wealth of experience gained by them.

"Sir, may I venture to appeal to Your Honour to acquiesce in these suggestions, which have been made with all good intention, being considered by the Select Committee?

"Sir, it would be too late now to question the constitution of a Trust *ad hoc*, even if I were inclined to oppose it, but I think I may fairly submit, in

view of the general interests that are involved, that too much stress is being laid on the necessity for a small Board. I desire to press upon the attention of the Council that the work to be done is such as is carried out in the ordinary course of municipal administration in England, by bodies constituted for local Government in its most popular form. A City Improvement Committee is only one among many, and its proceedings, just as those for water supply, or gas, or cleansing of a city, are subject to the control of the parent body. The Executive, as a force apart from the members of the Corporation, are unknown. The committees of a Corporation are the Executive, each in their own sphere of duty, and direct and control their officers with authority and power. To take the Improvement Committee of the London County Council as an instance: it is a Standing Committee, appointed for the execution of improvements for which the Council may from time to time obtain the authority of Parliament, with other very important functions, and, under the express provision of the Standing Order of the Council in that behalf, it is composed of 12 to 15 members. The City Improvement Committee of Glasgow is composed of 18 members. Then, with regard to Committees concerned with ordinary administrative work, to take Liverpool as an instance, which I have selected haphazard, the Finance, Watch, Health, Work and Street adoption, and Building Plans Committees, are all composed of 20 members each, the two latter, it should be observed, being Sub-Committees: the Estates Committee consists of 18 members, the Tramways and Electric Power Committee of 30 members.

"In the Manchester Corporation, under their Standing Orders, no standing Committee shall consist of fewer than 18 or more than 24 members, except two Committees in which non-members of the Council are included, and these are composed of 21 and 33 members, respectively. It will be observed that the fetish of attenuated numbers is not worshipped in England, and, we must take it, for good reasons. I would remind the Council that the proceedings of these Committees are subject to the supervision of the whole body of Councillors who have appointed them and are openly considered. However alluring small Committees may be in theory, when responsibilities are to be conferred, the number of members is not kept low; and if we may judge by results, the Trust which is to be formed may try to emulate, but they can hardly hope to equal at least for a long time to come, the business-like and efficient administration of their affairs by the larger Municipal Corporation in the United Kingdom. It has been suggested that it is necessary to restrict the numbers to prevent disclosures of the Board's projects. I have dealt with this question already and I will here only ask, if the members of the Board cannot be trusted—not a very complimentary estimate of the Board—is it to be accepted that the staff in the Engineer's office can?

"I shall not discuss now, in Council, the composition of the Trust proposed for Calcutta, since I expect later, in Committee, to have a more appropriate opportunity. But I may at once say here, as I have already indicated, that I am in favour of an enlarged Board, not necessarily enlarged to an undue extent, and I must urge that the constitution should be on a more popular basis. I acknowledge that the Government have established a claim in this connection; and I now confidently hope that this will not preclude the consideration of other circumstances, and I seek Your Honour's co operation to secure due weight being given to them. The Corporation will have to bear their share of the burden, and they are deeply interested, because they will inherit all the responsibilities of the Board. The operations of the Trust will seriously affect the owners whose houses will be demolished, and whose properties acquired. The Indian public will be dishoused extensively, and, it may be thought by them, indiscriminately. In Calcutta the operations of the Trust will be absolutely a new departure and are anticipated in many quarters with trepidation. In England such schemes are carried through by persons elected by the people themselves, and in touch with themselves, and whose return to power is in the hands of themselves. There is no suspicion there of high-handedness attaching to actions that are taken. I refuse to analyse the constitution of the Trust which is proposed. But I do not disguise

that I regard the question as a crucial matter in the Bill, and I appeal, Sir, to Your Honour and to the Council as a matter of policy, not to leave room for the idea—whether justified or not, I will not stay to inquire—that the influence that will predominate on the Board will be unsympathetic to those whose interest will be chiefly affected, and I ask the Government to show liberality in their policy as well as of their purse. And, Sir, apart from such considerations as I have submitted, I invite the Council to examine the position of the Trust. It will be a body, the most favourably placed that my imagination can conceive. It will have arduous work of the most difficult character; but for ways and means, they will sit complacently still to receive the funds which will be poured into their laps, bountifully and with both hands, by the Government, by the Corporation, by a rich commercial industry, and by the public, both rich and poor. They will have the spending of crores of rupees, but if they become financially involved they need not be perturbed. They will not be called upon to discharge their liabilities, but will hand all over to the Corporation who must accept them and give the Trust, who have incurred the debts, an acquittance in full. This, Sir, is a fruitful theme, but I will not dwell on it further, except to express my fear, if the number is kept restricted, and the popular element is not sufficiently represented on the Board, it will not enjoy the sympathy, or the confidence, of the very large class of persons who have a permanent stake in this city."

The Hon'ble MR. SHORROCK said :—

"I have no intention of taking up the time of the Council at the present stage of the proceedings.

"The Bill as it stands before us to-day has received the approval of the general community, and it is only in matters of detail that any difference of opinion exists. At the same time there are two points to which I must call attention in deference to the interests which I have the honour to represent. They are both connected with the proposed tax on the jute trade. In the first place, I desire to point out that the jute trade have tacitly acquiesced in this taxation. I go further and say they have voluntarily offered themselves for taxation for the benefit of Calcutta improvements. But they do so conditionally. It must be distinctly understood that they do so because jute cultivation is a practical monopoly of the two Bengals. If, at any future time, this should cease to be the case, if jute itself were produced elsewhere, or if any other fibre, competing with jute, were cultivated elsewhere than in the two Bengals and in a sufficient quantity to constitute a menace to the monopoly, the trade would reserve to themselves the full right to withdraw their acquiescence in the imposition of this tax and would strongly agitate for its repeal. So long as jute is a monopoly, there is justification for this tax; should the monopoly cease the tax becomes an extortion. This is the first point I wish to clearly define.

"The second point is the proposed method of the imposition of the tax. The trade having voluntarily acquiesced in the principle, claim some voice in the manner of its collection. Fortunately there is a consensus of opinion on this question. To the jute mill industry an excise is a vexatious and worrying form of levying a contribution. To the general public it means cumbersome and unnecessarily expensive collecting machinery. I trust, Sir, the Government of Bengal will see their way to adopt the alternative suggestion, unanimously approved by public opinion, namely, the substitution of an export duty on gunnies, equal to the export duty on jute, in place of an excise tax on the consumption of raw jute at mills. Such an export duty possesses none of the disadvantages of an unpopular excise.

"It is simple and more cheaply collected. It offends no ruling fiscal principles, for that portion of the entire jute crop which would thereby escape contribution to the Calcutta Improvement Trust is a negligible quantity.

"These, Sir, are the only two points I desire to emphasise at the moment, and I trust the strongly supported suggestion to substitute an export duty on gunnies for an excise on raw jute consumed at mills may receive the favourable consideration of Government.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN said :—

"I wish to confine my observations to the following four points :—

(1) the constitution of the Board,
(2) the term of office of the Trustees,
(3) the financial control of the Corporation, and
(4) the power of appeal to the High Court.

When I see that the Bombay Board consists of 14 members—4 seats having been allotted to the Bombay Corporation—the General Committee of the Calcutta Corporation of 12 members, excluding the Chairman, and the Port Trust of Calcutta also of 12 members and the Chairman, I do not see any reason why the Calcutta Board should only consist of 7 members, and that the Corporation, which is chiefly interested in the Board (the liabilities of the Board devolving upon it on the dissolution of the Board), should be represented in the Board by only 2 members. My opinion therefore is that the Corporation should be given 4 seats on the Board, which should consist of 13 Trustees, including the President; thus, the President, the Chairman of the Corporation, 4 representatives of the Corporation, one of the Bengal Chamber of Commerce, one of the Bengal National Chamber of Commerce, one of the British Indian Association, and four Government nominees.

"With regard to the second point, the term of two years is, I think, too short for one to hold a responsible office. Our present Legislative Councils and the Municipal and District Boards have all their terms of office for three years, and I do not see why exception should be taken in this particular instance, and I therefore think that the term of two years should be raised to three years.

"With regard to point (3), having regard to the financial responsibility imposed upon the Corporation in the Bill, I think the annual budget estimate should, before they are submitted for sanction to the Local Government, be forwarded to the Chairman of the Corporation for consideration. I would not press this point, however, if my first proposal is accepted.

"As regards point (4), there is one more objectionable feature of the Bill, and that is that the provisions as to appeals in section 54 of the Land Acquisition Act have been declared inapplicable in the case of acquisitions under the Calcutta Improvement Bill. The right of appeal is greatly valued and appreciated by the people, and the taking away of the privilege is calculated to create a belief in them that their just claims will not be disposed of in accordance with justice, equity and common fairness." 1 of 1894.

The Hon'ble RAI SITA NATH RAY BAHADUR said :—

"May it please Your Honour,—While we welcome the Improvement Bill which is the result and the fruit of the arduous labours and deliberations of numerous Committees and Commissions which have sat from time to time extending over a decade, and which have all in one voice recommended the laying out of new roads and streets, and the opening up of congested and ill-ventilated areas; while we all welcome the measure which will go to improve sanitation and provide more light and air in congested and cooped up areas; while we rejoice at the prospect of the probable dislodgement of that dreaded Plague which thrives in dirt and filth and which has been for some years committing sad havoc in the congested areas of this town, and which at one time threatened to paralyse its trade and commerce, we can hardly at the same time divest ourselves of the apprehension—we can hardly shake off the misgivings which now and then creep in—that the fruit of so much

deliberation and labour and of so much time and expense may not be like the fruit of that forbidden tree, taste of which brought woe into the world. It is all very well to say that the Bill before us will tend to improve the health of Calcutta, make it a paradise on earth and the queen of the East by laying out broad roads and streets, by abating overcrowding and congestion, and by providing well-laid out squares and open spaces and sanitary sites and buildings for the population to be displaced by the operation of the Trust, but however well designed the scheme may be, however laudable the object, however well-intentioned the authorities may be, one is at the outset staggered at the immensity of the task, at the stupendous nature of the work and at the colossal amount of money involved in carrying out the proposed improvement scheme. India's wealth is paltry and limited: it appals our Indian imagination to find that eight crores and twenty-two lakhs of rupees have been budgetted for the proposed improvement of Calcutta, the ultimate burden of which will have to be borne by its poor citizens. The amount may seem very small to the members of a nation the richest in the world, which dreams in millions and millions of pounds, but it is not so to us, poor Indians, who only dream in copper, pice and shells. By all means improve Calcutta, but I would earnestly pray to Your Honour to impress upon the proposed Board not to indulge in reckless and gigantic schemes disproportioned to the means of the people who will have to bear the ultimate burden; let them not in the zeal for improvement in an off-hand way interfere with commercial quarters in such a way as would go to dislocate and divert the several thriving trades of those areas. I hope these words of caution from one interested in Indian trade and commerce will not be altogether ignored. At this stage, however, it would not be advisable to go into the details of the Bill.

"With these preliminary remarks, I beg to give my humble support to the Bill, reserving my right to criticise its objectionable clauses."

The Hon'ble MR. BOMPAS said:—

"Sir, I fear that I scarcely understood the arrangements which the Hon'ble Mr. Apcar would suggest to this Council as a substitute for the scheme embodied in the Bill which is now before it. He referred to the system under which improvement schemes are carried out in England, and he instanced the Bills that are promoted in Parliament by bodies like the London County Council for authorization to carry out a particular work of improvement, such as the construction of a new thoroughfare, and he said that these schemes came before Parliament complete to the last detail, and that Parliament considered them, and thus there was public control over every detail. But he spoke as though these schemes complete in every detail had descended from the skies. The submission of a scheme for the sanction of Parliament is the final stage of a series of operations, and the *ad hoc* Trust, to the creation of which the Hon'ble Member has no objection, is framed in the first place to examine and prepare these schemes and then submit them for necessary sanction, and it seems to me that the checks provided in the Bill for examination of schemes are very complete. The Corporation of Calcutta is consulted, and has a right to be heard. Every single person whose land may be acquired for a scheme receives notice and has an opportunity to object. These objections are considered by the Trust, which is representative, and are then forwarded to Government, which, again, considers them. That seems to be a very complete provision for the examination of the schemes and for the consideration of objections.

"I would further point out to the Hon'ble Member that he is scarcely fair in seeking for analogies to this Bill in private Bills introduced by Corporations for the construction and carrying out of single works. The anology is much more close with what is known as the Town Planning Act [1], the final form of the Housing of the Working Classes Acts, which have been in force for many years in England. As this Act now stands, no

[1] The Housing, Town-Planning, &c., Act, 1909 (9 Edw. VII, cap. 44).

improvement scheme comes before Parliament. They are all dealt with by the Local Government Board, and the similarity between the provisions of our Bill and the law as it stands in England is very close indeed. As to the working of the Trust when it has actually started, it is obviously impossible for me or anyone else to say anything. We hope that a properly constituted Trust, representative of various interests and subject to public criticism and under the control of Government, may be trusted not to go very far wrong nor to do anything very rash. The Hon'ble Member objected that the number of the Trustees proposed in the Bill was too small. That is more or less a matter of detail. The number 6 was fixed on by the representative Committee which sat in 1904 and which practically cast into shape the present Bill. It was approved, I think, unanimously by that Committee, which was not entirely an official Committee; it was approved by the Government of India and the Secretary of State, and the Chamber of Commerce has reported in favour of such a small Committee, but it is also true that representations have been received on the other side from the bodies and Associations which have been consulted; and it being essentially a matter of detail on which there is something to be said on both sides, it is also essentially a matter which should be left for the consideration of a Select Committee.

"The Hon'ble Mr. Shorrock raised two points in connection with the proposed tax on jute. He first of all declared that if jute ceased to be a monopoly in Bengal, it would cease to be a proper subject for an export tax. This, I think, may be admitted, but it must also be admitted that it is not a subject at present for practical consideration. As far as we can see, jute will remain for some time the monopoly of Bengal. It would be rash to assert that the scheme of taxation which we are introducing and which is proposed to run for 60 years will necessarily remain unchanged for that long period. It is obvious that there may be alterations in the commerce or other conditions of Calcutta, and it will be for our successors to modify the financial resources of the Trust in accordance with the circumstances of the time. The Hon'ble Mr. Shorrock would also prefer that, instead of having an excise levied on raw jute brought into consumption in the mills, an export duty should be levied on manufactured jute leaving Calcutta by river and exported to any port in or out of India. That is a matter which would require examination. The object of the Bill is to secure a certain income from jute, and, as far as Government is concerned, it is desirous of securing that income with a minimum of disturbance to the industry. If on examination it should turn out that the balance of advantage is in favour of an export duty on manufactured jute rather than on levying the tax entirely on the raw material, it may be possible to assent to such an arrangement. But it is obvious that many details would have to be investigated and that other interests than those of the mill managers will be affected. No scheme can be adopted as a substitute for that which has been sanctioned by the Secretary of State without his consent, and this is therefore a matter which may be left for consideration by the Select Committee.

I do not think that the Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan raised any points that can be properly described as matters of principle, and it is not to be expected that I should discuss now any matters of detail. They will come up for consideration when the report of the Select Committee has been received.

"The Hon'ble Rai Sita Nath Ray Bahadur professes some apprehension as to the manner in which the Trust would carry out the admittedly large and important task which will be entrusted to it. The task is one which has already been performed in almost every great city of the civilised world. Great towns were built in days when the idea of sanitation was almost non-existent, and when the requirements of traffic were entirely different from what they are now. The consequence is that every large town in Europe has had to be practically pulled down and rebuilt, and it is inevitable that something of the same kind should be done in Calcutta, and that it will be done with all possible consideration to vested interests, may, I think, be considered certain when we look on

the popular elements which will be represented on the Trust. The only other point he referred to was connected with the Land Acquisition Act. [1 of 1894.] The land acquisition proposals as embodied in the Bill reproduce provisions which have been working in Bombay for the last 12 years, and have been working with satisfaction. An expert tribunal is constituted, and the reported judgments of the Bombay High Court show with what respect the opinion of such a Tribunal will be received by the Courts and how very reluctant a non-expert tribunal would be to interfere with the decision of a body such as this Bill proposes. It is no doubt true that the provisions of the Bill under which the ordinary 15 *per cent.* additional compensation is not given for land acquired for reconstruction schemes and improvement schemes will excite criticism, but I would point out that this provision of law has been in force in England since 1875, and England is a country where the rights of landlords have always been treated with special respect. Since 1875, since the time when Birmingham undertook its great improvement scheme, in all the Acts providing for works of the character for which this Bill provides, the *solatium*, as it is called in English law, is denied. On the Continent of Europe, also, such a *solatium* is not universally paid. Berlin is, perhaps, the town on the Continent of Europe which is most free from slums. That town has been largely rebuilt and extensive land acquisition proceedings had to be taken, but in Berlin and indeed throughout Prussia no additional compensation is paid to the landowner.

"The Bombay Trust has now been working for 12 years and has accomplished very remarkable results, and there also this provision, which has been adopted from their Bill, has been in force. If the additional 15 *per cent.* were paid as it is paid under the ordinary law, it would mean that works of improvement, works for the benefit of the town of Calcutta, to the initial cost of one crore of rupees, would have to be left undone. And what would become of the money? It would be poured into the pockets of the landlords and property-owners—a crore of rupees of which they would not receive one pice if they were landlords in London, if they were landlords in Berlin or if they were landlords in Bombay. Placed in that way, I think the justification for the Bill is obvious. No other point of principle, I think, has been touched on this morning. I have now to move that the Bill be referred to the Select Committee."

The Motion was then put and agreed to.

The Council was then adjourned to a date to be notified hereafter.

APPOINTMENT OF A PROVINCIAL MALARIA COMMITTEE.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 19th December 1910.

RESOLUTION No. 2048San.

READ—

1. The proceedings of the Simla Malaria Conference dated October 1909.
2. Bengal Municipal Department letter to the address of the Government of India in the Home Department No. 268T.—Medl., dated the 12th May 1910.
3. Letter from the Government of India in the Home Department No. 1368, dated the 27th July 1910.

With a view to the systematic examination of problems connected with the prevalence of malaria, the Government of India have appointed a Central Scientific Committee, in consultation with whom the Provincial organisations should in future work, and the recommendation on this point of the Conference which assembled at Simla in October 1909 to consider the whole subject of the prevention of malaria is quoted below:—

"The Conference having learnt that the Government of India will appoint a Central Scientific Committee to direct and co-ordinate investigations, and that they will also appoint at the request of Local Governments, or on the recommendation of the Central Committee, officers to carry out investigations, recommends that a local organisation to work in consultation with this Central Committee be constituted in each province. The nature of such organisation should be settled by the Local Government and may take the form of the Sanitary Board.

"A conference consisting of the members of the Central Committee and a delegate from each local organisation should be held annually at such place as may be convenient for the purpose of reviewing the work done and preparing a programme of future work."

2. With the approval of the Government of India, and with the consent of the gentlemen named below, the Lieutenant-Governor in Council has decided to appoint a Provincial Malaria Committee in Bengal, which shall comprise the *following* members :—

1.	The Member of the Executive Council of the Government of Bengal in the Municipal (Medical) Department ...	*President.*
.2	The Secretary to the Local Government in the Public Works Department (Roads and Buildings Branch) ...	*Members.*
3.	The Secretary to the Local Government in the Public Works Department (Irrigation Branch)	*Members.*
4.	Major L. Rogers, I.M.S., M.D. (Lond.), F.R.C.P. (Lond.), F.R.C.S. (Eng.), Professor of Pathology, Medical College, Calcutta	*Members.*
5.	Assistant Surgeon Upendra Nath Brahmachari, M.A., M.D., Ph.D. (Calcutta), Teacher of Medicine, Campbell Medical School, Calcutta	*Members.*
6.	Dr. Nil Ratan Sircar, M.A., M.D. (Calcutta)	*Members.*
7.	The Sanitary Commissioner, Bengal	*Member and Secretary.*

Questions relating to the prevention of malaria frequently present problems which have both a medical and an engineering aspect, and expert knowledge in either branch will be represented upon the Committee thus constituted.

3. The superior staff which will be placed, for the time being, at the disposal of the Committee will comprise one Deputy Sanitary Commissioner and one Assistant Surgeon. These officers will work under the direction of the Committee, whose duty it will be, subject to the control of the Local Government, to supervise the direction and method of the enquiries to be undertaken, to scrutinise the results ascertained from time to time, and to assist with their advice all action taken to cope with the problem of malaria in Bengal. In other administrative matters connected with the subject, such as the distribution of quinine, the Committee will be consulted by the Local Government as occasion may arise, while the Sanitary Board will be directed to seek their assistance in the consideration of the bearing upon the question of malaria prevention of any drainage projects which may be brought before them. A delegate from the Provincial Committee will attend annually at the Central Conference which the Government of India will convene.

4. By the agency of the Committee, the Lieutenant-Governor in Council trusts that the enquiries connected with this most important question will be conducted upon more systematic lines than has hitherto been the case, and in co-ordination with the action to be taken in other parts of India, while as the result of their labours it is hoped that knowledge may in time be accumulated which will permit of the adoption of remedial measures calculated to effect a substantial diminution in the mortality and suffering at present caused by malaria in this Province.

ORDERED—That a copy of the above Resolution be published in the *Calcutta Gazette* for general information, and that copies be communicated to the Members of the Malaria Committee and to the Inspector-General of Civil Hospitals, for information and guidance. Also that copies be forwarded to all Commissioners of Divisions for information and communication to all District Officers subordinate to them.

By order of the Lieutenant-Governor in Council,

H. WHEELER,

Secretary to the Government of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1909-10.

No. 3025 Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 17th December 1910.

RESOLUTION.

Administration Report of the Commissioners for the Port of Calcutta for 1909-10.

READ—

The Administration Report of the Commissioners for the Port of Calcutta for the year 1909-10.

Revenue Receipts and Expenditure.—The income of the Trust during the year 1909-10 amounted to Rs. 1,18,36,518, as against Rs. 1,20,16,630 in 1908-09 and Rs. 99,73,758, the average of the previous three years. The revenue of the year 1908-09 was increased owing to large imports of rice, caused by the prevalence of famine conditions.

The expenditure amounted to Rs. 1,19,97,364, as against Rs. 1,19,78,134 in the preceding year. But for three items of a special nature, viz., removal of the wrecks (1) of the S. S. *Onipenta* and (2) of the S. S. *Aral*, and the reconstruction of the Jetty at the 60-foot Dock entrance, which it was decided to debit to the year's revenue, it would have amounted to Rs. 1,18,26,444 only, leaving a surplus of Rs. 10,074 at the close of the year.

2. *Capital outlay.*—The expenditure on capital works during 1909-10 was Rs. 1,24,28,320.

The following are the most important works in progress or completed during the year :—

Reclamation of land at Ramkristopur and Shalimar.
Improved lighting of the jetty.
Coal depôt for the Bengal Nagpur Railway at Shalimar.
New landing-stage at Outram Ghât for ocean-going steamers.
Provision for four new ferry steamers.
Extension of siding accommodation at Dock No. 2.
Extension of Dock No. 2.
Acquisition of land for the new Dock scheme.
Provision of buildings for the Army Remount Depôt at Mominpur.
New graving Dock and slipway.
Remodelling and extension of the Budge-Budge Petroleum Depôt.

3. *Capital Account.*—The capital debt of the Trust on the 31st March 1910 was Rs. 8,34,90,302. Against this, the Commissioners hold properties valued at Rs. 10,35,17,338, which, however, does not fully represent their actual value. A large area of land has been valued at cost price only, though it has considerably increased in value, since its acquisition.

4. ***Sinking, Depreciation and Fire Insurance Funds.***—The net balance to the credit of these funds at the close of the year was Rs. 89,80,863, Rs. 6,02,956 and Rs. 7,49,559, respectively.

5. The following table gives the details of the receipts and charges of the Revenue Account for the year 1909-10 as compared with similar figures for the previous year :—

(*a*) *Jetties.*—The tonnage of imports dealt with at the Import Jetties which fell from 789,535 in 1907-08 to 718,952 tons in 1908-09. increased to 838,566 tons during 1909-10. The total earnings at the Import Jetties showed an increase of Rs. 16,479 over that of the previous year. There was a reduction of Rs. 55,490 in the expenditure during the year owing mainly to the lower price of coal.

Traffic at the Jetties.—297 vessels with an aggregate tonnage of 1,019,609 tons were accommodated at the Jetties, as against 272 vessels with 921,812 in the year before; only one of these landed or embarked passengers, as against nine in 1908-09.

(*b*) *Sale Tea Warehouse.*—The decrease of Rs. 14,240 in the receipts under this head was due to the more rapid shipment of teas.

(*c*) *Petroleum Wharf.*—There was an increase of 2,372,701 gallons in the total imports of petroleum. The oil was more largely imported in tins and cases, which increased the labour charges. The receipts were larger than those of 1908-09 by Rs. 51,953, and were Rs. 1,60,930 above the average of the previous three years.

(*d*) *Rentable Lands and Buildings.*—The revenue from lands and buildings shows a steady increase. The earnings during the year showed an advance of Rs. 2,22,163 over those of 1908-09, and Rs. 5,90,228 over the average earnings of the previous three years.

The increase in the income from lands was due to the extensive acquisition of land in the vicinity of the Docks, whilst the increase in rents from warehouses and buildings was derived from the Kantapukur Depôt.

(*e*) *Port*.—The receipts under this heading fell from Rs. 5,66,614 in 1908-09 to Rs. 5,12,171 in 1909-10, owing to the falling off in the receipts from mooring hire, due to a smaller number of vessels having visited the Port.

The decrease in expenditure is due to the lower cost of coal and maintenance charges for the Commissioners' vessels, also to less expenditure on repairs and renewals of buoys and moorings.

(*f*) *Port Approaches*.—The receipts from port-dues, which is the main source of revenue under this head, show a small increase. Although the number of vessels visiting the Port was less, fewer of them entered in ballast. The expenditure decreased owing to the price for coal being lower.

The following figures illustrate the work of the Survey Branch of the Port and Port Approaches Department :—

	1885.	1900-01.	1908-09.	1909-10.
Miles sounded	1,295	5,864	8,628	8,436

Number of buoys (Calcutta to Diamond Harbour).	7	30	50	50
River marks	57	115	258	248

The dredging operations of the *Sandpiper* effected a considerable improvement in the river channels. The depth in the Eastern Gut was 3 to 5 feet more than the normal. For the first time since 1883 no obstruction occurred in the Moyapur Bar.

(*g*) *Railway*.—The decrease in the earnings of the Port Trust Railway was due to a reduction in the terminal charges. The expenditure slightly increased owing to revised arrangements with the Eastern Bengal State Railway for the working of the Jetties—Cossipore section of the Port Trust Railway.

(*h*) *Wet Docks*.—There was a considerable decline over that of the previous year in the tonnage of rice imported and of coal exported. The receipts and expenditure were less than those of 1908-09, but the net revenue was larger.

(*i*) *Dry Docks*.—Owing to a smaller number of vessels having made use of the Docks, the receipts and expenditure were less than those of 1908-09.

(*j*) *Ferry Service*.—The extension of the ferry service proves a great convenience to the public. The receipts during 1909-10 amounted to Rs. 1,43,128, as against Rs. 1,27,816 in 1908-09 and Rs. 46,075 in 1907-08.

(*k*) *River dues*.—The decrease in the receipts from river-dues was due to the smaller number of vessels which entered the Port.

6. The thanks of the Lieutenant-Governor are due to the Commissioners for their able management of the affairs of the Trust, and His Honour most cordially acknowledges the excellent work done by Sir F. Dumayne, the Vice-Chairman.

By order of the Lieutenant-Governor in Council,

T. BUTLER,

Secretary to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1910-11.

[On an average of the five years ending 1908-09 the area under wheat in the territory to which this forecast relates represents about 4·6 per cent. of the total area under wheat in India.

The ratio of the irrigated wheat acreage to total wheat acreage, (*a*) in British India and (*b*) in the territory now reported on has, in the five years ending 1908-09, averaged (*a*) 39 per cent. and (*b*) 8 per cent., respectively.]

Explanatory.—Three forecasts of the wheat crop are published. The first forecast deals only with the area sown and the general character of the crop.

Area sown.—The crop is cultivated chiefly in Bihar and also in Nadia, Murshidabad, Hazaribagh and Palamau. The area sown to date this year is reported to be 1,258,700 acres. Last year's area under the crop was 1,427,900 acres. Sowings are reported to be still incomplete in Jessore and Shahabad. The decrease is chiefly in Gaya and Monghyr. Further inquiries are being made into the cause.

Character of the season and condition of the crop.—Good rain fell in September and October and there was sufficient moisture for the sowings which commenced in the usual time. In November there was no rain except in parts of Chota Nagpur and in Bihar, where it was in excess of the normal. The season has been favourable so far. The present condition of the crop is reported to be good.

DEPARTMENT OF AGRICULTURE, BENGAL.

THIRD REPORT ON THE COTTON CROPS OF BENGAL, DECEMBER 1910.

(On an average of the five years ending 1908-09 the area under the cotton crop in the territory to which this forecast relates represents about 0·8 per cent. of the total area under cotton in India.)

Explanatory.—The present forecast deals with the estimates of the area sown with cotton crop (both early and late) and also gives an estimate of their probable outturn.

Character of the season.—The early variety is chiefly cultivated in the Sonthal Parganas, Manbhum, Singhbhum, Angul, Ranchi and Sambalpur, and the late variety is important in North Bihar and Singhbhum. The weather and rainfall have been favourable for both the early and the late variety and the crops are reported to be fairly good in most districts. Some damage, however, was done by floods in Patna, Champaran, Angul and Puri.

Area sown.—The area sown with the early variety is now estimated at 32,498 acres as against 33,379 acres estimated last year. The area sown up to now with late cotton amounts to 30,490 acres. Last year's area under the crop was 33,286 acres. Sowings of the late crop have not yet begun in Cuttack.

Outturn.—The estimated outturn of early cotton amounted to 7,598 bales against 6,992 bales of last year. The increase in outturn is due to favourable weather. The outturn of late cotton has been returned at 8,427 bales against 9,558 bales, which was the estimate for last year. Adding to these estimates 5 per cent. for the crop grown in Native States for which no statistics are recorded, the total early and late crop of this year works out to 7,978 bales and 8,848 bales, respectively.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE INDIGO CROP OF BENGAL, 1910.

(On an average of the five years ending 1908-09 the area under indigo in the territory to which this forecast relates represents about 39·2 per cent. of the total area under indigo in British India.)

Explanatory—With the exception of a few acres in Nadia indigo is cultivated only in Bihar districts, chiefly in North Bihar and Purnea.

Character of the season.—Sowings began at the normal time, and in the early part of the season weather conditions were generally favourable. But the defective rainfall between March to May retarded the growth of the crop. In July and August excessive rain and floods caused considerable damage to the crop in the important districts of North Bihar and in Purnea. Injury was caused by insects in Saran and Muzaffarpur.

Area sown.—The area sown this year is reported to be 114,900 acres against 107,400 acres last year. The increase, which is greatest in North Bihar, is due to favourable weather in the sowing season.

Outturn.—In the important districts the percentage outturn of the crop has been reported as follows:—

Champaran	...	...	73 per cent.
Muzaffarpur	...	...	62 ,,
Darbhanga	...	...	57 ,,
Purnea	...	...	50 ,,
Saran	...	...	65 ,,
Monghyr	...	...	76 ,,

The outturn of the crop in North Bihar and Monghyr works out to 67 per cent. and in other minor districts in Bihar and Bengal to 55 per cent. The estimate for the whole province is 66 per cent. of a normal crop. The

District Officers estimate the total yield for the province at 20,311 factory maunds against 17,007 factory maunds last year.

Messrs. Moran and Company's estimate of the crop for the year under report is 20,000 factory maunds.

Offg. Director of Agriculture, Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR NOVEMBER 1910.

I. *Character of the Season.*— There was practically no rain in South-West Bengal and Orissa. In Bihar and in Hazaribagh, Ranchi and Palamau the rainfall was general, and it was in excess of the normal except in Ranchi. The statement showing rainfall in the different districts is appended.

II. *Progress of Agricultural Operations.*—Sowings of *rabi* crops continued and the harvesting of winter rice commenced and was in progress during the month.

III. *State of Standing Crops.*—The standing sugarcane crop, wheat, oilseeds and other *rabi* crops are doing well.

IV. *Prospects and the Probable Outturn of Harvests.*—The outturn of the *bhadoi* crops for the Province as a whole is estimated at 90 per cent. of the normal. In Burdwan, Birbhum, Khulna, Bhagalpur, Purnea and the Sonthal Parganas a good crop has been harvested and the outturn was fair in the rest of the Province, except in Darbhanga, Murshidabad and Monghyr, where the crops were considerably damaged by floods. Prospects of the winter rice, the most important crop in the Province, are excellent; and the outturn is estimated at 112 per cent of the normal. Prospects of wheat, oilseeds and other *rabi* crops are good.

V. *Damage to Crops.*—Insects did some injury to paddy in Sambalpur.

VI. *Condition of Agricultural Stock.*—The condition of cattle was satisfactory. Cases of cattle-disease were reported from Midnapore, Patna, Gaya, Muzaffarpur, Darbhanga, Monghyr, Purnea, Angul, Puri, Sambalpur, and from all the districts of the Chota Nagpur Division, except Singhbhum.

VII. *Failure of Pasturage and Fodder.*—Fodder and water-supply was sufficient throughout the Province.

VIII. *Prices of Food-grains.*—Prices of food-grains show a downward tendency. On the 30th November prices of wheat ranged from 8 seers a rupee in Jessore and Darjeeling to 15 seers in Monghyr, and that of common rice at $9\frac{1}{4}$ seers in Calcutta to $25\frac{3}{16}$ seers in Angul, and that of Indian-corn, which is one of the staple food-crops in Bihar, varied from 20 seers in Champaran to 35 seers in the Sonthal Parganas. Prices are easier than in the preceding four years.

IX. *Condition of Agricultural People.*—The condition of agriculturists is good.

REPORT ON THE ADMINISTRATION OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1909-10.

NOTIFICATION.

No. 5085P.—The 20th December 1910.—The following extracts from the Annual Administration Report of the Zoological Garden, Calcutta, for the year 1909-10, and Government letter No. 5086P., dated the 20th December 1910, acknowledging the receipt of the report, are published for general information.

C. J. STEVENSON-MOORE,

Chief Secretary to the Government of Bengal.

THE Honorary Committee have the honour to submit their report for the year ending 31st March 1910.

* * * * *

*

2. STAFF AND ESTABLISHMENT.

Mr. Bijay Krishna Basu continued in charge of the Garden as Superintendent throughout the year and Babu Somadev Ganguli as Assistant Superintendent.

* * * * *

4. FINANCE.

It will appear from the following comparative statement that the financial condition of the Garden was exceptionally good. The receipts from visitors amounted to Rs. 36,088-4, in spite of the free days and the rearrangement of Sunday fees. The authorities of the Garden, at the instance of the Corporation of Calcutta, granted a free day once a month to enable the poorer people to visit the Garden. The admission fee on Sundays was also reduced from four annas to one anna from 10 A.M. to 2 P.M. to enable the labourers and pilgrims from Kalighat to visit the Garden.

The following is a comparative statement of receipts from visitors :—

Year.		Receipts. Rs.	A.
1907-08	... ...	37,731	15
1908-09	... ...	35,929	12
1909-10	... ...	36,088	4

The accounts of income and expenditure are summarised in Appendix A.

5. THE PUBLIC.

The increasing popularity of the Garden appears from the numbers indicated by the turnstile, which show that 534,635 persons, including free day visitors, visited the Garden during the year. The greatest number of visitors on a single day was 13,336 against 8,834, the greatest number recorded on any single day last year.

Comparative table of visitors during the last three years.

Year.		Visitors.
1907-08	...	... 504,297
1908-09	...	... 471,305
1909-10	...	... 499,628

In addition, a large number of children under four years of age and school children, attended by their teachers, were admitted free. On the day of the Fancy Fair about 12,000 people entered the Garden. Besides these, 25,167 persons visited the Garden on the free days. A list of free days showing the number of visitors is shown in Appendix C.

6. GARDEN.

The Gardens, from a horticultural and floricultural point of view, have been a great success. The show of annuals throughout the cold weather, and well into April, has been particularly good, the artistic arrangement of the massed flowers near the entrance being specially appreciated by the public.

The show of Dahlias and Chrysanthemums has improved very much.

* * * * *

CONCLUSION.

The thanks of the Committee are due to the ladies and gentlemen who have added to the collection of the Garden by their donations, a list of which is given in Appendix D. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted, either because the particular species of animal was already sufficiently well represented, or owing to the want of accommodation.

The Committee also desires to express its sincere thanks to the Officers Commanding the 10th Jats and the 27th Punjabis for allowing their band to play free on Sunday evenings.

E. HAROLD BROWN,
Honorary Secretary.

E. V. LEVINGE,
President.

SUPERINTENDENT'S REPORT.

I HAVE the honour to submit the following report on the existing condition and the progress of the menagerie of the Garden.

The following comparative table shows how the various collections of animals in the Garden stood during the last four years:—

Year.		Mammals.	Birds.	Reptiles.
1906-07	...	413	741	307
1907-08	...	401	795	310
1908-09	...	417	803	312
1909-10	...	589	1,137	247

The most important addition to the collection during the year was a couple of male one-horned Indian Rhinoceroses. They were purchased at Rs. 15,000 from Nepal and brought down to the Garden in December 1910. The larger of the two was mated with the female we had in our collection, and it is hoped that before long we shall have a good number of representatives of this important species, specimens of which are very rarely seen in captivity.

The following additions of species new to the collection deserve special notice:—

1 Pair White Llamas (purchased).
1 Pair White Wallabies (ditto).
1 Great Black Cockatoo (ditto).
1 Wallaroo (ditto).
1 Glaucose Macaw (ditto).
1 Blessbock (ditto).

The following is a list of the more noticeable additions made to the menagerie during the year:—

4 Pairs Clucking Teals.
2 Pairs Australian Mountain Ducks.
2 Pairs African Nun-Geese.
1 Ant-eater.
2 Slender Lorises.
1 Pink-headed Duck.
1 Red and Yellow Macaw.
2 Clouded Leopards.
10 Wolf Cubs.
1 Great Kangaroo.
1 White-coloured Mangabey.
2 Mandrills.
2 Lesser White-nosed Monkeys.
1 Pair Flamingoes.
3 Mona Monkeys.
1 Pair Sooty Mangabeys.
1 Orang-utan.
14 Tragopan Pheasants.
1 Tibetan Lynx.
1 Black Leopard.

A list of donors and their donations during the year is given in Appendix D.

BIRTHS.

The following is a list of the most important instances of birth in captivity during the year 1909-10:—

Mammals:—8 Lions, 1 Burmese Pig-tailed Monkey, 3 Bantings, 2 Formosan Deer, 2 Hanumans, 2 Great Kangaroos, 1 Wallaby, 2 Nilgais, 2 Swamp Deer, 4 Spotted Deer, 1 Barking Deer, 6 Sambur Deer, 4 Rhesus Monkeys, 2 Indian Antelopes, 3 Leopards, 2 Macaque Monkeys, 2 Grivet Monkeys, 4 Hog Deer, 1 Cashmere Goat, 3 English Hares, many White Rats, many Guinea Pigs, many Rabbits.

* * * * *

COLLECTION OF ANIMALS.

The collection of animals showed for the year a marked increase over the number on hand at the end of 1908-09. Attempts were made to increase the important species of the Indian Fauna, and we have been successful in acquiring a couple of male Indian Rhinoceroses (*Rhinoceros unicornis*) which are becoming rare, their range being reduced to a very small area.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF NOVEMBER 1910.

During the month of November rain fell throughout Bihar and in parts of Chota Nagpur. The fall was above the average except in Darjeeling and Ranchi. There was practically no rain in South-West Bengal and Orissa. On an average South-West Bengal received 0·01 inch, Bihar 0·75 inch, Orissa 0·01 inch, and Chota Nagpur 0·24 inch of rain. The excess was greatest in Bihar, where the departure from the normal was +0·57 inch. Expressed in percentage figure, the total rainfall from January to November 1910 was 97 per cent. in South-West Bengal, 97 per cent. in Bihar, 109 per cent. in Orissa and 77 per cent. in Chota Nagpur.

The following table compares the rainfall in the four Divisions during the month of November with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past eleven months of the year 1910:—

NOTIFICATION.

STATE SCHOLARSHIPS TENABLE IN ENGLAND BY EUROPEANS AND EURASIANS EDUCATED IN INDIA.

No. 20153.—The 6th December 1910.—In the year 1907 His Majesty's Secretary of State for India sanctioned the institution of one sholarship of £200 per annum tenable at a European University to be awarded in each year to a member of the domiciled European and Eurasian community in India on the understanding that candidates belonging to this community should no longer be regarded as eligible for the two University State Scholarships at present granted to natives of India. *For the scholarship to be awarded in the year 1911 applications are now invited.*

2. The scholarship will entitle the holder to an allowance not exceeding £200 per annum payable from the date of his arrival in England and will be tenable for three or four years, as circumstances may require, at any University in the United Kingdom or, with the special sanction of the Government of India, at a foreign University. The candidate to whom the scholarship is awarded, will be required to proceed to England within a reasonable period from the date of his selection, and to reside there for a period of three or four years, as the case may be, unless compelled to return sooner by ill-health. He will be provided with a free second class passage to England, and also with a free return passage if he completes the full period of residence or is compelled by sickness to return within that period.

3. The two main principles which govern the grant of the scholarship are:—

(i) that as the object in view is to assist a domiciled European or Eurasian to go through a University course in England the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University at practically the same age as boys educated in England: the Government of India place the age limits at 18 to 21, *i.e.*, the candidate must have completed 18 years of age and not have completed 21 years, on 31st March of the year in which the scholarship is awarded; and

(ii) the scholarship will be given to the candidate who is most likely to win distinction at the University.

4. The following rules are to be observed in regard to the form in which applications are to be submitted:—

(1) The application should ordinarily be in the handwriting of the applicant. In the exceptional case of his being out of India, the parent or guardian may submit an application:

(2) The application should give full details as to the applicant's age, family circumstances, the schools or colleges which he has attended, his studies, the distinctions he has gained, and the course of study he wishes to follow. Information should also be given as to—

(a) the University at which the candidate proposes to study and the reasons for selecting the particular University;

(b) the special aptitude, if any, which the candidate has shewn for the kind of study which he proposes to pursue;

(3) The application should be accompanied by a birth certificate, a certificate from a commissioned officer of the Indian Medical Service testifying to the general health of the candidate and certifying that his physique is such that there is good prospect of the University course not being seriously interrupted by ill-health, and testimonials as to character and capacity. If original testimonials are not sent in, certified copies must be submitted. The testimonials should include—

(a) A certificate from the Principal of the institution last attended, stating that the applicant is of good moral character and of active habits, and, in the event of his having left school or college more than six months before the date of application, a certificate by a person of recognised position well acquainted with him, stating how he has been employed since he left school and certifying to his moral integrity.

(b) A certificate from some person of recognised position well acquainted with the candidate and his family, to the effect that he is a native of India within the meaning of Statute 33 Vict. Cap. 3, section 6, and that his parents are not resident in India for temporary purposes only.

5. The Director of Public Instruction will personally interview those applicants whose names he thinks worthy of submission to Government. If a personal interview is impossible (*e.g.*, owing to a candidate being absent from India), the fullest possible information should be given as to the physique and character of the candidate.

6. All applications for the scholarship to be awarded during the year 1911 should be submitted in the first instance to the Inspector of European Schools, Bengal, in time to reach the Director of Public Instruction on or before the 1[illegible]th January 1911.

7. No application will be considered unless the applicant declares that the conditions of the scholarship as laid down in paragraphs 2 and 8 of this notification are known to him and that he is prepared to abide by them.

8. The scholar will, on arrival in England, be required to bind himself by a written engagement to submit to the following rules, and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for the guidance of scholars in England:—

(a) Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.

(b) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.

(c) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary of State a certificate from the proper University or College authority showing that his residence, conduct and progress in study have been satisfactory during the term.

(d) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

(e) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, or four years, if so determined will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England.

(f) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required terms of residence at a University or who is guilty of misconduct, persistent idleness, or disregard of the orders of the Secretary of State. If the scholarship be forfeited, the scholar will lose his claim to a free return passage to India and will further become liable to refund the cost of his free passage to England.

(g) The scholar will be under the supervision and charge of the Political A.-D.-C. to the Secretary of State, through whom the necessary orders will be given, and to whom all reports and other communications respecting him should be sent.

E. L. PRESTON,
Offg. Asst. Director of Public Instruction.

NOTIFICATION.

CANDIDATES are invited to apply for two State scholarships of the annual value of £150 each, tenable for two years in the United Kingdom or Continental Europe, for the special study of Sanskrit, the courses of which will be decided by the Secretary of State for India.

2. These scholarships are open to well qualified students with a genuine taste for oriental studies and to gentlemen already employed as Professors of Sanskrit in India.

3. Selected candidates will be provided with a free second class passage to Europe and also with a return passage if they complete the full period of residence or are compelled by sickness to return earlier.

4. Applications with a full description of the candidate's qualifications to reach the Director of Public Instruction, Bengal, not later than 15th February 1911.

NOTIFICATION.

POST-GRADUATE RESEARCH SCHOLARSHIPS, 1911.

1. Two post-graduate Research Scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only, will be awarded early in the year 1911.

2. No candidate will be considered who has not passed the M.A., the M.D., the D.L. or the Master in Engineering Examination of the Calcutta University in 1908, 1909 or 1910. No candidate will be considered who is not possessed of high qualifications, and who cannot show that he has a capacity for original research.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some scientific subject, such as Natural and Physical Science, Chemistry, Mathematical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as a Language, Comparative Philology, Palæography, Epigraphy, Philosophy, History, Archæology, Anthropology, etc.; but no application for a scholarship for research in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear, by the programme which he submits, that he has thought out a definite course of inquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, both the scholarships may be awarded for scientific research.

4. All applications must be submitted, through the head of the institution in which the candidate read last, so as to reach the undersigned on or before the 31st January 1911.

5. Application forms may be had from the Personal Assistant, Office of the Director of Public Instruction, Writers' Buildings, Calcutta.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Northern alignment of the Angarpathra siding of the East Indian Railway, in the district of Manbhum, will be put up to sale at 12 o'clock on Friday, the 6th January 1911, corresponding with the 22nd Pous 1317 Fusli, at Katras Bungalow :—

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Calcutta, the 21st December 1910.

No. 65.—The Governor General has been pleased, under rule 23 of the Rules for the conduct of the Legislative Business of the Council of the Governor General, to order the publication in the *Gazette of India* in English of the following Bill, together with the Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly hereby published for general information. It is proposed to introduce the Bill at the meeting of the Legislative Council of the Governor General to be held on the 3rd January, 1911 :—

A Bill further to amend the Opium Act, 1857.

XIII of 1857. WHEREAS it is expedient further to amend the Opium Act, 1857; It is hereby enacted as follows :—

Short title. **1.** This Act may be called the Opium (Amendment) Act, 1910.

XIII of 1857. Amendment of Act XIII of 1857, s. 3. **2.** In section 3 of the Opium Act, 1857, for the words "in Calcutta" the words "of the United Provinces of Agra and Oudh" shall be substituted.

Continuance of orders issued by Board of Revenue, Calcutta. **3.** Every order or direction issued, regulation made, sanction given or other thing lawfully done under the said Act by the Board of Revenue in Calcutta shall, after the commencement of this Act, be deemed to have been issued, made, given or done by the Board of Revenue of the United Provinces of Agra and Oudh.

Ratification of orders already issued by Board of Revenue, United Provinces. **4.** Any order or direction, regulation, sanction or other thing purporting to have been issued, made, given or done under the said Act by the Board of Revenue of the United Provinces of Agra and Oudh prior to the commencement of this Act is hereby ratified and confirmed.

STATEMENT OF OBJECTS AND REASONS.

IN order that the administrative control of the Opium Department may be transferred from the Government of Bengal to the Government of the United Provinces, it is necessary to amend section 3 of the Opium Act, 1857, by the substitution in that section of the Board of Revenue of the United Provinces for the Board of Revenue in Calcutta.

GUY FLEETWOOD WILSON.

The 16th December, 1910.

AUSTRALIA, EAST COAST—Lucinda Bar.

South entrance to Hinchinbrook channel—Alteration of leading beacons.

No. 553 (first publication).—The Portmaster, Brisbane, has given Notice (No. 10 of 1910) that, on and after the 29th November 1910, the Leading Beacons which mark the Channel across Lucinda Bar will be moved to the Southward to a point 1½ miles south of Lucinda Point, and will lead across the Bar bearing S. 30° W.

Vessels entering will, on and after the above date, pass about a cable *North* of the Fairway buoy (instead of to the Southward of it as hitherto), and bring the new lead in line bearing S. 30° W., passing a black buoy, which marks the extreme of the Southern Spit, on the port hand and round the elbow red buoy on the starboard hand, bringing the Dungeness lead in line as hitherto.

Vessels outward bound running down the Dungeness lead should leave that lead before the Bar beacons come quite on, and rounding the red buoy bring the Bar lead on.

The new Bar beacons lead through the centre of the present channel in 10½ feet at L.W.S., giving 5½ feet more than hitherto.

Charts affected.—Nos. 2349 and 1948; Australia Directory, vol. II.

DEPARTMENT OF AGRICULTURE, BENGAL.

FIRST FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1910-11.

(On an average of the five years ending 1908-09 the area under linseed and rape and mustard in the territory to which this forecast relates represents about 22·8 and 12·5 per cent. respectively of the total area under these crops in British India.)

Explanatory.—Of the three forecasts issued of the spring oilseed crops, the first deals only with the areas sown and the general condition of the crops.

Area sown.—Oilseeds are chiefly grown in Bihar and in the Presidency and Chota Nagpur Divisions. The total area sown up to now this year (*til* excepted) is estimated at 1,956,400 acres. Last year's area was estimated at 1,826,100 acres. The increase is due to the favourable weather during the sowing season.

Character of the season and general condition of the crops.—In September and October the rainfall was general and was above the normal in most districts. Sowings commenced at the usual time except in parts of the Presidency Division and in Cuttack, Angul, Burdwan and Hooghly, where they were somewhat retarded owing to the heavy rainfall in October. In November there was no rain except in some districts of Chota Nagpur and in Bihar, where the fall was above the average. The season has been favourable and the condition of the crops is reported to be good.

24-Parganas.	3,100,533	1,063,700	Linseed	1,600	600	400	Middle of October.	The weather has not been quite favourable in the Sadar, Barrackpore and Barasat subdivisions. Excessive rainfall in September and October in the Basirhat subdivision retarded sowings of the crops and as a result linseed could not be grown there while a small area was sown with rape and mustard. This accounts for the decrease in the area sown this year. Sowings were generally late on account of rainfall in the early part of October.

REPORT ON PUBLIC INSTRUCTION FOR 1909-10.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 27th December 1910.

RESOLUTION—No. 5040.

READ—

The Report on Public Instruction for 1909-10.

ALTHOUGH educational expenditure during the year under review considerably exceeded the amounts sanctioned in previous years, it was found impossible to continue the rate of increase in this grant which has been an outstanding feature of educational budgets during recent years. The total annual expenditure from provincial revenues has now reached half a crore of rupees. The number of pupils attending public institutions of all classes has increased in direct correspondence with the increase in the number of such institutions. Mr. Küchler, in submitting the present report, has pointed out that an annual increase of merely 2 per cent., which does not represent an abnormal rate of expansion, would amount to approximately one lakh; and this, therefore, of itself constitutes a sufficient tax on the resources of the Local Government. It is true, however, that Bengal is gradually awakening to the necessity of more liberal private benefactions. Notwithstanding the check on educational expenditure, due to the strain on the provincial finances, it appears from the report of the Director of Public Instruction that there have been laudable efforts to improve educational methods, educational equipment and educational objects.

2. *Controlling Agencies.*—In reply to the complaint that the cost of inspection is heavy, as compared with the expenditure on the teaching staff, Mr. Küchler explains that the majority of teachers are not trained men and that inspecting officers must be instructors also. If this be kept in view, the present incidence of 17 per cent. on the total expenditure upon education from Provincial, District Board and Municipal funds does not appear to the Lieutenant-Governor in Council to be excessive; but the warning contained in the Resolution of last year must be repeated, that further expenditure under this head must be kept strictly under control. The newly appointed Superintendent of Industries, Dr. Denning, joined his post on the 28th January 1910, and his services have proved invaluable in dealing with important questions arising in connection with technical and industrial matters

Proposals for improving the prospects, both of the Indian Educational Service and of the Provincial Educational Service, are under consideration.

3. *Collegiate Education*—There was a remarkable increase in the number of students from 4,655 in 1908-09 to 7,154 in 1909-10. An imperial grant was again received for expenditure on private colleges, and was distributed on the advice of the University. Almost the whole of the grant was devoted to the improvement of laboratories. The Lieutenant-Governor in Council agrees that the more pressing wants in this respect have probably now been satisfied, and it is hoped that in future years the Syndicate will be able to assign a larger proportion of the funds to the provision of hostels. As it was decided not to remove the Presidency College to another site but to extend and to improve it, the construction of the new blocks for the Physical Laboratory was taken up with vigour. There was a distinct improvement in the work of the Ravenshaw College in Cuttack. The future of the Krishnagar College was examined by a Committee specially appointed by Government for the purpose; and it has been decided that the college shall continue as a Government institution, subject to certain conditions as to local support. The Sanskrit College has now been raised to the status of a full college.

4. *Secondary Education.*—The experiment of appointing an Indian Educational Service officer as head master of a zilla school was made at Ranchi, and has given most satisfactory results. There is a danger, however, in the introduction

of the direct method of teaching English, inasmuch as this method tends to impart fluency in English at the expense of the pupil's own vernacular which, as Mr. Küchler points out, should ever be the natural vehicle of his thoughts. The Lieutenant-Governor in Council notices with satisfaction many healthy signs in connection with high schools—in particular, a general anxiety to give full effect to the improvements prescribed by the Senate, and a general increase in the average income from private sources. It is not a matter for regret that the total number has decreased, because, as indicated in the report, it is desirable to weed out weak schools in order to invigorate the rest. The Lieutenant-Governor in Council has read with interest the proposals regarding instruction in Hygiene, and agrees with the Director in considering that Drawing is a subject of very great educative value, and that it is unfortunate that it should be neglected, because it has not been prescribed as an optional subject in the University Regulations. The results of the new Matriculation Examination under the new University Regulations, judged by the percentage of passes, have been satisfactory; great caution was exercised by headmasters in sending up pupils, and, in consequence, over three boys out of four who attended the examination came up to the prescribed standard. Government sympathises with the views of the Director of Public Instruction regarding the waning popularity of middle vernacular schools, and agrees with him that the indiscriminate conversion of such schools into middle English schools, the effect of which is to give pupils a smattering of English at the expense of their general education, is a matter for regret.

5. *Primary Education.*—The statistics given by the Director of Public Instruction shew that there was an increase of nearly 30,000 boys and more than 5,000 girls in the number receiving primary education throughout the Province. In Calcutta, a considerable advance has been made in the arrangements for primary education, as a result of the proposals of the Committee convened by the Chairman of the Corporation in January, 1910. The most important problems before Government in connection with primary education are, on the one hand, to institute training schools, to supply a competent inspecting staff and to frame a revised syllabus; on the other hand, to give sufficient remuneration to the *gurus*. The average contribution for an aided lower primary school with one teacher is Rs. 25·2 per annum, while Rs. 84 is considered the minimum which should be guaranteed to any *guru* who has passed through the training school At the same time, there is no doubt that the system of payment to *gurus* of quarterly subsistence allowances, supplemented by deferred allowances at the end of the year, has given encouraging results. An experienced Inspector of Schools has recorded his view that the schools are now more stable, the work is more regular and the results in general are more satisfactory. The only defect is that the stipend is not sufficient to stimulate the interest which *gurus* are expected to show in their work, or to secure more than half-hearted co-operation. The same officer goes on to say that the abolition of fees, unaccompanied by sufficient compensation to the teacher, would tend to cause a serious set-back in the development of primary education, while even one-half of what Government might think fit to give as compensation to the teacher for the abolition of fees would, if devoted to the addition of the stipend of the teacher, extend education widely. An important change was made by the revision of the syllabus up to Standard I in January, 1910. The revised scheme has reduced the duration of the Infant section from three to two years; and easy general literature, well printed and attractively illustrated, has taken the place of the dry science readers which the children formerly learnt by rote.

6. *Training of Teachers.*—The training college in Calcutta was attended by only 18 students, all of whom were Government servants, and the Patna Training College had 12 students, of whom 6 were private teachers. It is interesting to learn that the college in Patna is becoming popular, and that several of the ex-students have obtained comparatively lucrative posts in high schools. A deterioration in the work of the training schools for vernacular masters has been noticed since 1901, and remedial measures have now been put in operation. The schools have been brought into contact with the training colleges in Calcutta and Patna, and their staffs are now recruited from

teachers who have themselves had instruction in the art of teaching. During 1909-10, 102 students passed out with final certificates. The supply is still below the demand. The *guru* training schools have entailed a large expenditure on the part of Government on account of both buildings and staff, larger than was originally anticipated. It is a matter for regret that, while 1,182 *gurus* left the schools during the year with certificates of proficiency, the number of *gurus* actually employed in schools of all classes increased by 585 only; the explanation seems to be the unremunerative character of the *guru's* work.

7. *Professional and Technical Education.*—During the year under review, special measures were taken to remodel the examination for the pleader's certificate of proficiency in survey; and at the same time a special course was arranged to furnish practical instruction in surveying. The work of the Sibpur Civil Engineering College has been handicapped by the impending change owing to the proposals for the removal of the College to Ranchi. The negotiations for the transfer of the Sibpur site to the Port Commissioners of Calcutta were completed during the year. The scheme for furnishing mining instruction in local centres in the mining areas, is undergoing fresh developments. The Mining Instructor has resigned, and arrangements have since been made for the appointment of four lecturers for the four centres at Sijua, Jheria, Charanpur and Dishergarh. The Government Weaving Institute at Serampore has now been in existence since January 1909. It started with thirty students in the higher classes and one weaver in the artisan class. At the end of the year 1909-10 there were forty-nine in the higher classes and forty-five in the artisan class: it would appear that working weavers are now attracted to the institute. The result of the City and Guilds of London Examination held at Bombay was very creditable, as 8 out of 13 passed the examination in weaving, and 6 out of 12 in cotton spinning. It is proposed to establish a local centre for this examination in Bengal. At the Government Commercial Class Examination 108 candidates appeared, of whom 65 passed. During the year the internal arrangements of the School of Art were reorganised, new courses of study were provided and a revised prospectus issued. Under the existing scheme a student joins the school in the elementary department and works there for two years; thereafter he decides in which of the advanced departments he will complete his course, the average duration of the course being about three years. The advanced departments are the Industrial, Draftsmans', Teachers' and Fine Arts Departments. Want of success has been recorded only in the Teachers' Department. An interesting and useful work has been taken up in the preparation of industrial art pattern books.

8. *Female Education.*— Though much progress has been made within recent years in the education of Indian women and girls, yet the fact emphasised by Mr. Küchler that over 95 girls out of 100 of school-going age are still outside the pale of the educational operations of Government shows how little, on the whole, has yet been done. The Lieutenant-Governor in Council, however, is disposed to think that the optimism of the Director of Public Instruction as regards the attitude of the Indian mind on the subject is justified. The serious loss in the number of pupils in the school attached to the Bethune College within the last two years deserves the particular attention of the Director of Public Instruction. On the other hand, the Ravenshaw Girls' School in Cuttack is in a flourishing condition, and from the existence of two high schools for girls at the head-quarters of Orissa there appears to be a demand for high education amongst Uriya girls. It is satisfactory to find that the number of Bihari girls at the Bankipore school is increasing. His Honour in Council learns with pleasure that the control of Government has been so successful in the case of model primary girls' schools. Various methods are employed in furnishing instruction in zenanas, the most popular system being house to house visits by lady teachers. The introduction of lace-making as a form of industrial education in female institutions has met with some success; but at the same time it is still to be shewn that the commodity can command a ready sale on considerations other than those of charity. The Director of Public Instruction states that the Badshah Nawab Razvi Training College for female teachers at Bankipore has been more successful than was

anticipated; and the distrust with which it was originally regarded in some quarters tends to disappear. It is also stated that the demand for passed students of the Hindu female training school in Calcutta is far beyond the supply.

9. *European Education.*—The European Education Code was to have come into force at the beginning of 1910; but on account of certain representations which were made to the Lieutenant-Governor in 1909, the promulgation of the Code was suspended until an enquiry had been made into the objections which had been raised. The objections related principally to the grading of the schools; and, since the close of the year, Government has accepted the principle that there should be four grades instead of two, namely, Elementary, Higher Elementary, Secondary and Higher Secondary. It was found that the objections which had been made could be met by the modification of certain rules, and that no alterations in the principles of the Code were required. It is proposed to bring the Code, as further revised, into force from the year 1911. The Director has remarked that the suspension of the Code has not led to any paralysis of the ordinary daily work of the European schools, but that on the contrary a distinct improvement in general efficiency has been noticeable during the year under review. The Lieutenant-Governor in Council desires to record his appreciation of the efforts on the part of representatives of the European community to supplement the resources of the schools in this Province. The further development of European education in Bengal must depend mainly upon private liberality, especially as the funds allotted for European schools from provincial revenues are, on account of the greater costliness of European education, disproportionate to the numbers benefited. The Education Department reiterate the request for the institution of a secondary training college for European teachers in Bengal; but the scheme is one which can only be considered when the financial conditions of the Province are more favourable. The results of the Cambridge Senior Local Examination were satisfactory: 32 candidates out of 50 passed as compared with 20 out of 45 in the preceding year. The Inspector of European schools has assumed the position of General Secretary in Bengal for the Cambridge Local Examinations. The adoption by Europeans of practical forms of education is noticed by the Director of Public Instruction as a healthy sign.

10. *Muhammadan Education.*—The manner in which Muhammadans have taken advantage of educational facilities is worthy of notice. The Muhammadan community form 17·1 per cent. of the total population, while 17 per cent. of the boys of that community are at school. The number of Muhammadan boys in educational institutions has increased by 5½ per cent., but there has been a falling off in the results of the public examinations. Special improvements in Muhammadan education are being undertaken in connection with Madrassas and Maktabs. With reference to the latter, the Director has stated that in consequence of the increased provision for Maktabs from provincial revenues, some of the District Boards have curtailed their grants to such schools. The Lieutenant-Governor in Council shares the regret of the Director in this matter, as the additional grant is intended, not to relieve the funds of the District Boards, but to supplement them. The construction of the "Baker Hostel" for the accommodation of 100 students of Calcutta Colleges was completed after the close of the year. The old hostel known as the "Elliott Hostel" has accommodation for 1-2 inmates. The Lieutenant-Governor in Council regrets that so little of the promised assistance was forthcoming from subscriptions from the Muhammadan community towards the construction of the new hostel. The total cost was Rs. 1,61,588: the Provincial Government has contributed Rs. 1,22,858; and amongst private subscriptions a sum of Rs. 26,000 was the generous gift of the Nawab Bahadur of Dacca.

11. *Education of special classes.*—The Lieutenant-Governor has perused with much interest the commendation given to the work of the East Indian Railway Company, in the schools which they have established in their Giridih coal-field, where the Railway maintains 34 primary schools educating 2,408 children. On the other hand, much remains to be done in connection with the education of children of labourers attached to the gardens in the tea districts. The Reformatory School at Hazaribagh has now been placed under a Superintendent

aided by a Committee of Visitors under the authority of the Education Department. At the close of the year there were no fewer than 481 boys in the school, to which number the metropolitan areas of Calcutta contributed 162.

12. *Physical and Moral Training.*—The hostel system continues to expand. The number of hostels has increased from 445 to 534, of which 156 are under public management, and the number of inmates from 13,131 to 15,644. The private collegiate hostels at Bankura, Berhampur and Hazaribagh and the Scottish Churches College in Calcutta have been administered with conspicuous success. The Calcutta mess scheme has also been extended, a course which has, however, necessitated an increase in the Government subsidy to the scheme. Hostels attached to schools are, unfortunately, in a generally unsatisfactory condition, and many are condemned as defective in hygienic requirements. The Director declares that physical exercise and games are growing steadily in popular favour, but that at the same time the healthy spirit of sportsmanship has yet in many instances to be developed. It is not sufficiently recognised in schools and colleges that play as well as work is capable of developing character and inculcating discipline. The Lieutenant-Governor in Council has read with gratification the testimony of Mr. Percival in his report on the Presidency College. He states that after many years of observation he is led to believe that there has been a steady upward movement among the students. There have been regrettable instances in which the introduction of politics has led to insubordination of a grave nature. It should be realised in this Province that in this matter parents have responsibilities as well as teachers.

13. *General.*—Government accepts the general proposition laid down by Mr James in 1909 and confirmed by Mr. Küchler in his present report, that, as the immediate wants of collegiate education have now been met, the cause of secondary education deserves careful consideration. At the same time, claims for the improvement of primary education and technical education are no less pressing. The resources within the capacity of the District Boards are not elastic; and therefore, in Mr. Küchler's opinion, no relief can be obtained except by additional grants from provincial revenues. As regards technical education, the demands are numerous; and the Lieutenant-Governor in Council agrees that they are not always made with a full appreciation of the problem to be solved, or even with a clear understanding of the meaning of technical education. While, on the one hand, it is necessary to anticipate reasonable demands, yet at the same time it is necessary to see that in the application of funds on this branch of education there is no waste. The thanks of Government are due to Mr. James and to the Hon'ble Mr. Küchler for their administration of the department during the period under review, and to Mr. Küchler for his interesting report.

By order of the Lieutenant-Governor in Council,

J. G. CUMMING,

Secretary to the Govt. of Bengal.

PROHIBITED CLASSES.

Prohibited classes of immigrants.

3. No immigrant, passenger, or other person, unless he is a Canadian citizen, or has Canadian domicile, shall be permitted to land in Canada, or in case of having landed in or entered Canada shall be permitted to remain therein, who belongs to any of the following classes, hereinafter called "prohibited classes,"—

Persons mentally defective.

(a) idiots, imbeciles, feeble-minded persons, epileptics, insane persons, and persons who have been insane within five years previous;

Diseased persons.

(b) persons afflicted with any loathsome disease, or with a disease which is contagious or infectious, or which may become dangerous to the public health, whether such persons intend to settle in Canada or only to pass through Canada in transit to some other country. Provided that if such disease is one which is curable within a reasonably short time, such persons may, subject to the regulations in that behalf, if any, be permitted to remain on board ship if hospital facilities do not exist on shore, or to leave ship for medical treatment;

Persons physically defective.

(c) immigrants who are dumb, blind, or otherwise physically defective, unless in the opinion of a Board of Inquiry or officer acting as such they have sufficient money, or have such profession, occupation, trade, employment or other legitimate mode of earning a living that they are not liable to become a public charge or unless they belong to a family accompanying them or already in Canada and which gives security satisfactory to the Minister against such immigrants becoming a public charge;

Criminals.

(d) persons who have been convicted of any crime involving moral turpitude;

Prostitutes and pimps.

(e) prostitutes and women and girls coming to Canada for any immoral purpose and pimps or persons living on the avails of prostitution;

Procurers.

(f) persons who procure or attempt to bring into Canada prostitutes or women or girls for the purpose of prostitution or other immoral purpose;

Beggars and vagrants.

(g) professional beggars or vagrants, or persons likely to become a public charge;

Charity immigrants.

(h) immigrants to whom money has been given or loaned by any charitable organization for the purpose of enabling them to qualify for landing in Canada under this Act, or whose passage to Canada has been paid wholly or in part by any charitable organizations or out of public moneys, unless it is shown that the authority in writing of the Superintendent of Immigration, or in case of persons coming from Europe, the authority in writing of the Assistant Superintendent of Immigration for Canada, in London, has been obtained for the landing in Canada of such persons, and that such authority has been acted upon within a period of sixty days thereafter;

Persons not complying with regulations.

(i) persons who do not fulfil, meet or comply with the conditions and requirements of any regulations which for the time being are in force and applicable to such persons under section 37 or 38 of this Act.

Permit to enter Canada.

4. The Minister may issue a written permit authorizing any person to enter Canada without being subject to the provisions of this Act. Such permit shall be in the form A* of the schedule to this Act, and shall be expressed to be in force for a specified period only, but it may at any time be extended or cancelled by the Minister in writing. Such extension or cancellation shall be in the form AA* of the schedule to this Act.

LANDING OF PASSENGERS.

Landing of passengers.

33. Every passenger or other person seeking to land in Canada shall first appear before an immigration officer, and shall be forthwith examined as required under this Act, either on shipboard or on train or at some other place designated for that purpose.

Answers to questions.

(2) Every passenger or other person seeking to land in Canada shall answer truly all questions put to him by any officer when examined under the authority of this Act.

Doubtful cases.

(3) Every passenger or other person so examined shall be immediately landed unless the examining officer has reason to believe that the landing of such passenger or other person would be contrary to any provision of this Act.

Examination in doubtful cases.

(4) Every passenger or other person, as to whose right to land the examining officer has any doubt, shall be detained for further examination by the officer in charge, or by the Board of Inquiry, and such examination shall be forthwith conducted separate and apart from the public, and upon the conclusion thereof such passenger or other person shall be either immediately landed or shall be rejected and kept in custody pending his deportation.

Deportation.

(5) An order for deportation by a Board of Inquiry or officer in charge may be made in the form B* in the schedule to this Act, and a copy of the said order shall forthwith be delivered to such passenger or other person, and a copy of the said order shall at the same time be served upon the master or owner of the ship or upon the local agent or other official of the transportation company by which such person was brought to Canada; and

* Not printed.

such person shall thereupon be deported by such company subject to any appeal which may have been entered on his behalf under section 19 of this Act.

(6) Every person who enters Canada except at a port of entry shall forthwith report such entry to the nearest immigration officer and present himself for examination as provided by this section. Duty to report entry.

(7) Any person who enters Canada except at a port of entry, or who at a port of entry eludes examination by an officer, or Board of Inquiry, or who enters Canada by force or misrepresentation or stealth or otherwise contrary to any provision of this Act, or who escapes from custody of an officer or from an immigrant station when detained for any cause under this Act, shall be guilty of an offence under this Act, and liable on conviction to a fine of not more than one hundred dollars, and may be arrested and detained without a warrant by any officer for examination as provided under this section; and if found not to a Canadian citizen, or not to have Canadian domicile, such entry shall in itself be sufficient cause for deportation whenever so ordered by a Board of Inquiry or officer in charge subject to any appeal which may have been entered under section 19 of this Act Avoiding port of entry.

(8) Any transportation company or person knowingly and wilfully landing, or assisting to land or attempting to land in Canada, any prohibited immigrant or person whose entry into Canada has been forbidden under this Act, shall be guilty of an offence and shall be liable on conviction to a fine of not more than five hundred dollars and not less than fifty dollars for each prohibited immigrant or other person so landed in Canada, or whose landing in Canada was so attempted. Penalty for landing prohibited immigrant.

(9) Any transportation company or person interfering with or resisting an immigration officer in the performance of his duty under this Act, or knowingly and wilfully assisting in the escape of any person detained by an officer, or at an immigrant station, for any purpose under this Act, or giving false information to an officer, whereby such officer is induced to land or permit the landing of any person in Canada who otherwise would be refused landing for any cause under this Act or would be detained for examination, shall be guilty of an offence, and shall be liable to a fine of not more than five hundred dollars and not less than twenty dollars for each such offence. Interference with officer in performance of duty.

(10) Every person who enters Canada as a tourist or traveller or other non-immigrant, but who ceases to be such and remains in Canada shall forthwith report such facts to the nearest immigration officer and shall present himself before an officer for examination under this Act, and in default of so doing he shall be liable to a fine of not more than one hundred dollars and shall also be liable to deportation by order of a Board of Inquiry or officer acting as such. Penalty for tourist who ceases to be such failing to report.

(11) Pending the final disposition of the case of any person detained or taken into custody for any cause under this Act he may be released under a bond, which bond may be in the form* F in the schedule to this Act, with security approved by the officer in charge, or may be released upon deposit of money with the officer in charge, in lieu of a bond, and to an amount approved by such officer; upon condition that such person shall appear before a Board of Inquiry or officer acting as such at any port of entry named by the officer in charge, and at such time as shall be named, for examination in regard to the cause or complaint on account of which he has been detained or taken into custody. Release under bond or approved deposit.

(12) If such person fail to appear for examination at such time and place named, or shall fail to keep and observe every other condition under which he is so released, then such bond shall be enforced and collected, and the proceeds thereof, or the money deposited in lieu of a bond, as the case may have been, shall be paid into the hands of the Minister of Finance, and shall form part of the Consolidated Revenue Fund of Canada; and such person may be taken into custody forthwith and deported by order of a Board of Inquiry or officer acting as such. Failure to appear for examination.

REGULATIONS AS TO MONETARY AND OTHER REQUIREMENTS FROM SPECIFIED CLASSES OF IMMIGRANTS.

37. Regulations made by the Governor in Council under this Act may provide as a condition to permission to land in Canada that immigrants and tourists shall possess in their own right money to a prescribed minimum amount, which amount may vary according to the race, occupation or destination of such immigrant or tourist, and otherwise according to the circumstances; and may also provide that all persons coming to Canada directly or indirectly from countries which issue passports or penal certificates to persons leaving such countries shall produce such passports or penal certificates on demand of the immigration officer in charge before being allowed to land in Canada. Immigrants may be required to possess prescribed amount of money.

38. The Governor in Council may, by proclamation or order whenever he deems it necessary or expedient,— Prohibition—

(a) prohibit the landing in Canada or at any specified port of entry in Canada of any immigrant who has come to Canada otherwise than by continuous journey from the country of which he is a native or naturalized citizen, and upon a through ticket purchased in that country, or prepaid in Canada; of immigrants not coming by continuous journey.

* Not printed.

of passengers brought by certain companies;

(*b*) prohibit the landing in Canada of passengers brought to Canada by any transportation company which refuses or neglects to comply with the provisions of this Act;

of specified classes of immigrants.

(*c*) prohibit for a stated period, or permanently, the landing in Canada, or the landing at any specified port of entry in Canada, of immigrants' belonging to any race deemed unsuited to the climate or requirements of Canada, or of immigrants of any specified class, occupation or character.

Duty of companies to re-convey rejected immigrants to country of birth or citizenship.

39. When any immigrant or other person is rejected or ordered to be deported from Canada, and such person has not come to Canada by continuous journey from the country of which he is a native or naturalized citizen, but has come indirectly through another country, which refuses to allow such person to return or be returned to it, then the transportation company bringing such person to such other country shall deport such person from Canada to the country of which he is a native or naturalized citizen whenever so directed by the Minister or Superintendent of Immigration and at the cost of such transportation company, and in case of neglect or refusal so to do, such transportation company shall be guilty of an offence against this Act, and shall be liable to a fine of not more than five hundred dollars and not less than twenty dollars for each such offence.

Penalty.

DEPORTATION OF PROHIBITED AND UNDESIRABLE CLASSES.

Duty of officer to send complaint to Minister regarding undesirable classes.

40. Whenever any person, other than a Canadian citizen, within three years after landing in Canada has been convicted of a criminal offence in Canada, or has become a prostitute or an inmate of a house of ill-fame, or by common repute has become a procurer or pimp or person living on the avails of prostitution, or has become a professional beggar or a public charge, or an inmate of a penitentiary, jail, reformatory, prison, hospital, insane asylum or public charitable institution, or enters or remains in Canada contrary to any provision of this Act, it shall be the duty of any officer cognizant thereof, and the duty of the clerk, secretary or other official of any municipality in Canada wherein such person may be, to forthwith send a written complaint thereof to the Minister or Superintendent of Immigration, giving full particulars.

Duty of officers to send complaint to Minister concerning certain acts of undesirable classes.

41. Whenever any person other than a Canadian citizen advocates in Canada the overthrow by force or violence of the government of Great Britain or Canada, or other British dominion, colony, possession or dependency, or the overthrow by force or violence of constituted law and authority, or the assassination of any official of the Government of Great Britian or Canada or other British dominion, colony, possession or dependency, or of any foreign government, or shall by word or act create or attempt to create riot or public disorder in Canada, or shall by common repute belong to or be suspected of belonging to any secret society or organization which extorts money from, or in any way attempts to control, any resident of Canada by force or threat of bodily harm, or by blackmail; such person for the purposes of this Act shall be considered and classed as an undesirable immigrant, and it shall be the duty of any officer becoming cognizant thereof, and the duty of the clerk, secretary or other official of any municipality in Canada wherein such person may be, to forthwith send a written complaint thereof to the Minister or Superintendent of Immigration, giving full particulars.

Investigation of complaints concerning undesirable classes.

42. Upon receiving a complaint from any officer, or from any clerk or secretary or other official of a municipality, whether directly or through the Superintendent of Immigration, against any person alleged to belong to any prohibited or undesirable class, the Minister may order such person to be taken into custody and detained at an immigrant station for examination and an investigation of the facts alleged in the said complaint to be made by a Board of Inquiry or by an officer acting as such. Such Board of Inquiry or officer shall have the same powers and privileges, and shall follow the same procedure, as if the person against whom complaint is made were being examined before landing as provided in section 33 of this Act; and similarly the person against whom complaint is made shall have the same rights and privileges as he would have if seeking to land in Canada.

Deportation in such cases.

(2) If upon investigation of the facts such Board of Inquiry or examining officer is satisfied that such person belongs to any of the prohibited or undesirable classes mentioned in sections 40 and 41 of this Act, such person shall be deported forthwith, as provided for in section 33 of this Act, subject, however, to such right of appeal as he may have to the Minister.

Order to leave Canada.

(3) The Governor in Council may, at any time, order any such person found by a Board of Inquiry or examining officer to belong to any of the undesirable classes referred to in section 41 of this Act to leave Canada within a specified period. Such order may be in the form* D in the schedule to this Act, and shall be in force as soon as it is served upon such person, or is left for him by any officer at the last known place of abode or address of such person.

Penalty for rejected or deported person remaining in or re-entering Canada.

(4) Any person rejected or deported under this Act who enters or remains in or returns to Canada after such rejection or deportation without a permit under this Act or other lawful excuse or who refuses or neglects to leave Canada when ordered so to do by the Governor in Council as provided for in this section, shall be guilty of an offence against this Act, and may forthwith be arrested by any officer and be deported on an order from

* Not printed.

the Minister or the Superintendent of Immigration, or may be prosecuted for such offence and shall be liable, on conviction, to two years' imprisonment, and immediately after expiry of any sentence imposed for such offence, may be again deported or ordered to leave Canada under this section.

(5) In any case where deportation of the head of a family is ordered, all dependent members of the family may be deported at the same time. And in any case where deportation of a dependent member of a family is ordered on account of having become a public charge, and in the opinion of the Minister such circumstance is due to wilful neglect or non-support by the head or other members of the family morally bound to support such dependent members, then all members of the family may be deported at the same time. Such deportation shall be at the cost of the persons so deported; and if that be not possible, then the cost of such deportation shall be paid by the Department of the Interior. *Deportation of head of family. Deportation of dependent member of family. Cost of deportation.*

43. When any person has, within three years of landing in Canada, become an inmate of a penitentiary, jail, reformatory or prison, the Minister of Justice may, upon the request of the Minister of the Interior, issue an order to the warden or governor of such penitentiary, jail, reformatory or prison, which order may be in the form E* in the schedule to this Act, commanding him after the sentence of term of imprisonment of such person has expired to detain such person for, and deliver him to, the officer named in the warrant issued by the Superintendent of Immigration, which warrant may be in the form EE* in the schedule to this Act, with a view to the deportation of such person. *Detention of certain prisoners for deportation.*

(2) Such order of the Minister of Justice shall be sufficient authority to the warden or governor of the penitentiary, jail, reformatory or prison, as the case may be, to detain and deliver such person to the officer named in the warrant of the Superintendent of Immigration as aforesaid, and such warden or governor shall obey such order, and such warrant of the Superintendent of Immigration shall be sufficient authority to the officer named therein to detain such person in his custody, or in custody at any immigrant station, until such person is delivered to the authorized agent of the transportation company which brought such person into Canada, with a view to deportation as herein provided. *Order of Minister of Justice and warrant of Superintendent of Immigration.*

* * * * * *

PROTECTION OF IMMIGRANTS.

55. Every person who causes or procures the publication or circulation, by advertisement or otherwise, in a country outside of Canada, of false representations as to the opportunities for employment in Canada, or as to the state of the labour market in Canada, intended or adapted to encourage or induce, or to deter or prevent, the immigration into Canada of persons resident in such outside country, or who does anything in Canada for the purpose of causing or procuring the communication, to any resident of such country of any such presentations which are thereafter so published, circulated or communicated, shall be guilty of an offence against this Act, and liable on summary conviction before two justices of the peace, to a fine of not more than five hundred dollars, or to imprisonment for a term not exceeding six months, or to both fine and imprisonment. *False representation to deter or induce immigration. Penalty.*

* * * * * *

GENERAL REGULATIONS.

81. The Governor in Council may, on the recommendation of the Minister, make such orders and regulations, not inconsistent with this Act, as are considered necessary or expedient for enforcing the provisions of this Act according to the true intent and meaning thereof. *Power to make further regulations.*

ORDERED, that a copy of the Resolution be forwarded, for information and guidance, to Local Governments and Administrations noted in the margin, and to the Home and Foreign Departments, for information.

No. 139 Marine.—The following Order in Council, dated the 13th October 1910, respecting the regulations for preventing collisions at sea and the exhibition of signals of distress is published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

AT THE COURT AT ST. JAMES'S, THE 13TH DAY OF OCTOBER 1910.

PRESENT :

The King's Most Excellent Majesty in Council.

WHEREAS by section 418 of the Merchant Shipping Act, 1894, His Majesty is empowered from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council to make regulations for preventing collisions at sea, in the said Act referred to as Collision Regulations :

And whereas by section 424 of the said Act it is provided that whenever it is made to appear to His Majesty in Council that the Government of any foreign country is willing that the said regulations or any of them should apply to the ships of that country when beyond the limits of British jurisdiction, His Majesty may, by Order in Council, direct that those regulations shall, subject to any limitation of time, conditions and qualifications contained in the Order, apply to the ships of the said foreign country, whether within British jurisdiction or not, and that such ships shall, for the purpose of such regulations, be treated as if they were British ships:

And whereas by section 434 of the said Act His Majesty is empowered from time to time by Order in Council to make rules as to signals of distress:

And whereas by section 734 of the said Act it is provided that where it has been made to appear to His Majesty that the Government of any foreign country is desirous that any of the provisions of that Act which do not apply to the ships of that country should so apply, and there are no special provisions in the Act for that application, His Majesty in Council may order that such of those provisions as are in the Order specified shall (subject to the limitations, if any, contained therein) apply to the ships of that country, and to the owners, masters, seamen, and apprentices of those ships, when not locally within the jurisdiction of the Government of that country, in the same manner in all respects as if those ships were British ships:

And whereas by section 738 of the said Act it is provided that where His Majesty has power, under that Act or any Act amending the same, to make an Order in Council, His Majesty may from time to time make that Order in Council, and by Order in Council revoke, alter or add to any Order so made:

And whereas by the said last-mentioned section it is further provided that, subject to any special provisions of that Act upon the publication of any such Order, the Order shall, as from the date of its publication or any later date mentioned in the Order, take effect as if it were enacted by Parliament:

And whereas by an Order in Council dated the 27th day of November 1896, regulations for preventing collisions at sea and as to distress signals were made as regards British ships and boats, and by a subsequent Order dated the 7th day of July 1897 these regulations were extended, subject to the limitations stated in the Order, to the ships of the several countries specified in Schedule III to the last-mentioned Order:

And whereas by Orders in Council dated, respectively, the 18th day of August 1892, the 7th day of July 1897, and the 4th day of April 1906, other regulations for the prevention of collisions were made as regards British ships:

And whereas it is expedient to consolidate the regulations which have been made as regards British ships:

And whereas it has been made to appear to His Majesty that the Government of the several countries mentioned in Schedule II, hereto annexed, are willing that the regulations and rules contained in Schedule I, should, subject to the qualifications mentioned in the aforesaid Schedule I, and to the proviso in the case of Chinese ships that the application of the regulations and rules shall be limited to ships of foreign type, apply to the ships of those countries when beyond the limits of British jurisdiction:

And whereas the provisions of section one of the Rules Publication Act, 1893, have been complied with:

Now, therefore, His Majesty, by virtue of the power conferred on Him by the aforesaid Act, and on the joint recommendation of the Admiralty and the Board of Trade, and by and with the advice of His Privy Council, is pleased to direct that the collision regulations and the rules as to signals of distress contained in Schedule I to this Order shall apply to all British ships:

And His Majesty is also pleased to direct that the said regulations and rules shall, subject to the aforesaid qualifications and to the proviso in the case of Chinese ships that the regulations and rules will be applicable only to ships of foreign type, apply to the ships of the countries named in Schedule II to this Order, whether they are within British jurisdiction or not, and that such ships shall, for the purpose of such regulations and rules, be treated as if they were British ships:

And His Majesty is further pleased to direct that this Order shall come into operation on and after the 13th day of October 1910, and that as and from the coming into operation of this Order the Orders in Council specified in Schedule III to this Order shall be revoked and the same shall be revoked accordingly.

ALMERIC FITZROY.

SCHEDULE I.

Preliminary.

THESE rules shall be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels

In the following rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these rules when she is not at anchor, or made fast to the shore or aground.

Rules concerning Lights, etc.

The word "visible" in these rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

ARTICLE 1.—The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

ARTICLE 2.—A steam vessel when under way shall carry—

(*a*) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(*b*) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(*c*) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

(*d*) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

(*e*) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in sub-division (*a*). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

ARTICLE 3.—A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in Article 2 (*a*), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

ARTICLE 4.—(*a*) A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in article 2 (*a*), where they can best be seen, and, if a steam vessel, in lieu of that light, two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes, each 2 feet in diameter.

(*b*) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (*a*), and if a steam vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(*c*) The vessels referred to in this article when not making way through the water shall not carry the side-lights, but when making way shall carry them.

(*d*) The lights and shapes required to be shown by this article are to be taken by other vessels as signals that the vessel showing them is not under command, and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

ARTICLE 5.—A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam-vessel under way with the exception of the white lights mentioned therein, which they shall never carry.

ARTICLE 6.—Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ARTICLE 7.—Steam vessels of less than 40, and vessels under oars or sails of less than 20, tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (*a*), (*b*) and (*c*), but if they do not carry them, they shall be provided with the following lights:—

1. Steam vessels of less than 40 tons shall carry—

   (*a*) In the fore part of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Article 2 (*a*), and of such a character as to be visible at a distance of at least 2 miles

   (*b*) Green and red side-lights constructed and fixed as prescribed in Article 2 (*b*) and (*c*), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steam-boats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern mentioned in sub-division 1 (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this article shall not be obliged to carry the lights prescribed by Article 4 (*a*) and Article 11, last paragraph.

ARTICLE 8.—Pilot-vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board may show the white light instead of carrying it at the masthead, and may, instead of the coloured lights above mentioned, have at hand ready for use a lantern with a green glass on the one side and red glass on the other, to be used as prescribed above.

A steam pilot-vessel exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district, when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights required for all pilot-boats, carry at a distance of 8 feet below her white masthead light a red light visible all round the horizon, and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least two miles, and also the coloured side-lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot-boats, the red light above mentioned, but not the coloured side-lights.

Pilot-vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

ARTICLE 9.*†—Fishing-vessels and fishing-boats, when under way and when not required by this article to carry or show the lights hereinafter specified, shall carry or show the lights prescribed for vessels of their tonnage under way.

(*a*) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light.

Open boats, when fishing at night, with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

(*b*)‡ Vessels and boats, except open boats as defined in sub-division (*a*), when fishing with drift-nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea§ sailing fishing-vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights: should they, however, not carry it, they shall show in the same position (in the direction of net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*c*) Vessels and boats, except open boats as defined in sub-division (*a*), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of sub-division (*h*), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea§ sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights: should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*d*) Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels; shall carry in the same position as the white light mentioned in Article 2 (*a*), a tricoloured lantern so constructed and fixed as to show a white light from right ahead to 2 points on each bow, and a green light and a red light over an arc of the horizon from 2 points on each bow to 2 points abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tricoloured lantern a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon.

2. If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in sub-division (*d*) 1 and 2 shall be visible at a distance of at least 2 miles.

(*e*) Oyster dredgers and other vessels fishing with dredge-nets shall carry and show the same lights as trawlers.

(*f*) Fishing-vessels and fishing-boats may at any time use a flare-up light, in addition to the lights which they are by this article required to carry and show, and they may also use working lights.

(*g*) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

* This article does not apply to Chinese or Siamese vessels.

† The expression "Mediterranean Sea" contained in sub sections (*b*) and (*c*) of this article includes the Black Sea and the other adjacent inland seas in communication with it.

‡ Dutch vessels and boats when engaged in the "kol," or hand-line, fishing will carry the lights prescribed for vessels fishing with drift-nets.

§ Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by Article 11. Should any such vessel, whether under 150 feet in length, or of 150 feet in length, or upwards, be attached to a net or other fishing gear, she shall, on the approach of other vessels, show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(*h*) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day-signal required by sub-division (*k*); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rain-storms make the signal prescribed for a vessel at anchor. [See sub-division (*d*), and the last paragraph of Article 15.]

(*i*) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging or fishing with any kind of drag-net, and vessels line-fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute make a blast; if steam vessels, with the whistle or siren, and if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing-vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals; but if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(*k*) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by Article 4 (*a*) and the last paragraph of Article 11.

ARTICLE 10.—A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

ARTICLE 11.—A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least 1 mile

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry the above light or lights and the two red lights prescribed by Article 4 (*a*).

ARTICLE 12.—Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

ARTICLE 13.—Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by shipowners, which have been authorized by their respective Governments and duly registered and published.

ARTICLE 14.—A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound-Signals for Fog, etc.

ARTICLE 15.—All signals prescribed by this article for vessels under way shall be given:

1. By "steam vessels" on the whistle or siren.
2. By "sailing vessels and vessels towed," on the fog-horn.

The words "prolonged blast" used in this article shall mean a blast of from 4 to 6 seconds' duration,

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow, or heavy rain-storms, whether by day or night, the signals described in this article shall be used as follows, viz.—

(a) A steam vessel having way upon her shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(b) A steam vessel under way, but stopped and having no way upon her, shall sound at intervals of not more than 2 minutes, 2 prolonged blasts, with an interval of about 1 second between them.

(c) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(d) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds

(e) A vessel, when towing a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these rules shall, instead of the signals prescribed in sub-divisions (a) and (c) of this article, at intervals of not more than two minutes, sound three blasts in succession, viz., one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.†

Speed of Ships to be Moderate in Fog, etc.

ARTICLE 16.—Every vessel shall in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines and then navigate with caution until danger of collision is over.

Steering and Sailing Rules.

Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

ARTICLE 17.—When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz.—

(a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(c) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(d) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(e) A vessel which has the wind aft shall keep out of the way of the other vessel.

ARTICLE 18.—When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

* In all cases where the rules require a bell to be used, a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

† Dutch steam pilot vessels, when engaged on their station on pilotage duty in fog, mist falling snow, or heavy rain storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty they make the same signals as other steam-ships.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

ARTICLE 19.—When two steam vessels are crossing so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

ARTICLE 20.—When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

ARTICLE 21.—Where by any of these rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

ARTICLE. 22.—Every vessel which is directed by these rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

ARTICLE 23.—Every steam vessel which is directed by these rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

ARTICLE 24.—Notwithstanding anything contained in these rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam. *i.e.*, in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaken vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she would, if in doubt, assume that she is an overtaking vessel and keep out of the way.

ARTICLE 25—In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or midchannel which lies on the starboard side of such vessel.

ARTICLE 26.—Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing-vessels or boats.

ARTICLE 27.—In obeying and construing these rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in sight of one another.

ARTICLE 28.—The words "short blast" used in this article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorized or required by these rules, shall indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean, "I am directing my course to starboard."
Two short blasts to mean, "I am directing my course to port."
Three short blasts to mean, "My engines are going full speed astern."

No vessel under any circumstances to neglect proper precautions.

ARTICLE 29.—Nothing in these rules shall exonerate any vessel, or the owner, or master, or crew thereof from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

ARTICLE 30.—Nothing in these rules shall interfere with the operation of a special rule, duly made by the local authority, relative to the navigation of any harbour, river, or inland waters.

Distress Signals.

ARTICLE 31.—When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.—

In the day time—

1. A gun or other explosive signal fired at intervals of about a minute;
2. The International Code signal of distress indicated by N. C.;
3. The distant signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel, etc.);
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTIFICATION.

No. 4474A.—The 21st December 1910.—In exercise of the power conferred by section 37C (*b*) of the Bengal Cess Act, 1880, as amended by the Bengal Cess (Amendment) Act, 1910, the Board is pleased to prescribe the following rules:—

Hazaribagh.

Rules for the guidance of Attestation Officers in Cess Revaluation of Hazaribagh.

1. One additional muharrir on Rs. 20 a month, to be called the cess valuation muharrir, will be attached to each attestation camp.

2. At the time of issuing the general notice of the attestation of each village, the Assistant Settlement Officer will issue notice in the village that a valuation of the annual value of the estates, tenures and holdings in the village will be made for the purposes of road cess assessment simultaneously with the attestation proceedings, and will direct the proprietor or tenure-holder of the village to bring with him to the attestation proceedings a copy of his road cess return filed by him at the last cess valuation.

3. The attestation officer will obtain from the Collectorate office the original road cess returns of the last valuation for any reference that may be found necessary.

4. When writing up his rent proceedings the Assistant Settlement Officer will make a separate enquiry to find what fees are taken from the raiyats in addition to their rents, such as *lahkar*, *bankar*, *tasarkar* and any trade taxes (*motarfa*), and shall decide which of these are legally payable. Such of them as are legally payable will be entered at the attestation of rent below the *khas shart* column of the raiyat's khatian; or if the jungle or trees of the village have been leased to a thikadar for the purpose of cultivating lac or *tasar* a note of the rent payable by the thikadar will be made in the *khas shart* of the *gairmazrua malik* khatian.

5. The attestation officer will also enquire whether any *hât* is held in the village or whether any mines or quarries are being worked. If a *hât* is leased to a thikadar, the annual rent paid by the thikadar will be treated as the annual value of the *hât*. If a *hât* is held khas by the landlord the attestation officer should visit it two or three times and make enquiries from the mahajans and influential persons and value it accordingly, recording very briefly the ground for his valuation. Previous valuations must be consulted by the Assistant Settlement Officer and quoted in his finding. The valuation of the *hât* will be entered in brackets in the *gairmazrua malik khatian* as "*bazar masul.*"

6. If any mines or quarries are found in a village the attestation officer will fill up a form for the village and send it to the Collector for information.

7. The attestation officer will also enquire into the value of any *méla* that may be held in the village.

8. All proceedings and papers with reference to the revaluation will be kept in a separate valuation *nathi*.

9. At the time of attesting rents, the attestation officer will inform the parties that *belagan kabil lagan* lands can be settled to rent by him and shall settle such lands at the village rates for *khandiait* or raiyati lands as the case may be when the parties request a settlement. Where the parties do not ask for a settlement, the attestation officer must estimate the rent that would be payable for such lands and note in the *khas shart* of the khatian that "*plots number .... being held rent-free but liable to rent will be treated for cess valuation purposes as liable to a rent of..................*"

10. *Produce rents.*—If no commutation is made of the produce rent the money value thereof should be taken to be the annual value of the landlord's share of the crop calculated on an average of the three years next preceding the revaluation. When application is made under section 61 of the Chota Nagpur Tenancy Act (Beng. Act VI of 1908) for the commutation of produce rents, the Assistant Settlement Officer should decide the case before the record is made over to the cess muharrir.

11. The valuation of any special classes of land such as orchards and gardens will be made according to the cess valuation of each particular case. In valuing orchards the Assistant Settlement Officer will take into consideration the questions whether the fruits are kept exclusively for the owners or not.

12. After the final commutation of predial conditions the attestation officer will after examination of the schedule of occupancy raiyats come to a finding concerning the rates of rent per acre for each class of land in the village and will ordinarily value at these rates the rent-free lands of the village such as—

Brahmottar.	Pujai.	Naukran.
Debottar.	Goraiti.	Manjhihas (including bakasht)

and any other classes.

13. The method of discovering the rates of rent prevailing for each class of land, will be that which was adopted in Ranchi in connection with rent settlement proceedings. Subject to modification after the results of crop-cutting experiments in Hazaribagh have been

collated the following relative values of the different classes of land which were adopted in the Ranchi rent settlement may be accepted for valuation purposes:—

1st class. Rice land.	2nd class. Rice land.	3rd class. Rice land.	1st class. Up-land.	2nd class. Up-land.	3rd class. Up-land.
20	16	12	6	2	1

The area of each class of land will be totalled, and taking 3rd class up-land as a unit, the number of units in the village will be calculated. The total rental will be divided by the total number of units and the multiples of the dividend calculated according to the above stated proportion will give the rate of rent per acre for each class of land. For instance, if the areas of the different classes of land held by occupancy raiyats are as follows:—

	Acres.		Units.
Don 1	... 20	The number of units in term of tanr III will be—	400
„ 2	... 30		480
„ 3	... 40		480
Tanr I	... 10		60
„ II	... 60		120
„ III	... 100		100
		Total ...	1,640

If the rent paid for these lands is Rs. 102-8 the value of each unit will be one anna and the rates per acre will be—

				Per acre. Rs.	A.
Tanr III	...	...	...	0	1
„ II	...	...	...	0	2
„ I	...	...	...	0	6
Don 3	...	...	...	0	12
„ 2	...		...	1	0
„ 1	...	...	...	1	4

14. The munsarim in charge of a village will subdivide the remarks column of commutation schedule II into three columns. In the first will be entered the fees payable by the raïyats under rule 3 as *lahkar*, *tasarkar*, etc.; in the second will be entered the value of *belagan kabil lagan* lands still unassessed to rent, and in the third the total value of produce rents as fixed by the Assistant Settlement Officer under rule 10.

15. *Dihbari* rent being ground rent for the houses of non-agricultural tenants is assessable to road cess. The rent will be entered in brackets in commutation schedule II.

16. For the valuation of jungles the Assistant Settlement Officer will be required to visit and inspect any extensive jungle area and classify it as first, second or third class. First class jungle will consist of preserved jungle containing valuable saleable timber; third class jungle will be mere scrub jungle only fit for fuel. Second class will be such jungle as falls between 1st and 3rd class jungles. The valuation rates for the jungles will be decided early in the season by the Settlement Officer after conferring with the Deputy Commissioner and the principal landlords of the area under attestation.

17. Tanks, jhils, etc., will be assessed with other uncultivated lands at rates to be fixed hereafter.

18. After the value of all lands has been made and entered in the commutation schedule II in the manner prescribed above, the cess *nathi* and the records will be made over to the cess muharrir who will carry forward each tenancy into form I, which is an abstract of the details entered in the commutation schedule II.

19. It is essential for the correctness of form II which is the valuation roll of the village prepared for draft publication that the khewat entries should be properly examined and numbered. Accordingly it will be necessary to have the corrected khewat fair copied before the records are given to the cess muharrir. In writing up form II the muharrir will start with the last khewat entry and finish with the zamindar of the estate: columns 8 to 11 will be filled up from columns 12, 13 of the preceding entries. Column 14 will be filled up from the entry in the khewat.

20. The draft valuation rolls, forms I and II, will be draft published with the village records and any objections to the entries will be received in the same manner as objections to the record-of-rights under section 83 of the Chota Nagpur Tenancy Act.

No. 1716M.—The 26th December, 1910.—The following by laws have been made by the General Committee under sections 559 and 561, and confirmed by the Corporation and sanctioned by the Lieutenant-Governor in Council under section 566 (1), of the Calcutta Municipal Act, 1899, and are hereby published as required by section 570 of that Act:—

By-law under section 559, clause (32), for securing the efficient inspection of markets and of places set apart under proviso (iii) to section 481 for the sacrifice of animals.

[In]spection of [mark]ets and of places [set a]part for the sacrifice of animals.

1. (*1*) All private and municipal markets, and all places set apart under proviso (*iii*) to section 481 of the Calcutta Municipal Act, 1899, for the sacrifice of animals, shall be open at all reasonable times to the inspection of the Municipal Authorities and of such officers and servants of the Corporation, or such other persons, as may from time to time be authorized in writing by the Chairman in that behalf.

(*2*) Every person to whom a license has been or is hereafter granted by the Chairman under the said section 481, to keep open a private market, and every owner or lessee of a market registered under the Calcutta Markets Act, 1871, and every owner or lessee of a place set apart under proviso (*iii*) to the said section 481, shall at all reasonable times afford every facility to the Chairman, and to officers, servants or persons authorized in writing by the Chairman under clause (*1*) of this by-law, for inspecting such market or place, including all buildings, stalls and sheds therein and all ways, paths and passages therein, and the drains and privies and places and receptacles for the deposit of refuse therein.

Ben. Act VIII of 1871.

By-laws under section 559, clauses (33) to (36), (38) and (39), for municipal markets

Market Superintendent.

2. Subject to the control of the Chairman, every municipal market shall be under the management of an officer (hereinafter called the "Market Superintendent") appointed by the Corporation or other Municipal authority in this behalf.

Licensing and registration of coolies.

3. (1) No person shall work for hire as a cooly or carrier within the limits of any municipal market unless he is duly licensed for the purpose by the Chairman or by an officer authorized by the Chairman to grant such licenses.

(2) A register of licensed market-coolies or carriers shall be kept in the office of the Market Superintendent, and shall be open, during office hours on all days except Sundays and closed holidays, to the inspection of any Municipal Commissioner and of any other person interested therein.

(3) Coolies or carriers shall be licensed half-yearly or at such other times as the Chairman may from time to time direct, and their names and numbers shall be entered in the said register, and each cooly or carrier shall pay the license fee fixed in this behalf by the Chairman with the sanction of the Corporation under section 586 (2) of the Calcutta Municipal Act, 1899.

Saving as to private servants and coolies.

4. Nothing contained in by-law 3 shall prevent the servants of persons attending a Municipal market from carrying purchases made by the latter, or shall prevent a person attending such a market from employing his own coolies taken by him to the market for the purpose of carrying his purchases:

Provided that the Market Superintendent may, for special reasons to be recorded by him in writing, refuse to allow any particular person to act as a private cooly in any municipal market.

Uniforms and badges for licensed coolies.

5. (1) Every licensed market-cooly or carrier shall wear a uniform, and a badge bearing a number corresponding with his number in the register of licensed market-coolies or carriers; and no such licensed market-cooly or carrier shall ply for hire in any municipal market unless wearing his badge.

(2) The said uniforms and badges shall be supplied by the Corporation

Sirdars.

6. Sirdars shall be appointed by the Chairman to preserve order and discipline among the licensed coolies or carriers in municipal markets, and to prevent them from harassing the public resorting to such markets.

Conduct of licensed coolies.

7. (1) A licensed market-cooly or carrier shall not, while plying for hire in a municipal market, cause annoyance to any person.

(2) Every licensed market-cooly or carrier of a municipal market shall at all times, while plying for hire, conduct himself with civility and propriety towards every person hiring or seeking to hire his services, and shall comply with every reasonable requirement of any person hiring his services, and shall in all respects obey the orders of the Market Superintendent or other officer having charge of the market for the time being.

Complaints by or against licensed coolies or sirdars.

8. All complaints by or against licensed coolies or carriers or sirdars of a municipal market shall be disposed of by the Market Superintendent or other officer in charge of the market for the time being.

Arrangement of shops, stalls and standings.

9. The general arrangement of shops, stalls and standings in municipal markets shall be subject to the orders of the Chairman, but no important alteration in this respect shall be made without a reference to the Corporation.

Allotment of shops, stalls and standings.

10. Applications for shops or stalls in a municipal market must be made to the Market Superintendent, who shall allot shops and stalls, subject to the orders of the Chairman; and the Superintendent shall also arrange, subject to the orders of the Chairman, in which portions of the market squatters may place and vend their goods.

Definition of "vendor."

11. The word "vendor" as used in the following by-laws means a shop-keeper, a stall-holder or a squatter.

Registration of vendors.

12. The name of every vendor in a municipal market shall be registered in the register to be kept by the Market Superintendent.

Tenure, and payment of rent, by vendors.

13. (1) Shops in municipal markets shall be held on lease or from month to month, subject to the permission of the Chairman and to the regular payment monthly in advance of rent falling due.

(2) Stalls in municipal markets shall be held from day to day or otherwise as may be agreed upon, subject to the permission of the Chairman and to the payment of rent daily in advance.

(3) Squatters may occupy such portions of a municipal market area as may from time to time be allotted to them by the Market Superintendent, subject to the payment daily in advance of such rent as may be agreed upon and subject to discontinuance of occupancy on twenty-four hours' notice.

(4) All rent due from vendors must be paid within twenty-four hours after service of written notice demanding payment.

Market Superintendent to give receipts for rents.

14. Printed receipts shall be given by the Market Superintendent for all rents paid by vendors in a municipal market; and no sum in respect of such rents shall be received by him without giving such a receipt.

15. Any vendor in a municipal market who occupies any shop or stall or portion of the market for any portion of a day shall be liable to rent for the whole of that day. *Rent payable for partial occupation.*

16. No shop or stall shall be occupied rent-free. *Shops and stalls not to be occupied rent-free.*

17. Every shop-keeper or stall-holder in a municipal market shall keep open his shop or stall every day, unless prevented by sufficient reason; and due notice must be given to the Market Superintendent if a shop is kept closed for more than three days. *Shops and stalls to be kept open.*

18. Subject to the terms of his lease or agreement, no shop-keeper or stall-holder in a municipal market shall retain a lien on his shop or stall during absence therefrom, unless he pays full rent for it during such absence, and no such lien shall exist after an absence of fifteen consecutive days. *Lien on shop or stall during absence.*

19. Shop-keepers and stall-holders in a municipal market must take measures for securing the safety of their property kept in their shops or stalls, so long as they continue to hold such shops or stalls. *Care of property in shops or stalls.*

20. (1) No person resorting to any municipal market-building or market-place for the sale of cattle, goods, provisions, marketable commodities or other articles shall, for the purpose of sale or exposure for sale, place the same or cause the same to be placed in any part of such market-building or market-place which has not been appropriated by a Municipal Authority or municipal officer or servant for the purpose. *Appropriation of places for sale of goods.*

(2) When any places have been so appropriated, the Corporation shall cause them to be suitably marked and indicated.

21. No butcher or other person employed in any municipal market in the sale or the exposure or preparation for sale of any carcase or meat intended for food shall deposit such carcase or meat upon the floor, or shall cleave or cut up such carcase or meat otherwise than upon a cleaving block or chopping board, unless it be properly attached to or suspended from hooks provided for the purpose. *Meat not to be deposited or cut on the floor.*

22. (1) Every vendor in a municipal market shall, before the hour of 10 P.M. each day, extinguish every fire and light in, upon or in connection with his shop, stall or standing, unless the Market Superintendent previously permits him to keep it burning beyond that hour. *Fires and lights.*

(2) No fire or light shall be lit by any person in, upon or in connection with any shop, stall or standing in a municipal market if the Market Superintendent considers it would cause danger.

23. All vendors in a municipal market, and their servants and agents, shall obey all reasonable orders of the Corporation, the Chairman or the Market Superintendent. *Vendors to obey orders.*

24. (1) No person shall be entitled to recognition by the Corporation as a partner of any shop-keeper or stall-holder in a municipal market, in respect either of the business carried on in his shop or stall or of the goods dealt with therein, unless he has been registered as a partner in the register kept by the Market Superintendent under by-law 12. *Transfer of interest in shops, etc.*

(2) No vendor shall sub-let, assign, or otherwise transfer his interest in his shop, stall or standing in a municipal market, or any portion of such interest, without the previous written sanction of the Chairman; and no transferee of any such interest or portion shall enter into occupation unless such sanction has been obtained and until the transfer has been registered in the register kept by the Market Superintendent under by-law 12.

25. No person shall, in any municipal market,— *Hawking, touting, and distribution of literature.*

(a) hawk goods, or

(b) sell goods through the agency of a tout, or

(c) act as a tout, or

(d) circulate or distribute any hand-bills, circulars or other writings or literature for the purpose of advertisement or for any other purpose whatsoever.

26. No person shall offer, expose, or have in his possession, for sale in a municipal market, any live bird or animal which is suffering pain by reason of mutilation, starvation or other ill-treatment. *Cruelty to birds or animals.*

27. Every vendor in a municipal market who has any live poultry or other bird or any live animal in his possession or control within such market shall supply the same with sufficient food and water. *Feeding and watering of birds and animals.*

28. (1) No person suffering from any loathsome disease shall enter any municipal market or touch any article brought thereto for sale. *Persons suffering from loathsome diseases.*

(2) If any person so suffering commits a breach of clause (1) of this rule, he may be forthwith expelled from the market by the Market Superintendent or any other Municipal officer.

29. (1) Every vendor in a municipal market shall be bound to afford every facility to the officer appointed under section 510, sub-section (2), for verifying weights and measures, to admit of his examining weights and measures used in carrying on the business of such vendor. *Weights and measures.*

(2) No vendor in a municipal market shall use or be in possession of any false or defective weights, scales or measures, or shall sell by any short measure or weight.

Price-current.

30. (*1*) The Market Superintendent shall prepare weekly a price-current, in which the prevailing prices of meat, fish, vegetables, fruits and provisions of all kinds brought for sale to a municipal market, and the prices of such other articles as the Superintendent may think fit, shall be entered as accurately and fairly as possible.

(*2*) Copies of such price-current shall be affixed on boards to be put up in the market in conspicuous places to be set apart for that purpose, and shall also be published in the *Exchange Gazette* and otherwise as the Chairman may from time to time direct.

(*3*) Any rise or fall in the price of any particular article as aforesaid shall be noted by the Superintendent in the said price-current.

Penalties under section 561 for breach of the foregoing by-laws.

Penalties.

31. If any person commits a breach of any of the foregoing by-laws, he shall be punishable—

(*a*) with fine which may extend to twenty rupees, and, in the case of a continuing breach, with fine which may extend to ten rupees for every day during which the breach continues after conviction for the first breach, or

(*b*) with fine which may extend to ten rupees for every day during which the breach continues after receipt of written notice from the Chairman to discontinue the breach.
